#### INVITATION TO COMMENT SPR17-15

#### Title

Juvenile Law: Psychotropic Medication

Proposed Rules, Forms, Standards, or Statutes

Amend Cal. Rules of Court, rule 5.640; adopt form JV-216; revise forms JV-217-INFO, JV-219, JV-220, JV-220(A), JV-220(B), JV-221, JV-222, and JV-223

#### Proposed by

Family and Juvenile Law Advisory
Committee
Hon. Jerilyn L. Borack, Cochair
Hon. Mark A. Juhas, Cochair

#### **Action Requested**

Review and submit comments by April 28, 2017

**Proposed Effective Date** 

January 1, 2018

#### **Executive Summary and Origin**

The Family and Juvenile Law Advisory Committee proposes amending the rule relating to the administration of psychotropic medications to children who are dependents or wards of the court, adopting one form and revising eight forms, to address suggestions received from stakeholders who assisted with the implementation of recent statutory changes to the requirements for court authorization of psychotropic medication for foster children and others on this rule and these forms.

#### Background

As indicated in the bill analysis for Senate Bill 238, enacted in 2015 (Mitchell; Stats. 2015, ch. 534), "[i]n 1999, the Legislature passed Senate Bill 543 (Bowen, Ch. 552, Stats. 1999), which provided that only a juvenile court judicial officer has the authority to make orders regarding the administration of psychotropic medications for foster youth." This legislation was passed in response to concerns that foster children were being subjected to excessive use of psychotropic medication, and that judicial oversight was needed to reduce the risk of unnecessary medication. The Judicial Council was required to adopt rules of court to implement the new requirement. Accordingly, effective July 1, 2016, the Judicial Council adopted rule 5.640 of the California

<sup>&</sup>lt;sup>1</sup> Sen. Com. on Judiciary, Analysis of Sen. Bill No. 238 (2015–2016 Reg. Sess.) Apr. 7, 2015, pp. 1–2.

Rules of Court, which specifies the process for juvenile courts to follow in authorizing the administration of psychotropic medications and permits courts to adopt local rules to further refine the approval process.

In 2004, the provisions of SB 543 were amended by Assembly Bill 2502 (Keene; Stats. 2004, ch. 329), which required a judicial officer to approve or deny, in writing, a request for authorization to administer psychotropic medication, or set the matter for hearing within seven days. This amendment was intended to ensure timely consideration of requests for authorization to administer psychotropic medication to dependent children.

Despite these measures, concerns remain that psychotropic medication is overused and underreported in the child welfare system. SB 238 was enacted in 2015 to comprehensively address the issues related to the administration of psychotropic drugs in the foster care system by requiring additional training, oversight, and data collection by caregivers, courts, counties, and social workers. The bill also required the Judicial Council, in consultation with other identified groups, to implement specified provisions of the bill. To implement SB 238, effective July 1, 2016, the Judicial Council amended rule 5.640, approved two optional forms, adopted two mandatory forms, revised four forms, and revised and renumbered one form to implement the mandates of SB 238.

The committee has received information on an ongoing basis about how these forms are functioning. Additionally, as mentioned above, SB 238 required the Judicial Council to implement specified provisions of the bill in consultation with other stakeholder groups. Before the 2016 changes to rule 5.640 and the forms were recommended for adoption, members of the committee met with the stakeholders and made many changes to the rule and forms based on their input. The committee asked this same group of stakeholders for input on this new proposal, specifically asking if they had identified problems in using the forms or rule.

#### The Proposal

Based on the suggestions received from stakeholders and others, the committee is proposing several clarifying changes to the rule and forms in this "clean-up" proposal.

#### References to Physician's Request to Continue Medication—Attachment (form JV-220(B))

This form was created to address concerns from physicians and physician groups that *Physician's Statement*—*Attachment* (form JV-220(A)) was too long and would take too long to complete when the physician is requesting to continue use of a medication. In response to these comments, the committee created a shortened form for a request to continue the same medication by the same physician who completed the most recent form JV-220(A). References to form JV-220(B) were not completely inserted into rule 5.640, however. Most notably, a reference was not added to subdivision (h), which requires that a copy of the order and the last two pages of form JV-220(A) be provided to the caregiver. It was also not included on *Order on Application for Psychotropic Medication* (form JV-223) as evidence the judge relied on, and there is not an instruction on the order to provide the last two pages of form JV-220(B) to the caregiver.

This proposal would amend rule 5.640 and revise form JV-223 to add the references to JV-220(B).

# Length of *Physician's Statement—Attachment* (form JV-220(A)) and *Physician's Request to Continue Medication—Attachment* (form JV-220(B))

The committee received input from physicians that forms JV-220(A) and JV-220(B) are time-consuming to complete in part because of duplicative questions. The committee carefully reviewed these suggestions and proposes streamlining the forms as follows:

- Removing a duplicative question regarding the symptoms that are expected to improve with the medications prescribed;
- Removing references to alphanumeric codes on form JV-220(A);
- Combining questions regarding the child's response to any current psychotropic medication and the symptoms not alleviated by other current or past treatment efforts so the prescribing physician does not need to provide the same information twice;
- Removing a question regarding the possible adverse reactions, and replacing it with a check box indicating whether the caregiver was given a copy of the informational packets regarding the medication; and
- Removing the requirement that the physician indicate the medication is a continuing medication on form JV-220(B).

The committee also proposes revising the instructions in *Application for Psychotropic Medication* (form JV-220) to clarify that the prescribing physician does not need to complete the questions beyond the first page of the form. The committee also proposes corresponding amendments to rule 5.640. These changes should help decrease the amount of time physicians spend filling out form JV-220 in jurisdictions where the belief is that if the physician is the applicant, he or she must fill out both form JV-220 and form JV-220(A) or form JV-220(B).

#### Parental authorization

Under Welfare and Institutions Code sections 369.5 and 739.5 and rule 5.640(e), the court may order that the parent be authorized to approve or deny the administration of psychotropic medication in limited circumstances. Although parental authorization was not addressed in the winter 2016 proposal, the committee has become aware that the parental authorization process is unclear. The committee received a question from one county regarding whether form JV-220 is required when all parties agree that the parents can consent to psychotropic medication. Sections 369.5 and 739.5 are silent as to the process for the juvenile court to issue an order delegating the

authority to a parent.<sup>2</sup> Rule 5.640(e), however, requires that the court first consider an application and attachments and review the case file.<sup>3</sup>

To clarify the process, the committee proposes revising rule 5.640(e) to mirror statute and to remove the requirement that the court must first consider an application and attachments and review the case file before it can issue an order delegating authority to a parent. The committee further proposes that the rule cross-reference the statute with the required findings to support such an order.

The committee also proposes adopting mandatory *Order Delegating Judicial Authority Over Psychotropic Medication* (form JV-216) to document the court's findings and order.

#### Other form changes

Guide to Psychotropic Medication Forms (form JV-217-INFO) omits parents in the description of people who can submit optional forms. The committee proposes revising this form to include parents and to include references to form JV-220(B) where necessary.

The signature line on *Statement About Medicine Prescribed* (form JV-219) reads "Caregiver signs here." The form, however, can also be filled out by parents, CASA volunteers, and Indian tribes. The committee therefore proposes changing the signature line to read "Sign your name."

*Proof of Notice of Application* (form JV-221) is a mandatory form that currently omits several of the documents that must be provided to the various parties when making an application for psychotropic medication. It also allows the applicant to explain how the caregiver was given information on how to obtain copies of the required forms, but rule 5.640 requires that the caregiver be given copies; it does not authorize the alternative approach of giving the caregiver information about how to obtain copies of the forms.

One court pointed out that submitting more than one *Input on Application for Psychotropic Medication* (form JV-222) is possible, but *Order on Application for Psychotropic Medication* (form JV-223) has space to enter only one form JV-222 as evidence on which the court relied. The committee proposes revising form JV-223 to allow for multiple submissions of form JV-222 and *Statement About the Medicine Prescribed* (form JV-219), and to reference form JV-220(B), as discussed above.

-

<sup>&</sup>lt;sup>2</sup> Sections 369.5 and 739.5 require that this delegation be requisite on making findings on the record that the parent poses no danger to the child and has the capacity to authorize psychotropic medications.

<sup>&</sup>lt;sup>3</sup> The findings required by rule 5.640 are broader than those required by section 369.5. The rule requires the court to find that (1) the parent poses no danger to the child, and (2) the parent has the capacity to understand the request and the information provided and to authorize the administration of psychotropic medication to the child, consistent with the best interest of the child.

The committee proposes revising form JV-222 to request information about how long the person filling out the form has known the child and if the child is living in the person's home, for how long the child has lived with him or her.

#### Other changes to rule 5.640

One large county asked who is required to give notice to the parties of the application. Rule 5.640(c)(8), which governs notice, does not specify. Rule 5.640(c)(5), however, provides that "local county practice and local rules of court determine the procedures for completing and filing the forms and for the provision of notice." The committee proposes amending the rule and moving the text regarding local practice to the paragraph of the rule governing notice.

Rule 5.640(c)(8) does not specify deadlines for serving *Proof of Notice of Application* (form JV-221) on the other parties. The committee proposes revising the rule to clarify that form JV-221 must be filed at the same time as the application.

#### Alternatives Considered

The committee considered consolidating or eliminating a number of questions on the *Physician's Statement*—Attachment (form JV-220(A)) and *Physician's Request to Continue Medication*—Attachment (form JV-220(B)). The committee proposes some streamlining of these forms to address this concern; however, the committee concluded that most of the questions are critical to the court's oversight role of psychotropic medication and should remain on the form. For example, the committee concluded that specific questions on an assessment of the child's overall mental health and nonpharmacological treatments that the child is participating in were necessary to perform judicial oversight of the orders for psychotropic medication. Judges are also accepting forms that reference another item number if the information is contained in an item already filled out by the physician.

The committee considered that children's Health and Education Passports (HEPs), which are meant to relay pertinent medical information that would support the completion of form JV-220(A) and form JV-220(B), are not delivered in a timely fashion, if at all. Regarding a request that the committee recognize these delays and develop workarounds, the committee concluded that county agencies must resolve this issue, which is not under the council's rule-making authority.

The committee considered, at the request of public health nurses, whether essential laboratory tests should be mandated to be attached to the application for psychotropic medication. The committee concluded that tests need not be attached, given confidentiality concerns and an existing cross-reference in the rule to the Civil Code section that governs how public health nurses can get the necessary information to perform their oversight role.

The committee considered specifying on *County Report on Psychotropic Medication* (form JV-224) which social worker or probation officer should complete the form if the child is placed outside his or her county of original jurisdiction and the responsibility for providing or arranging

for specialty mental health services is transferred to his or her county of residence. The committee concluded, however, that the social worker or probation officer with the most information regarding the child's mental health treatment should fill out this mandatory form and that person could differ on a case-by-case basis. The committee therefore does not propose directing or limiting who should fill out the form.

#### Implementation Requirements, Costs, and Operational Impacts

All the forms and procedures discussed in this invitation to comment were effective July 1, 2016. In implementing the revised forms, courts will incur standard reproduction costs.

### **Request for Specific Comments**

In addition to comments on the proposal as a whole, the advisory committee is interested in comments on the following:

- Does the proposal appropriately address the stated purpose?
- Should a form be created to document the court's findings and order when the court orders that a parent is authorized to approve or deny the administration of psychotropic medication? If so, should that form be mandatory or optional?
- Should rule 5.640(e) include legal guardians, in addition to parents, as those the court can order authorized to approve or deny the administration of psychotropic medication?

The advisory committee also seeks comments from *courts* on the following cost and implementation matters:

- Would the proposal provide cost savings? If so, please quantify.
- What would the implementation requirements be for courts—for example, training staff (please identify position and expected hours of training), revising processes and procedures (please describe), changing docket codes in case management systems, or modifying case management systems?
- Would two months from Judicial Council approval of this proposal until its effective date provide sufficient time for implementation?
- How well would this proposal work in courts of different sizes?

#### **JV-217-INFO**

#### **Guide to Psychotropic Medication Forms**

Use these Judicial Council forms to ask for an order to give (or to continue giving) psychotropic medication to a child who is a ward or a dependent of the juvenile court and living in an out-of-home placement or in foster care, as defined in Welfare and Institutions Code section 727.4. Local forms may be used to provide additional information to the court.

*Exception:* These forms are *not* required in these situations:

- If the child lives in an out-of-home facility *not* considered foster care, as defined by section 727.4, unless a local court rule requires it; or
- If there is a previous court order that gives the child's parent(s) the authority to approve or refuse the medication.

Required	Forms	Optional Forms
	Application for Psychotropic Medication Physician's Statement—Attachment Physician's Request to Continue Medication— Attachment	The parent, child, caregiver, CASA, or Indian tribe wanting to give input to the court may use one of these forms:  JV-218 Child's Opinion About the Medicine  JV-219 Statement About Medicine Prescribed
JV-221 JV-223 JV-224	Proof of Notice of Application  Order on Application for Psychotropic Medication  County Report on Psychotropic Medication	A person who opposes the proposed medication or who wants to give the court more information may fill out this form:  JV-222 Input on Application for Psychotropic Medication

#### Required Forms

## Form JV-220, Application for Psychotropic Medication

This *Application* gives the court basic information about the child and his/her living situation. It also provides contact information for the child's social worker or probation officer.

This form is usually completed by the social worker or probation officer, but is sometimes completed by the prescribing physician or his/her staff, or the child's caregiver.

Whoever completes the form must identify him/herself by name and by signing the form. If the prescribing physician completes this form, s/he must also complete and sign form JV-220(A) or form JV-220(B). (See below.)

#### 2 Form JV-220(A), Physician's Statement— Attachment

This form is used to ask the court for a *new* order. The prescribing doctor fills out this form then gives it to the person who files the *Application* (form JV-220).

This form provides a record of the child's medical history, diagnosis, previous treatments, and information about the child's previous experience with psychotropic medications. The doctor will list his/her reasons for recommending the psychotropic medications.

**Emergencies:** A child may **not** receive psychotropic medication without a court order except in an emergency. A doctor may administer the medication on an emergency basis. For a case to qualify as an emergency, the doctor

must find that the child's mental condition requires immediate medication to protect him/her or others from serious harm or significant suffering, and that waiting for the court's authorization would put the child or others at risk. After a doctor administers emergency medication, s/he has two days at most to ask for the court's authorization.

### (3) Form JV-220(B), Physician's Request to Continue Medication—Attachment

This is a shorter version of form JV-220(A). It may be used only by the same doctor who filled out the most recent form JV-220(A) if s/he is prescribing the same medication with the same maximum dosage. The prescribing doctor fills out this form then gives it to the person who is filing the *Application* (form JV-220).

#### 4 Form JV-221, Proof of Notice of Application

This form shows the court that all parties with a right to receive notice were served a copy of the *Application* and attachments, according to rule 5.640 of California Rules of Court.

The person(s) in charge of notice must fill out and sign this form. A separate signature line is provided on each page of the form to accommodate those courts in which the provision of notice is shared between agencies. This occurs when local practices or local court rules require the child welfare services agency to provide notice to the parent or legal guardian and the caregiver, and the juvenile court clerk's office to provide notice to the attorneys and CASA

 $\rightarrow$ 

#### JV-217-INFO

#### **Guide to Psychotropic Medication Forms**

volunteer. If one agency does all the required noticing, only one signature is required on page 3 of the form. The person(s) in charge of service should use the fastest method of service available so that people can be served on time. E-notice can be used only if the person or people to be e-served agree to it. (Code Civ. Proc., § 1010.6)

## 5 Form JV-223, Order on Application for Psychotropic Medication

This form lists the court's findings and orders about the child's psychotropic medications. The agency or person who filed the *Application* must provide the child's caregiver a copy of the court order approving or denying the *Application*.

The copy of the order must be provided (in person or by mail) within two days of when the order is made.

If the court approves the *Application*, the copy of the order must include the last two pages of form JV-220(A) or JV-220(B), and all of the medication information sheets (medication monographs) that were attached to form JV-220(A) or JV-220(B).

If the child's placement is changed, the social worker or probation officer must provide the new caregiver with a copy of the order, the last two pages of form JV-220(A) or JV-220(B), and all of the medication information sheets (medication monographs) that were attached to form JV-220(A) or JV-220(B).

### 6 Form JV-224, County Report on Psychotropic Medication

The social worker or probation officer must complete and file this form before each progress review. It has information that the court must review, including the caregiver's and child's observations about the medicine's effectiveness and side effects, information on medication management appointments and other follow-up appointments with medical practitioners, and information on the delivery of other mental health treatments.

This form must be filed at least 10 calendar days before the progress review hearing. If the progress review is scheduled for the same time as a status review hearing, the form must be attached to and filed with the court report.

#### **Optional Forms**

7 Form JV-218, Child's Opinion About the Medicine
The child may use this form to tell the judge about him/

The child may use this form to tell the judge about him herself and his/her opinion about the medicine.

The child may ask someone s/he trusts for help with the form.

The child may also tell the judge how s/he feels in person at the hearing, by letter, or through his social worker, probation officer, lawyer, or CASA.

#### (8) Form JV-219, Statement About Medicine Prescribed

The parent, caregiver, CASA, or Indian tribe may use this form to tell the court how they feel about the *Application*, and the effectiveness and side effects of the medicine.

This form must be filed within four court days of receipt of the notice of an *Application*, or before any status review hearing or medication progress review hearing.

This form is not the only way for the parent, caregiver, CASA, or tribe to provide information to the court. They can also provide input on the medication by letter; by talking to the judge at the court hearing; or through the social worker, probation officer, attorney of record, or CASA. A CASA can also file a report under local rule.

## 9 Form JV-222, Input on Application for Psychotropic Medication

This form may be used when the parent or guardian, attorney of record for a parent or guardian, child, child's attorney, child's CAPTA guardian ad litem, or Indian child's tribe does not agree that the child should take the recommended psychotropic medication. This form may also be used to provide input to the court.

Within four court days of service of notice of the pending application regarding psychotropic medication, the parent or guardian, his or her attorney, the child, the child's attorney, the child's CAPTA guardian ad litem, or the Indian child's tribe that disagrees must complete, sign, and file form JV-222 with the clerk of the juvenile court.

The court will make a decision about the child's psychotropic medication after reading the *Application*, its attachments, and all statements filed on time. The court is not required to set a hearing if a statement opposed to medication is filed.

If the court does set the matter for a hearing, the juvenile court clerk must provide notice of the date, time, and location of the hearing to the parents or legal guardians, their attorneys, the child if 12 years of age or older, the child's attorney, the child's current caregiver, the child's social worker, the social worker's attorney, the child's CAPTA guardian ad litem, the child's CASA, if any, and the Indian child's tribe at least two court days before the hearing date. In delinquency matters, the clerk also must provide notice to the child regardless of his or her age, the child's probation officer, and the district attorney.

#### **JV-219**

#### **Statement About Medicine Prescribed**

Clerk stamps date here when form is filed.

You may use this form to give the court input on the request for an order for medication for the youth.

You do not have to use this form if you do not want to. There are other ways to give input to the court. You may:

- Send a letter to the judge,
- Speak to the judge at the hearing, or
- Ask your lawyer or the child's social worker, probation officer, or CASA to tell the judge how you feel.

You may add pages to this form if you need more space for your answers. Please put the child's name and the number of the question you are answering on each extra page.

# Input on Application for Psychotropic Medication

Clerk stamps date here when form is filed.

If you do not agree that the child should take the recommended psychotropic medication and/or continue the psychotropic medication that the child is currently taking, or if you wish to tell the court something about the child or medication, complete this form and file it with the court within four court days of receiving notice of the pending application for psychotropic medication. Read form JV-217-INFO, *Guide to Psychotropic Medication Forms*, for more information about the required forms and the application.
