Court Sends Calendar Event Notification (CAL902)

Exchange Description

Trial courts use this NIEM-based data exchange to send a calendar event notification to an integration partner.

This data exchange may be used when:

- A hearing is scheduled
- A hearing is vacated
- A hearing is deleted
- A previously vacated hearing is restored
- A hearing is modified (e.g., reassigned to another courtroom, rescheduled to a different day)
- A hearing is stayed

The notification message from the trial court contains calendar event information (CCMS case number, participant, calendar event date and time, court location, courtroom).

No response message is sent by the integration partner upon successful receipt of the notification message. Successful delivery of the notification message is assumed unless an error in delivery or receipt by the integration partner occurs.

Error Handling

If the integration partner does not successfully receive and process the incoming message, the trial court will receive an error message with an error code and error reason.

Additional Information

- A single exchange message is sent for each calendar event notification.
- The response to this exchange message only occurs after receipt and processing by the integration partner. The only allowable response to this exchange is an error message. The error response message must be sent as a separate message using the error format defined in this exchange.
