## Summary of Court-Related Legislation

**NOVEMBER 2020** 

uring the second year of the 2019-2020 Legislative Session, the Legislature and Governor enacted numerous bills that affect the courts or are of general interest to the legal community. Brief descriptions of the measures of greatest interest follow, arranged according to subject matter. Also included is a table summarizing new laws that create new crimes or expand existing crimes, as well as an index listing all the bills and the page numbers on which their descriptions can be found.

The effective date of legislation is stated with each measure. Urgency measures normally take effect upon enactment, and some other measures have early or delayed operative dates.

This Summary is intended to serve only as a guide to identify bills of interest; the bill descriptions are not a complete statement of statutory changes. Code section references are to the sections most directly affected by the bill; not all sections are necessarily cited.

Until the annual pocket parts are issued, bill texts can be examined in their chaptered form in West's California Legislative Service or California Deering's Advance Legislative Service, where they are published by chapter number. In addition, chaptered bills and legislative committee analyses can be accessed on the internet at <a href="http://leginfo.legislature.ca.gov">http://leginfo.legislature.ca.gov</a>. Individual chapters may be ordered directly from the Legislative Bill Room, State Capitol, 10th Street, Room B32, Sacramento, California 95814, 916-445-2323.

(Cal. Rules of Court, rule 4.102)

TRAFFIC
BOATING
FORESTRY

PUBLIC UTILITIES
PARKS AND RECREATION
BUSINESS LICENSING

## What is bail?

## "Regular" bail:

- Defendants generally have a right to be released from custody before trial.
- Cash bail or a secured bail bond is used to ensure that the defendant appears in court on their case.

## Changes to the bail system?

August 2018 SB 10 November 2020 SB 10 Referendum

- SB 10 would have changed pretrial system to base release on assessment of risk rather than on bail
- Focus on public safety and appropriate pretrial release

 Proposition 25 did not pass, therefore the cash bail system remains intact.

## **Pretrial Updates**

\$75 million appropriated by legislature for Pretrial Pilot Program administered by Judicial Council.

16 pilot grants awarded by PROW to 16 courts and their justice partners.

Pilots will operate for two years using risk 2 Vears using risk
assessment to inform judges' pretrial release decisions. Bail release is still available to defendants.

After the last OTW was issued that rendered no funds, we received contact from a third party on 8/19/2020 who inquired about how involuntary collection action takes place. The COD agent advised the third party of the process and explained the different ways that we collect on cases. Payment in full was received in the amount of \$91k on 10/1/2020.

#### Alameda Court and County 2019–20 Summary

County Population: 1,670,834

Authorized Judges/Commissioners: 73/10.0

#### Program Overview

The collection of delinquent court-ordered debt is a cooperative effort between the Superior Court of Alameda County and the County of Alameda. The court and county have a written memorandum of understanding (MOU) for their collections program. The program includes the following activities as reported in the Collections Reporting Template:

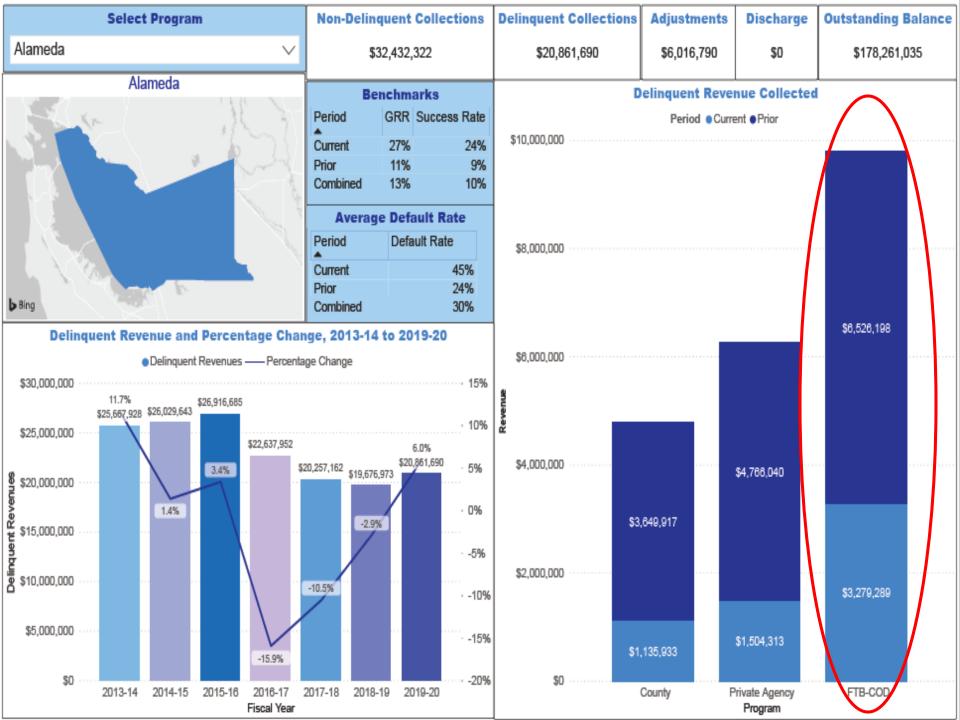

- Meets all 25 of the recommended collections best practices. (see Attachment 3); and
- Engages 16 of the 16 collection activity components pursuant to <u>Penal Code section</u> 1463.007.

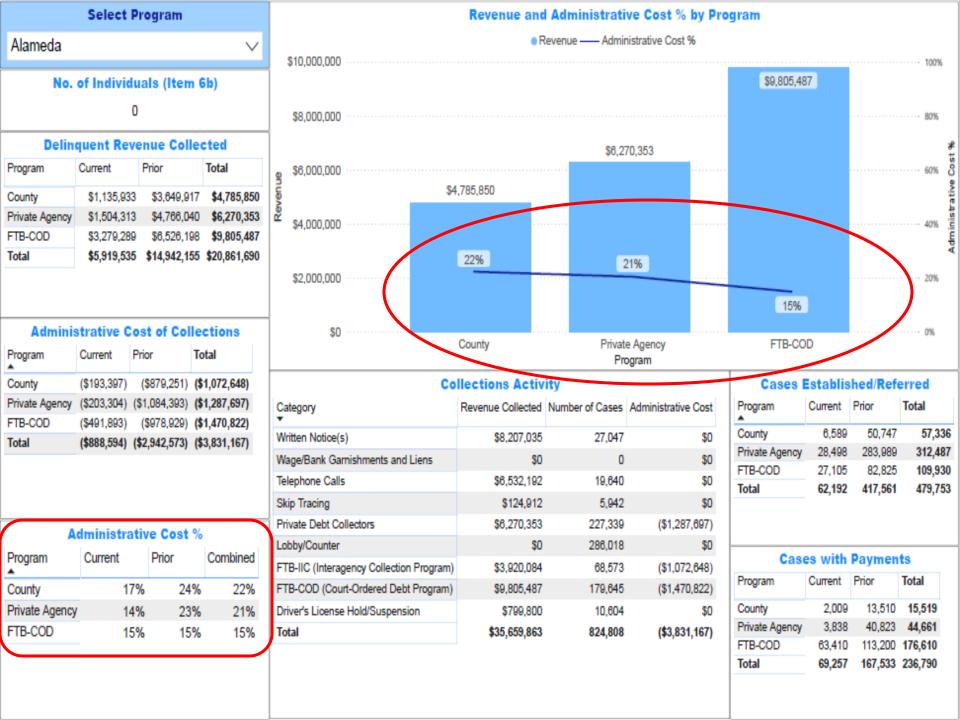

#### Performance.

According to the Alameda collections program, this year brought many changes due to COVID-19 pandemic. As a result of the crisis, most collections efforts were suspended for various periods beginning in March 2020. The Gross Recovery Rate (GRR) increased from 16 percent to 27 percent and the Success Rate (SR) increased from 10 percent to 24 percent for the current period. The increase in recovery rates is likely a result of multiple factors, but not limited to the increase in the amount collected by the Franchise Tax Board (FTB) and change to a new private collection agency. The GRR decreased from 38 percent to 11 percent, and the SR decreased from 10 percent to 9 percent from the prior period. The decrease occurred because discharge from accountability was not performed during this reporting period.

Delinquent traffic collections are handled by a private vendor while delinquent criminal collections are handled by the county. Both in turn refer cases to both FTB collections programs. The data submitted by the private collection agency does not reflect the ending balances from last year due to the change in private vendors. During the transfer of accounts, duplicate and inaccurate information was identified and corrected.

The court will continue to work in collaboration with the various collections programs to ensure continuity of the data reported in the Collections Reporting Template (CRT). Each agency uses different tools for storing data and different methods for interpreting and accessing the data, so the task of completing the CRT is not without challenges. The court will continue attempts to improve the quality of data reported and encourage all participating agencies to contribute to the effort.
