

# CCMS DATA EXCHANGE DATA SHEET

ADMINISTRATIVE OFFICE  
OF THE COURTS

INFORMATION SERVICES DIVISION

## Court Sends DCSS Answer Notification (INI917)

### Exchange Description

A trial court uses this NIEM-based data exchange to send an answer notification to the California Department of Child Support Services (DCSS), such as an answer to a complaint or supplemental complaint regarding parental obligations, income and expense declaration, or financial statement.

The notification message contains the DCSS answer information (e.g., CCMS case number, participant, filing document, and PDF version of the filing document).

No response message is sent by the integration partner upon successful receipt of the notification message. Successful delivery of the notification message is assumed unless an error in delivery or processing by the integration partner occurs.

### Business Response Exchanges

The business response refers to any subsequent exchanges that may occur as a direct result of this exchange, as follows:

- There is no business response to this exchange.

### Error Handling

If the integration partner (DCSS) does not successfully receive and process the incoming notification message, the trial court will receive an error message with an error code and error reason.

## PROBABLE INTERESTED INTEGRATION PARTNERS

- California Department of Child Support Services

## RELATED EXCHANGES

Related data exchanges are any preceding or subsequent data exchanges that may be used by an integration partner as part of the overall business process related to this exchange.

- Court Receives Subsequent Case Filing (INI816), which is used by the integration partner to submit all additional case filing information to the trial court.

For more information about this and other data exchanges, contact [integrationpartners@jud.ca.gov](mailto:integrationpartners@jud.ca.gov)

### **Additional Information**

- A single exchange message is sent for each DCSS answer notification.
- The response to this exchange message only occurs after receipt and processing by the integration partner. The only allowable response to this exchange is an error message. The error response message must be sent as a separate message using the error format defined in this exchange.
