I would like to publicly state that I am in complete agreement with Judge David Lampe's letter of July 19, 2012, on behalf of the Alliance of California Judges. He states succinctly all the reasons for a full immediate implementation of the recommendations contained in the SEC report. I share his desire that it be done without delay, and I share his concern that it will be delayed for the various purported reasons Judge Lampe identifies.

Thank you.

George Berenson
