INSTRUCTIONS: Please review and complete the instructions on this form.

Will your court/subcontractor Access to Visitation Grant Program collect program income?

| | |
|--------------------------|--------------------------|
| YES | NO |
| <input type="checkbox"/> | <input type="checkbox"/> |

If your court/subcontractor will be collecting program income, please include your good faith estimate of the anticipated amount of program income to be collected for fiscal year 2023–2024 only. Program income is any income generated by the Access to Visitation Grant Program (e.g., program fees). Court/subcontractors should carefully review section 45 CFR 92.25 for additional guidance regarding program income requirements (<http://edocket.access.gpo.gov/cfr_2004/octqtr/pdf/45cfr92.25.pdf>). Please note that the entire amount earned by the court/subcontractor must be expended for the purposes of providing services under the Access to Visitation Grant Program and must be expended during the project period (i.e., fiscal year 2023–24). The federal funder views program income as a third source of funding under the grant. The court/subcontractors are required to provide information regarding the source of program income and all program income must be an allowable Access to Visitation Grant program expenditure.

| Applicant Court | Name of Subcontractor Agency | Source of Program Income (e.g., NCP fees) | Estimated Program Income to be Collected |
