Court Sends Collections Case Referral Notification (COL901)

Exchange Description

Trial courts use this California judicial branch XML schema-based data exchange to send collection referrals, including case balances, to an external collector.

- The notification message contains the case referral notification information (e.g., CCMS case number, participant, amount, violation).

- No response message is sent by the integration partner upon successful receipt of the request message. Successful delivery of the request message is assumed unless an error in delivery or processing by the integration partner occurs.

Business Response Exchanges

The business response refers to any subsequent exchanges that may occur as a direct result of this exchange.

- There is no business response to this exchange.

Error Handling

If the integration partner does not successfully receive and process the incoming message, the trial court will receive an error message with an error code and error reason.

PROBABLE INTERESTED INTEGRATION PARTNERS

- California Department of Revenue and Recovery
- California Franchise Tax Board
- Collection agency vendor
- Probation—adult

RELATED EXCHANGES

Related data exchanges are preceding or subsequent data exchanges that may be used by an integration partner as part of the overall business process related to this exchange.

- Court Receives Payment Notification (FCC806), which an integration partner uses to submit payments to the court.
- Court Receives Collections/Franchise Tax Board (FTB) Case Return Notification (COL805), which an integration partner uses to submit updated fee information or to notify the court that collections will no longer be pursued on a case.
- Court Sends Collections Balance Update Notification (COL903), which a court uses to confirm the collections balance with an integration partner.
- Court Sends Collections Recall Notification (COL904), which a court uses to notify an integration partner that the court has recalled the collection notice, effectively ending the collections case.

Additional Information

- This is a batch exchange containing multiple collection referral notifications.

- The response to this exchange message occurs only after receipt and processing by the integration partner. The only allowable response to this exchange is an error message. The error response message must be sent as a separate message using the error format defined in this exchange.
