

WELCOME BACK

to the

Appellate Self-Help Clinic

The Clinic and its staff and volunteers are happy and excited to be able to assist you person-to-person once again.

The COVID pandemic and its dangers for all of us are not yet things of the past, however. Thus, our person-to-person consultations are subject to the following health and safety-related restrictions:

1. Masks are required inside the clinic at all times.
2. Waiting inside the Clinic's lobby or on the stair landing outside is not permitted, even with masks. If you have an appointment today, and have arrived early, please return to the atrium on the ground floor and wait there until the time scheduled for your appointment.

As always, consultations with the Self-Help Clinic are by appointment only every Tuesday, Wednesday, and Thursday. To make an appointment, call our appointment request line, (213) 830-7234, on a Tuesday morning, starting at 8:00 a.m. The line remains open until all available appointments have been filled. Appointments are generally for the next Tuesday, Wednesday, or Thursday after a request is submitted.

With thanks for your understanding and cooperation,

The Self-Help Clinic
