Court Receives Warrant Status Update Notification (ISS802)

Exchange Description

A trial court uses this NIEM-based data exchange to receive warrant status updates from an integration partner.

An integration partner may use this data exchange to:

- Notify the trial court of the status of a specific warrant.
- Reconcile the warrant statuses between Law Enforcement Agencies (LEAs), the Department of Justice (DOJ), and the trial court.
- Submit warrant statuses to the trial court in response to the trial court's request to reconcile warrant statuses.

The notification message sent by the integration partner to the trial court contains the warrant status update notification information (e.g., warrant control number, warrant status, warrant ordered date, warrant issued date, and agency).

No response message is sent by the trial court upon successful receipt of the notification message. Successful delivery of the notification message is assumed unless an error in delivery or processing by the trial court occurs.

Business Response Exchanges

The business response refers to any subsequent exchanges that may occur as a direct result of this exchange, as follows:

- There is no business response to this exchange.

PROBABLE INTERESTED INTEGRATION PARTNERS

- California Department of Justice
- County sheriff

RELATED EXCHANGES

Related data exchanges are any preceding or subsequent data exchanges that may be used by an integration partner as part of the overall business process related to this exchange.

- There are no related exchanges.

For more information about this and other data exchanges, contact integrationpartners@jud.ca.gov

Error Handling

If the trial court does not successfully receive and process the incoming notification message, the integration partner will receive an error message with an error code and error reason.

Additional Information

- This is a batch exchange containing multiple warrant status update notifications.
- The only allowable response to this exchange is an error message that may occur after receipt and processing by the trial court. The error response message must be sent as a separate message using the error format defined in this exchange.
