

San Bernardino Juvenile Drug Court graduate story.

The following is a story submitted by our latest San Bernardino Juvenile Drug Court graduate.

“My life is different now. I have set goals for myself and I now know I can stay clean.” My recovery has helped me realize I don’t need drugs to have fun and live life. My recovery has also helped me with my relationship with my mom. “We get along a lot better now and can talk to each other without yelling at each other”. I choose better friends that don’t use drugs or alcohol and want to do something better with their lives. My view of myself has also changed by helping me to love myself for who I am and I know I can do anything I set my mind to. Drug Court has given me a better outlook on life. I trust others and am open to their opinions. My education plan for the next year is to get my GED, then get schooling in the medical field, and work part time. This program gave me structure to my life. Going to treatment gave me clean time to learn the tools I need to stay clean and follow rules. I now see a brighter future ahead of me and I am very happy with my life right now.
