CCMS DATA EXCHANGE DATA SHEET

ADMINISTRATIVE OFFICE OF THE COURTS
INFORMATION SERVICES DIVISION

Court Sends Clerk Review Rejection Notification (EFL902)

Exchange Description

Trial courts use this California judicial branch XML schema-based data exchange to send a rejection response to an inbound request received via a data exchange subject to clerk review. This data exchange is used by all exchanges subject to the clerk review process and provides a common error of rejection response to the integration partner.

- The notification message sent to the integration partner by the trial court contains the clerk review rejection information (e.g., rejection reason and rejection notice).

- No response message is sent by the integration partner upon successful receipt of the notification. Successful delivery of the notification message is assumed unless an error in delivery or processing by the integration partner occurs.

Business Response Exchanges

The business response refers to any subsequent exchanges that may occur as a direct result of this exchange.

- There is no business response to this exchange.

Error Handling

If the integration partner does not successfully receive and process the incoming rejection notification message, the trial court will receive an error message with an error code and error reason.

PROBABLE INTERESTED INTEGRATION PARTNERS

- All Integration Partners

RELATED EXCHANGES

Related data exchanges are preceding or subsequent data exchanges that may be used by an integration partner as part of the overall business process related to this exchange.

- Court Receives Case Initiation Filing—Family Law (Complaint Regarding Parental Obligation) (INI808)

Additional Information

- A single exchange message is sent for each clerk review rejection notification.

- The only allowable response to this exchange is an error message that may occur after receipt and processing by the integration partner. The error response message must be sent as a separate message using the error format defined in this exchange.
