

## Trial Court Interpreters Program Expenditure Report for Fiscal Year 2008-2009

REPORT TO THE LEGISLATURE January 2010

ADMINISTRATIVE OFFICE
OF THE COURTS

## I. Summary

- The amount of $\$ 92,793,481$ was appropriated in total for the provision of court interpreter services (program 45.45) for FY 2008-2009.
- Reimbursement for eligible court interpreter expenditures totaled \$93,705,374 in FY 20082009.
- Eligible expenditures were $\$ 911,893$ greater than the total appropriation; the funding shortfall was covered by one-time funding allocated by the Judicial Council.
- The rate of increase in eligible court interpreter program expenditures, while still significant, is slowing. The increase from FY 2007-2008 to FY 2008-2009 was 5.91 percent.
- Total staff expenditures ( $\$ 69.8$ million) accounted for 74.53 percent of the eligible expenditures, and total contractor costs ( $\$ 23.8$ million) accounted for 25.47 percent of eligible expenditures.
- Expenditures for noncertified and nonregistered interpreters represented 4.77 percent of statewide eligible interpreter costs.

## II. Background

## Constitutional Mandate to Provide Court Interpreting Services in Criminal Matters

Article I, section 14 of the California Constitution was amended in 1974 to provide that "[a] person unable to understand English who is charged with a crime has a right to an interpreter throughout the proceedings." This provision establishes a mandate for the courts to provide interpreters to all defendants in criminal and delinquency matters who have limited ability to understand or speak English. In addition to the constitutional mandate, under federal law individuals with hearing disabilities who require sign language interpreters are required to be provided interpreter services free of charge in all court proceedings.

## Statutory Requirement to Report on Expenditures

The Budget Act of 2008 (Stats. 2008, ch. 268), Item 0250-101-0932, provides a schedule of appropriations from the Trial Court Trust Fund for local assistance. Schedule (4) is the appropriation for the services of court interpreters. Provision 4 provides that "the Judicial Council shall report to the Legislature and Director of Finance annually regarding expenditures" from schedule (4). In fulfillment of that provision, this report details trial court expenditures for court interpreters.

## Program Funding

For FY 2008-2009, the Budget Act of 2008 appropriated $\$ 91,585,000$ for the provision of court interpreter services. A budget revision was approved to increase the total appropriation for total program 45.45 by $\$ 1,208,481$ to accurately reflect budgetary adjustments due to the Consumer Price Index and retirement savings. The revised appropriation of $\$ 92,793,481$ represents an increase of $\$ 2.55$ million (or approximately 2.8 percent) over the prior year's baseline appropriation of $\$ 90.24$ million. Despite this increase, the total appropriation fell short of the eligible court expenditures for court interpreter services. During FY 2008-2009, eligible
expenditures totaled $\$ 93,705,374$, or $\$ 911,893$ above the total appropriation. The Judicial Council allocated one-time funding of up to $\$ 1$ million to cover the anticipated shortfall.

## III. Eligible Expenditures

Program expenditures that qualify for reimbursement are limited to the following four items:

1. Contract court interpreters and their per diems, including travel;
2. Certified and registered court interpreters employed by the courts, including their salaries, benefits, and travel;
3. Court interpreter coordinators; ${ }^{1}$ and
4. Four court interpreter supervisor positions: two in Los Angeles County, one in Orange County, and one in San Diego County. These are the only positions funded under the program that include funding for standard operating expenses and equipment (OE\&E).

The Judicial Council does not currently reimburse trial courts for the cost of supervisors, administrative overhead, or any OE\&E except for the contractual services, travel, and standard complementary items noted above in items (1), (2), and (4), respectively. Trial courts must absorb all other OE\&E costs and, except as noted in item (4) above, all supervisory expenditures associated with staff interpreters and court interpreter coordinators.

Attachment 1 provides a summary, by trial court, of major reimbursable categories, as stated above in items (1)-(4).

## IV. Rates of Pay for Court Interpreters

The Judicial Council first established statewide standards for court interpreter compensation in January 1999, authorizing rates of pay at two defined levels: a full-day rate and a half-day rate. Three increases in pay for certified and registered interpreters have been authorized and made effective, on July 1, 1999; July 1, 2000; and September 1, 2007.

A significant change to the provision of interpreter services was the enactment of Senate Bill 371 in 2002 (Stats. 2002, ch. 1047), which required trial courts to establish staff interpreter positions and to offer employment to certified and registered court interpreters under prescribed conditions. As a result, trial courts began hiring contract interpreters as staff interpreters. Therefore, since 2002 the statewide standards for interpreter pay rates no longer apply to staff interpreters. The statewide standards are now directly applicable only to contract interpreters.

## Statewide Standard for Certified and Registered Contract Court Interpreters

Effective September 1, 2007, the Judicial Council increased the statewide standard for certified and registered interpreters to $\$ 282.23$ for a full day and $\$ 156.56$ for a half day. The full-day rate of

[^0]\$282.23 represents a 41 percent increase over the original full-day rate of $\$ 200$ (effective in January 1999).

## Statewide Standard for Noncertified and Nonregistered Interpreters

During FY 2008-2009, the statewide standard for noncertified and nonregistered interpreters remained $\$ 175$ for a full day and $\$ 92$ for a half day. These rates have not changed from the rates established by the Judicial Council in July 1999. However, the rates actually paid to contract interpreters, whether certified/registered or noncertified/nonregistered, are often higher than the state standards because each contracted assignment must be individually negotiated by the local court. These negotiations are subject to the realities of supply and demand, particularly for contractors who can interpret in less commonly spoken languages.

## Comparison With Federal Rates

Total compensation for California employee court interpreters is comparable to federal rates. California employee court interpreters receive health and retirement benefits that increase the total value of their compensation by $30-35$ percent. The current federal rates for contract court interpreters are $\$ 384$ full day/\$208 half day for certified interpreters and $\$ 185$ full day $/ \$ 102$ half day for noncertified interpreters. While the federal system relies almost exclusively on contract interpreters, most court interpretations in California are performed by court employees.

## V. FY 2008-2009 Reimbursed Expenditures

## Shift From Contract to Staff Interpreters

Table 1 highlights the reimbursed expenditures by year for staff expenditures and contractor expenditures. Total staff expenditures, which represented 66.22 percent of interpreter costs in FY 2004-2005, represent 74.53 percent of interpreter costs in FY 2008-2009. Conversely, contract expenditures decreased from 33.78 percent to 25.47 percent. These figures illustrate that since FY 2005-2006 roughly 75 percent of reimbursed expenditures have been used for staff costs and 25 percent for contractor costs. This pattern suggests that the effects of Senate Bill 371 were realized within the first two years after implementation and that the proportion of dollars spent on staff interpreter costs versus contract interpreter costs has stabilized at approximately three to one.

## Expenditures for Noncertified and Nonregistered Contract Interpreters

During FY 2008-2009, statewide expenditures on per diems for noncertified contract interpreters equaled $\$ 3,408,555$ or 3.64 percent of total statewide expenditures. Statewide expenditures on per diems for nonregistered contract interpreters equaled $\$ 1,058,954$ or 1.13 percent of total statewide expenditures. Expenditures for both noncertified and nonregistered contract interpreters equaled 4.77 percent of all statewide interpreter costs. It is notable that only 1.55 percent of Los Angeles County's total court interpreter expenditures were on per diems for noncertified and nonregistered contract interpreters, indicating the greater availability of certified and registered interpreters in the Los Angeles metropolitan area compared to other areas of the state. Attachment 1, columns J and K, provide detailed information for FY 2008-2009 nonregistered and noncertified contract interpreter expenditures for each of the 58 trial courts.

Table 2 below shows annual expenditures during the past three years for the compensation (excluding travel) of noncertified and nonregistered interpreters, compared to total statewide eligible expenditures for court interpreter services. The annual percentages vary from a high of 5.37 percent to a low of 4.75 percent, with an average of 4.96 percent spent for noncertified and nonregistered interpreter compensation during the three-year period.

## Increasing Court Interpreter Expenditures

Allowable court interpreter expenditures continue to increase from fiscal year to fiscal year, although the rate of increase appears to be slowing (see Table 3). While the average percentage increase during the past four fiscal years is 11.39 percent, this is skewed by the large increase from FY 2004-2005 to FY 2005-2006. As Table 3 shows, the rate of increase for the following three years fell significantly, with successively smaller rates of increase each year. The rate of increase from FY 2007-2008 to FY 2008-2009 was 5.91 percent.

## VI. Distribution of Reimbursed Expenditures by Largest Court Providers

Table 4 highlights the 11 courts that were California’s largest providers of court interpreter services in FY 2008-2009. These 11 courts accounted for $\$ 73,929,873$, or roughly 79 percent, of the reimbursed expenditures for court interpreters. The Superior Court of Los Angeles County alone accounted for 35.22 percent of the reimbursed expenditures, while southern California's five
largest courts-the Superior Courts of Los Angeles, Orange, San Diego, San Bernardino, and Riverside Counties-together accounted for 60.60 percent of the state’s reimbursements.

## VII. Conclusion

In FY 2008-2009, the state appropriation was insufficient to provide all courts with full reimbursement of their allowable court interpreter costs. As a result, the Judicial Council allocated additional one-time supplemental funding in the amount of $\$ 911,893$ to cover the shortfall in order to fully reimburse all courts.

Court interpreter services must be provided in constitutionally mandated cases regardless of the state budget appropriation for such services. Failure to address a shortfall in funding will place a significant financial burden on the courts and may have adverse effects on the delivery of mandated court interpreter services across the state.

During these difficult budget times, it is essential that there continue to be sufficient funding to meet the public's growing need for court interpreter services in the California courts. The judicial branch will continue to work with the Governor, the Legislature, and stakeholders to ensure that all Californians, including those who are unable to understand court proceedings because of a language barrier, are provided meaningful access to justice.
