All charts and tables in this report are drawn from publically accessible child welfare data. These reports will have limited utility in counties with small caseloads (50 cases or fewer), however we will make them available for use in all 58 counties in California. Caution should be exercised in the interpretation of the contents of these reports when caseloads are small. Attempts to extrapolate, infer or generalize may lead to erroneous conclusions when cell sizes are small.

California: Juvenile Dependency Filings

Source: Judicial Branch Statistical Information System (JBSIS) data warehouse, data submitted and amended by the courts and loaded into the JBSIS database as of June 28, 2013.

Note: Data include filings of original and subsequent petitions. Discrepancies between these data and data in the Court Statistics Report are a result of the fact that JBSIS data are continually updated as data become available.

*Listed years represent end year of interval. For example, interval Jul 1-Jun 30 and year 2006 represents data from Jul 1, 2005-Jun 30, 2006.

Amador: Children Entering and Exiting Foster Care

California: Children Entering and Exiting Foster Care

Notes: Data are limited to children in foster care for eight days or more. Children entering or exiting care more than once during the period are counted once. These data include child-welfare-supervised foster children (and exclude those supervised by probation and other agencies). An exit is defined as the end of a foster care placement episode, not necessarily termination of jurisdiction. See endnotes for more information.

Amador and California: Percent Recurrence of Maltreatment within Twelve Months

If there is a subsequent report of maltreatment within 14 days of the earlier report, it is not counted as recurrent maltreatment. Youth who are age 18 or more are excluded from the calculation of the indicator. See endnotes for additional information.

*Listed years represent end year of interval. For example, interval Jul 1-Jun 30 and year 2006 represents an initial 12-month period of Jul 1, 2005-Jun 30, 2006.

2. Voluntary: Children in Voluntary Family Maintenance (FM) and Non Court Dependent, Child Welfare Supervised Foster Care (FC), and Total		
Notes:	Voluntary placement in foster care is both a federal IV-E and a state-funded option to court-ordered foster care. It is, however, time limited, no more than 180 days. At day 180, either the child must be returned to the custodial parent or a petition must be filed. California statute defines voluntary placement in WIC 16507.4, 16507.6, and 11401.1. Federal authority to pay IV-E for voluntary placements is in 42 USC 672 (a)(2)(A) and in (f) and (g). In California, a voluntary placement is considered voluntary Family Reunification (FR). A case plan is required and the parent is provided FR services in order to resolve the issue requiring placement in the 180-day period.

5. Children Entering and Exiting Child Welfare Supervised Foster Care		
Notes:	Children Entering and Exiting are child-level counts. Children entering care more than once during the period will be counted once in entries. Similarly, if a child exits foster care more than once during the period he or she is counted once. 6. Children in Court Dependent, Child Welfare Supervised Foster Care, by Placement Type	
Notes:	<p>Includes only those children in court-ordered foster care. Placements are grouped into three categories: placements in family settings, placements in congregate care, Supervised Independent Living Program (SILP), and other placements. Family settings include Kin, County, Foster Family Agency (FFA), Guardian Dependent (Guard.-Dep.), and Pre-Adopt. Placements in congregate care include Group Home and Shelter. With the November 2014 version of these reports, SILP has been separated from the 'Other' category due to the increase in non-minor dependents. Other placements include Court Specified, Non-Foster-Care, Transitional Housing, Guardian - Other, Runaway, Trial Home Visit, and Other.</p> <p>Foster Family Agencies (FFAs) are private, nonprofit corporations that certify and provide placements for children in foster family homes. FFAs assign their own social workers to provide services to children and foster parents. For children placed in FFAs, county social workers retain case management responsibilities, including reports and recommendations to the juvenile dependency court. Although counties are required to find placements based on the child's needs, some counties turn to facilities such as FFAs due to a lack of alternative placement resources in other less restrictive facilities.</p>

8. Percent Recurrence of Maltreatment within Twelve Months	
For Children with a Substantiated Allegation during Twelve-month Period	
Notes:	<p>This is Federal/CWS Outcomes Measure: Of all children who were victims of a substantiated maltreatment allegation during a 12-month reporting period, what percent were victims of another substantiated maltreatment allegation within 12 months of their initial report?</p> <p>Denominator: The denominator is the number of children with at least one substantiated maltreatment allegation in a 12-month period.</p> <p>Numerator: The numerator is the number of children in the denominator that had another substantiated maltreatment allegation within 12 months of their initial report. If there is a subsequent report of maltreatment within 14 days of the earlier report, it is not counted as recurrent maltreatment. Youth who are age 18 or more are excluded from the calculation of the indicator.</p> <p>Performance: Performance for this measure is the numerator divided by the denominator, expressed as a percentage.</p>

<p>9. Percent of Children with Re-entries within Twelve Months For Children with Entries during Twelve-month Period and Subsequent Exits to Reunification or Guardianship within Twelve Months</p>	
Notes:	<p>This is a Federal/CWS Outcomes Measure: Of all children who enter foster care in a 12-month period who discharged within 12 months to reunification, living with a relative(s), or guardianship, what percent re-enter foster care within 12 months of their discharge?</p> <p>Denominator: The denominator is the number of children who entered foster care in a 12-month period who discharged within 12 months to reunification, or guardianship. Please note that this denominator does not include children discharged to adoption, who re-enter within 12 months. Children in foster care for less than 8 days or who enter or exit foster care at age 18 or more are excluded from the denominator.</p> <p>Numerator: The numerator is the number of children in the denominator who re-entered foster care within 12 months of their discharge from foster care. If a child re-enters foster care multiple times within 12 months of when they left, only the first re-entry into foster care is selected.</p> <p>Performance: Performance for this measure is the numerator divided by the denominator, expressed as a percentage. A decrease in the percentage indicates an improvement in performance.</p>

<p>10. Percent Exiting Placement to Permanency Over Time by Exit Type For Children Entering Child Welfare Supervised Foster Care January 1, 2012 to December 31, 2012</p> <p>a. Total b. Within Specified Time Frames c. By Relative Placement and Non-Relative Placement</p>	
Notes:	<p>Exits are based on end dates for placement episodes. Generally, exits to adoption, guardianship and emancipation coincide with termination of jurisdiction. Exits to reunification remain as open court cases if families are receiving court ordered post-placement family maintenance services.</p> <p>For part (b), note that children and youth still in care at 36 months may exit in subsequent months. Once additional data become available, an updated look--adding '36+ to 42 months', for example--would likely show different proportions within the specified time frames for some or all exit types and the total.</p> <p>The analyses in part (c) can be replicated on the dynamic site: select both the 'Relative Guardian' and 'Relative Nonguardian' Last Caregiver Relationship options to match the 'Relative Placement' values reported here. Select Last Caregiver Relationships 'Nonrelative Guardian' and 'Nonrelative Nonguardian' to reproduce the 'Non-Relative Placement' values.</p>
