Court Sends Collections Recall Notification (COL904)

Exchange Description

Trial courts use this California judicial branch XML schema-based data exchange to send collection recall notifications to integration partners. This action notifies integration partners to no longer pursue collection activities on the fee. This data exchange is used by a trial court to recall any fee from collections, including case balances.

This exchange may be used when the trial court:

- Dismisses a collection case
- Verifies the collection agency's request to cancel a case

The notification message contains the collection recall request notification information (e.g., CCMS case number, Fee ID, reason).

No response message is sent by the integration partner upon successful receipt of the request message. Successful delivery of the request message is assumed unless an error in delivery or processing by the integration partner occurs.

Business Response Exchanges

The business response refers to any subsequent exchanges that may occur as a direct result of this exchange.

- There is no business response to this exchange.

Error Handling

If the integration partner does not successfully receive and process the request message, the trial court will receive an error message with an error code and error reason.

PROBABLE INTERESTED INTEGRATION PARTNERS

- California Department of Revenue and Recovery
- California Franchise Tax Board
- Collection agency vendor
- Probation—adult

RELATED EXCHANGES
