Subject: Comments to SEC Report

Our judicial branch is in disarray and turmoil. We are viewed by our citizens and the other government branches as incapable of managing our budget, our operations and ourselves. At this point, we cannot afford to waste any more time angrily pointing fingers or failing to listen to one another. The mess has been made and we are in it together. We must act decisively and without hesitation to put into effect the changes that must be made. The SEC report provides the road map. Now we need the leadership from our Chief Justice and the Judicial Council to take the steps to quickly implement necessary change. It can be done. Sadly, our crisis is still in its early stages. We must show the people of California the ability of their judicial leaders to uphold their oaths, set aside their differences and to work together for the common good of our branch and ensure that the service of justice is our focus.
