Court Sends Disbursement Request (PHX901)

Exchange Description

A trial court uses this California judicial branch XML schema-based data exchange to send disbursement requests to:

- The Trial Court Administrative Services Division, who then disburses the appropriate funds to the applicable agencies.
- The County Auditor to print checks.

The request message sent by the trial court to the integration partner contains the disbursement information (e.g., CCMS case number, participant, and amount).

No success response message is sent by the integration partner upon successful receipt of the request message. Successful delivery of the request message is assumed unless an error in delivery or processing by the integration partner occurs.

Business Response Exchanges

The business response refers to any subsequent exchanges that may occur as a direct result of this exchange, as follows:

- There is no business response to this exchange.

Error Handling

If the integration partner does not successfully receive and process the incoming message, the trial court will receive an error message with an error code and error reason.

PROBABLE INTERESTED INTEGRATION PARTNERS

- County auditor
- Trial Court Administrative Services Division (Phoenix System)

RELATED EXCHANGES

Related data exchanges are any preceding or subsequent data exchanges that may be used by an integration partner as part of the overall business process related to this exchange.

- There are no related exchanges.
