

# CCMS DATA EXCHANGE DATA SHEET

ADMINISTRATIVE OFFICE  
OF THE COURTS  
INFORMATION SERVICES DIVISION

## Court Receives Attorney Details by Bar Number Query (PF805)

### Exchange Description

A trial court uses this California judicial branch XML schema-based data exchange to receive a request for attorney information by bar number from an integration partner.

An integration partner may use this exchange when they wish to know an attorney's CCMS participant ID, name, and address information.

The request message sent by the integration partner to the trial court contains the query request—attorney details by bar number parameter information (e.g., attorney bar number).

The response message sent by the trial court to the integration partner indicates whether an attorney exists matching the search criteria. If the attorney does exist, attorney information is returned (e.g., CCMS ID, name, and address). If no match is found in CCMS, the result returned is zero.

### Business Response Exchanges

The business response refers to any subsequent exchanges that may occur as a direct result of this exchange, as follows:

- There is no business response to this exchange.

### Error Handling

If the trial court does not successfully receive and process the incoming message, the integration partner will receive an error message with an error code and error reason.

### PROBABLE INTERESTED INTEGRATION PARTNERS

- California State Bar Association
- Electronic filing service provider

### RELATED EXCHANGES

Related data exchanges are any preceding or subsequent data exchanges that may be used by an integration partner as part of the overall business process related to this exchange.

- There are no related exchanges.

For more information about this and other data exchanges, contact [integrationpartners@jud.ca.gov](mailto:integrationpartners@jud.ca.gov)

### **Additional Information**

- A single exchange message is sent for each query for attorney details by bar number.
- The response to this exchange message only occurs after receipt and processing by CCMS.
- Both the success and error response messages must be sent as separate messages using the formats defined in this exchange.
