I am a retired judge working in the Assigned Judges Program. I have appreciated the assistance of those in the AJP in allowing me to stay somewhat active on the bench and covering the needs of courts in need of judicial officers.

I believe the AOC performs many worthwhile functions they believe to be the best interests of the judiciary. Still, it appears to many, and to me as well, that the time has come to consider and act upon many of the recommendations made in the SEC report. This organization still has much good to accomplish. Let it be done in a way which gives all participants and observers complete confidence in the process.

Thank you very much.
