

# CCMS DATA EXCHANGE DATA SHEET

ADMINISTRATIVE OFFICE  
OF THE COURTS

INFORMATION SERVICES DIVISION

## Court Receives Case Initiation Filing—Family Law (Adoption) (INI806)

### Exchange Description

A trial court uses this California judicial branch XML schema-based data exchange to receive case initiation filing documents from an integration partner to initiate a family law – adoption case.

Integration partners can use this data exchange to:

- Initiate an adoption case on behalf of a child.
- Initiate an adoption case to adopt a child from a new spouse's previous relationship.

The request message sent by an integration partner to the trial court contains the adoption case information (e.g., participant, judgment or order type, and filing document).

The response message sent by the trial court to the integration partner contains delivery confirmation data with status information (e.g., “Received”), along with the original request message sent by the integration partner to the trial court.

### Business Response Exchanges

The court clerk or judicial review process for this response is optional. The business response refers to any subsequent exchanges that may occur as a direct result of this exchange, as follows:

- Court Sends Case Initiation Filing—Family Law (Adoption) Confirmation Notification (INI925), which confirms that the initial filing successfully passed the clerk review process and contains the new case filing information.
- Court Sends Clerk Review Rejection Notification (EFL902), which contains rejection information in response to the court clerk’s review of the initial filing.

### PROBABLE INTERESTED INTEGRATION PARTNERS

- California Department of Child Support Services
- Electronic filing service provider

### RELATED EXCHANGES

Related data exchanges are any preceding or subsequent data exchanges that may be used by an integration partner as part of the overall business process related to this exchange.

- Court Receives Subsequent Case Filing (INI816), which is used by the integration partner to submit all additional case filing information to the trial court.

For more information about this and other data exchanges, contact [integrationpartners@jud.ca.gov](mailto:integrationpartners@jud.ca.gov)

## Error Handling

If the trial court does not successfully receive and process the incoming message, the integration partner will receive an error message with an error code and error reason.

## Additional Information

- A single exchange message is sent for each adoption case filing initiation request.
- The business response message is defined using a different exchange, listed above in the Business Response Exchanges section.
- The business response to this exchange occurs only after completion of the optional clerk review (CR) or judicial review process. When the exchange is implemented for CR, there will always be two responses: (1) the success response (or error response), and (2) the business response in this case INI925 or ELF902 (clerk rejection).
- When CR is not implemented by the trial court, the response message, either success or error, to this exchange is sent immediately upon receipt and processing by CCMS. The integration partner will receive the business response (INI925) only if they implement this exchange.
