Court Sends Case Initiation Filing—Civil Limited/Unlimited Confirmation Notification (INI924)

Exchange Description

A trial court uses this California judicial branch XML schema-based data exchange to send an acceptance response to the same integration partner that originated the case initiation request for a civil limited or civil unlimited case filing.

The confirmation notification message sent by the trial court to the integration partner contains the new civil limited or civil unlimited case information (e.g., CCMS case number, participant, and civil specific case information).

No response message is sent by the integration partner upon successful receipt of the notification message. Successful delivery of the notification message is assumed unless an error in delivery or processing by the integration partner occurs.

Business Response Exchanges

The business response refers to any subsequent exchanges that may occur as a direct result of this exchange, as follows:

- There is no business response to this exchange.

Error Handling

If the integration partner does not successfully receive and process the incoming notification message, the trial court will receive an error message with an error code and error reason.
