Re: **Communities in Interest**

Dear Commission Members:

Thank you for the opportunity to discuss redistricting in my area. I have valuable insight into the communities of interest in my area as I am in my fourth term as an Altadena Town Councilmember, am actively involved in local education issues and have been a leader in both the local and state NAACP.

I strongly urge the Commission to include Altadena with the cities of Pasadena, Burbank and Glendale in the same district for representation in the U.S. House of Representatives and the State Legislature. Altadena has much in common with the three cities and would be best represented in the same district, which would help ensure cooperative governance that has served this area well in the past.

These four cities near the Angeles National Forest are connected economically, socially and operationally. Many of the residents of this community reside in one city and commute to work in another. The boards and volunteers of non-profits and Chambers of Commerce draw from all four cities. The challenges and opportunities the cities face do not recognize city boundaries.

Burbank, Glendale, Pasadena, and Altadena are at the foot of the San Gabriel and Verdugo Mountains. The cities share many of the same environmental concerns due to their proximity to the Angeles National Forest. The residents, town council and city council members work to protect the mountains from wild fires in the forest that threaten the cities. In addition, these communities continue to deal with the aftermath of the Station Fire, the largest wild fire in

modern Los Angeles County history. Flooding and mudslide will remain a constant concern during the five years following the fire. Parts of these four areas, along with several smaller communities are part of the Rim of the Valley Corridor and Trail study area.

Educational issues tie Altadena strongly to the other three cities. Altadena, an incorporated area within Los Angeles County, and Sierra Madre are part of the Pasadena Unified School District (PUSD). PUSD has several elementary and middles schools in Altadena, but high school students all attend school in Pasadena.

PUSD is part of the Five Star Coalition, a coalition of the Burbank, Glendale, Pasadena, La Canada and South Pasadena school districts, which works to strengthen public education in the five school districts. These small and mid-size cities have many of the same education challenges and confront vastly different issues than the Los Angeles Unified School District (LAUSD).

I urge the Commission to include Altadena with the three cities of Burbank, Glendale, and Pasadena in a single Congressional district.

Sincerely,

Dr. Sandra E. Thomas

REPORT ON AARC'S REDISTRICTING PROPOSAL

Submitted to the California Citizens
Redistricting Commission

May 26, 2011

REPORT ON AARC REDISTRICTING PROPOSAL

**PRESENTED TO
THE CALIFORNIA CITIZENS REDISTRICTING COMMISSION
MAY 26, 2011
NORTHRIDGE, CALIFORNIA**

The African American Redistricting Collaborative (AARC) is a collection of civic groups that serve the African American and other communities throughout the state of California.¹ Our constituent groups have extensive experience in the areas of political participation and voting rights—including past local and statewide redistricting processes. Past projects include community organizing, public education, mapping, legislative advocacy, legal analysis and litigation. AARC's goal is to guarantee that the political arena provides opportunities for the most robust and meaningful participation by its members. While unapologetic about its roots in the African American community, AARC works on behalf of Californians with varied cultural backgrounds who seek a voice in the centers of power.

Redistricting is among the single most important moment for assigning political power in this state. As with foundational public policies like budgeting, the redistricting process also helps to define in tangible ways both who and what matters in California. With the line drawing managed by the Commission for the first time in this cycle, AARC has worked diligently to demonstrate the continuing need to recognize the significant contributions that African Americans in California continue to make in our diverse state.

AARC's Redistricting Activities

AARC has worked over the past several months to assure that African Americans participate in this redistricting cycle to the fullest extent—from raising awareness in our community about the process and testifying about our neighborhoods, to crafting and commenting on proposed maps. Specifically, AARC has conducted a series of community meetings to solicit ideas and feedback from our members about the commission's current process and important elements in any AARC-sponsored district plan.² Further, AARC has collaborated

¹ The associate member groups of AARC include: The Advancement Project, AME Fifth Episcopal District, Black American Political Association of California, Brotherhood Crusade, California Black Chamber of Commerce, California Black Women's Health Project, Community Coalition of South Los Angeles, Council of Black Political Organizations (COBPO), COGIC First Jurisdiction, Greenlining Institute, Inland Empire African American Redistricting Coalition, Lawyers' Committee of the San Francisco Bay Area, Los Angeles NAACP, Los Angeles Urban League, NAACP California State Conference, NAACP Legal Defense and Educational Fund, Inc. (LDF), Osiris Coalition, SB Strategies, LLC, SCOPE/AGENDA, Southern Christian Leadership Conference (SCLC), WARD Economic Development Corporation, Watts Labor Community Action Council, and West Angeles COGIC Community Development Corporation.

² AARC has sponsored, conducted and/or participated in community education workshops and redistricting forums in Oakland, Sacramento, San Bernardino, San Diego, San Francisco and throughout South Los Angeles.

with other significant community-based groups in this process to discuss the best ways to apply governing mapping principles and find joint areas of concern in developing our district plans.³

After these extended discussions, and with due consideration of applicable state and federal law, AARC appointed a team of redistricting experts to craft a district plan that reflected the collective sense of what our membership desired in key parts of the state.

AARC respectfully presents this report on its district proposal, which focuses on regions of California that AARC has identified as key areas of interest. There are three areas emphasized in this report: (1) South Los Angeles, (2) East Bay/Alameda County, and (3) the Inland Empire. Where applicable, we offer district maps for three levels of government (California Assembly & Senate, along with U.S. Congress). This report addresses the highlights of our preferred configuration in narrative form, including select references to the supporting statistical summaries of the districts.⁴

General Summary & Statement of Goals

African Americans in California remain an important share of the state's growing non-white population. A brief review of aggregate changes makes this point apparent. According to the 2010 Census, African Americans are roughly 6.2% of the total state population of 37,253,956. The African American share of the total population is slightly less than the 6.7% they represented after the 2000 Census, but that number represents a very small change compared to the dramatic reduction in the size of the white population in California.

The statewide trend for African Americans is not as robust as comparable measures for the Asian Pacific Islander and Latino communities,⁵ but the African American population remains geographically situated largely in two urban core areas—South Los Angeles and Oakland. To a lesser degree, relatively newer populations have continued to grow in areas of the Inland Empire (San Bernardino and Riverside Counties). These locations might be considered “exurbs” of urban core areas.

The geographic concentration of African Americans in California has been salient in the effort to elect African American preferred candidates at all relevant levels of political office. The Assembly districts with the highest levels of African American concentration are: AD's 47, 48, 51, and 52 (in South LA) along with AD's 9, 16, and 62 in other regions of the state (including the East Bay, Sacramento, and the Inland Empire). All of these districts have successfully elected preferred candidates for the Assembly. Two California Senate districts (SD's 25 and 26 in South LA) with significant African American concentrations have also elected candidates preferred by the community as well. Finally, in Congress, the communities

³These groups include, but are not limited to, MALDEF and APALC.

⁴AARC hereby endorses the proposal from the Inland Empire African American Redistricting Coalition, which is a plan to establish a new African American influence district in San Bernardino County. For the sake of brevity, we will not discuss details of that district in the report in great detail.

⁵For the sake of consistency, we employ the term “Latino” throughout this document to refer to the various ethnic groups collectively defined as “Hispanic” by the 2010 Census. Thus, all statistical references to “Latino” refer to the official census category of “Hispanic Persons.” Further, the statistical references to “African American”, “White”, and “Asian American” references all refer to the “Non-Hispanic” subsets of each of these groups as they are defined in the 2010 Census.

located in CD's 9 (Oakland), 33, 35, and 37 (all in South LA) have produced successful candidates who have been preferred by African American voters.⁶

The background information that is cited above is not intended to address any of the legally prohibited subjects related to a particular incumbent or a political party. Rather, we believe that the effectiveness of African American communities in these districts is a key factor that must be weighed heavily in any effort to redraw the maps in California. The effectiveness of this configuration of districts is important to bear in mind for three particular reasons.

First, we find that federal law demands attention to the extent that protected groups statewide are exercising the political franchise effectively. The current performance of districts in California represents an important baseline to assess possible changes. Section 5 of the Voting Rights Act requires the Commission to demonstrate that any final change in the district map configuration does not cause "retrogression" with respect to protected racial groups.⁷ The Commission may address a variety of factors in defending its decisions, but the election of preferred candidates is a core element in any such showing.⁸ Accordingly, we contend that the electoral effectiveness in the aforementioned districts ought to influence the way the Commission draws lines in these areas.

Second, the manifest electoral effectiveness also suggests that traditional voting rights configurations are inapt in this context.⁹ Where past elections indicate robust participation and the effectual exercise of the franchise, remedies like majority-control districts are unnecessary. In practice, districts with effective representation for legally protected groups with sub-majority margins (i.e., less than 50% of voters) need not be refashioned as electoral majorities. Indeed, efforts to impose such changes (especially against the expressed desires of the African American communities in these areas) would invite voting rights challenges related to "packing". Accordingly, the Commission should reject all arguments and interpretations of Section 2 that ignore the demonstrated effectiveness of these communities to elect candidates of choice.

Finally, the proven political effectiveness of these districts is relevant because it is probative evidence on an important state law issue. This record provides great support for the case that many of the neighborhoods, as currently designed, form an important community of

⁶ In all of these effective districts, the African American share of the total population ranges between 23 and 30% of the total number of voters. Unlike other states, where differentials and age and participation among racial groups tend to reduce the functional political influence of African Americans, California is a distinct political setting in which rates of participation and organization tends to improve African American standing in the political arena relative to other groups. When one accounts for other measures, (e.g., voting age population and citizen voting age population) African Americans in these California districts represent a solid though not majority bloc of the active voters in these constituencies.

⁷ The current test for retrogression centers on whether the change causes a loss in a relevant group's ability to effectively exercise the political franchise.

⁸ It is important to note that while Section 5 of the VRA covers only select counties in California, it is our view that a full preclearance review will address the overall status of all protected groups throughout the state with respect to changes in the ability to exercise of power. See 28 C.F.R. Ch. I §§ 51.57, 51.59.

⁹ AARC firmly believes that Section 2 of the Voting Rights Act is an important tool for enforcing the political rights of racial minorities. But we also believe that this enforcement remedy should only be employed where they are necessary. Here, the elections in the current configurations show that African Americans are successful in promoting their preferred candidates, in conjunction with other groups. Whether one defines these districts as "influence" or "coalition" districts, the configurations are effective platforms for exercising the political franchise.

interest. Pursuant to Proposition 11, California law mandates that district lines show regard to communities of interest. While we know of no controlling definition of this concept in existing law, we would respectfully submit that a community of interest refers to an identifiable set of people who have a common set of experiences or interests that also inhabit a specific geographic area. Drastic changes to existing districts with a community of interest should be taken only with the utmost care.¹⁰

The evidence reveals multiple social and cultural reasons that neighborhoods and institutions in AARC's areas of interest ought to be recognized as communities of interest. But the clearest indication that these communities fit just about any definition is their proven record of working effectively in the political arena. The fact that Californians in these existing districts commonly agree on preferred candidates and also organize in candidate and non-candidate campaigns is exceedingly strong evidence of their civic relationship to each other. Accordingly, efforts and proposals to seriously rework or dismantle these existing, effective communities should be approached with great caution.

With these thoughts in mind, AARC has pursued an overall strategy of maintaining the basic configurations of districts in its areas of emphasis. These districts comply with the directives outlined in the Commission's guidelines. The district lines meet norms of compactness and also do not create any places of point contiguity. We recognize the need in some areas of interest to increase population in order to meet the population equality standard. However, we maintain that this task can be accomplished without destroying the existing cores of communities. We have adhered to a minimal level of population deviation but have established ways of either preserving or (in some cases) establishing districts where African American communities may exercise influence in political contests.

The sections that follow, focusing on each area of concern for AARC, offer a more detailed look at the districts that we have proposed. Where helpful, we have reported statistical information about district profiles using Citizen Voting Age population (CVAP).¹¹

A. South Los Angeles

For decades, South Los Angeles has been the focal point for the most significant political activity by the African American community in the State of California. Historically, African Americans from the Deep South frequently relocated to the neighborhoods of South LA in search of a more hospitable economic and social climate. These core communities that have grown and flourished in this part of Los Angeles continue to form an identifiable center for organization that links African American residents of varied social and economic classes by their shared racial and cultural heritage.

Largely African American neighborhoods that have long defined this area of the city include Crenshaw, Leimert Park, Baldwin Hills in the north, as well as Carson, Torrance and Compton to

¹⁰ Indeed, we believe that such changes could raise the possibility of a voting rights lawsuit alleging vote dilution of African American political power.

¹¹ Additional details on the district proposal, including supporting statistical data, is located in the appendices.

the south. The area is also anchored by the large concentration of the country's largest African American centered churches (including AARC member organizations West Angeles COGIC and First AME Church). Further, the Crenshaw and Inglewood neighborhoods are the sites of some of the most significant commercial enterprises (barber shops, hair salons, and media outlets) that are both owned and patronized by African Americans throughout the city.

In short, South LA is an integral part of the political, cultural and economic imprint of African Americans on the state's largest city. While its demographics have grown more racially complex, with the influx of Latino and Asian American residents, this area nevertheless continues to be one of the main anchors for forming electoral coalitions that determine the outcome of city and county elections.

The existing neighborhoods of South LA-- largely lying to the south of the 10 Freeway and to the west of the 110 Freeway -- are represented by four assembly districts in which African Americans represent approximately 30% of the entire population (slightly higher, taking CVAP into account), two state senate districts (SD's 25 and 26), and three Congressional districts (CD's 33, 35, and 37). All of these districts were under-populated following the 2010 Census. Accordingly, the major question for the Commission is how to account for the lost population in any new district map.

AARC's proposed map preserves the existing cores of these districts by expanding into new, but related territory in order to equalize populations. We believe that this strategy is warranted for two important reasons. First, the effectiveness of these districts with African American influence can hardly be questioned. With its numerous organizing institutions and existing political representation, South LA is the undisputed foundation for African American political effectiveness in the state. Some might favor the alternative approach of consolidating districts in this area to create majorities of African Americans; however, the current level of political effectiveness with less robust African American margins indicates that such a change is unnecessary.¹²

Second, utilizing the territory to the west and north of the existing South LA districts is appropriate given current demographic trends. As mentioned above, the population decline among white residents of California is a significant subplot within the overall narrative of growth in the state; this negative trend is evident in the western portions of Los Angeles that have lost residents during the last decade.¹³ Consolidating part of the western coastal area into fewer districts would be one reasonable way of equalizing numbers than dismantling the established and politically salient neighborhoods that form the core of the South LA districts.

Our proposal accomplishes the goal of preserving the core of South LA districts while maintaining compact districts that also comply with the mandate to respect communities of interest. Further, the population deviation for these districts remains well under 1%. The new

¹² Indeed, it may prove an ill-considered one as a legal matter. Any decision to eliminate or existing districts with demonstrated effectiveness of reflecting the preferences of African Americans may raise difficult Section 2 problems concerning racial vote dilution.

¹³ For example, the population decreases in existing AD 53 (which combines the area along the Pacific Coast, from Santa Monica to Torrance) rivals the under-population in the existing South LA districts.

AD 47 expands slightly westward to take in more parts of Culver City and other territory that is currently part of existing District 53. The new AD 48 (which maintains the area in and around the USC campus as one of its anchors) grows laterally, adding on its northern border the neighborhoods adjacent to the east of AD 47 and then runs toward Walnut Park and South Gate. In, AD 51 the existing areas in Inglewood and Gardena are now expanded to the southeast to include Carson, which is part of a corridor joined by the 110 Freeway. In similar fashion, AD 52 moves to the southeast to incorporate neighborhoods located near Lakewood and Cypress Gardens (part of the region that is in the current AD 55).¹⁴

These proposed assembly districts are compact enough to nest quite into proposed SD's 25 and 26, which largely follow the broad contours of the area described above for the assembly districts. Similarly, the contours of the proposed Congressional districts (CD's 33, 35, and 37) preserve the cores of the existing South LA districts while expanding slightly northward and westward to pick up additional neighborhoods immediately adjacent to the existing core.

The changes that we propose will result in the following resulting district profiles, which largely maintain the level of African American influence that currently exists in South LA:

Assembly District	Population	Deviation (%)	Latino CVAP (%)	White CVAP (%)	AA CVAP (%)	API CVAP (%)
47	463,039	-0.6	19.9	31.1	38.1	8.5
48	464,097	-0.3	43.1	5.9	47.5	2.1
51	466,134	0.1	30.3	17.9	35.8	12.9
52	460,589	-1.1	34.0	22.3	33.4	7.3

**The White, AA, and API CVAP percentages all refer to the figure for non-Latino persons, as defined in the 2010 Census.*

Senate District	Population	Deviation (%)	Latino CVAP (%)	White CVAP (%)	AA CVAP (%)	API CVAP (%)
25	926,723	-0.5	32.1	20.0	34.7	10.3
26	927,136	-0.5	28.9	21.3	41.8	6.0

**The White, AA, and API CVAP percentages all refer to the figure for non-Hispanic persons, as defined in the 2101 Census.*

Congressional District	Population	Deviation	Latino CVAP (%)	White CVAP (%)	AA CVAP (%)	API CVAP (%)
33	702,905	0	19.4	34.9	31.8	11.7
35	702,905	0	31.9	17.1	42.2	7.0
37	702,904	1	32.8	23.8	27.5	12.3

**The White, AA, and API CVAP percentages all refer to the figure for non-Latino persons, as defined in the 2010 Census.*

B. East Bay/Alameda County

¹⁴ Importantly, these district changes do not greatly encroach on the core neighborhoods located in surrounding areas that help to assure the political representation and effectiveness of the Latino community.

Like South LA has influenced the Southland, the East Bay has been northern California's hub of African American political and cultural activity. Since the late 1960s, Oakland has been the primary center for this concentration. Oakland was among the first major cities to elect an African American (a preferred candidate) as its mayor, and the local political representation for the city reflects the success of organizing and participation in these communities.

The myriad of indicia showing the influence of African Americans in Oakland largely mirrors the story with South Los Angeles. One can identify numerous local businesses, religious institutions (including the Love Center and Allen Temple Baptist Church), and civic organizations that serve the African American community and frequently run social outreach programs in the city. The neighborhoods of Oakland also have been an important building block for social and political activism in the Bay Area since the days of Vietnam-era civil protest; importantly, the residents of the corridor connecting Oakland and Berkeley have often found common cause on issues of racial equity and economic justice.

This part of California (including Berkeley and Richmond in the north and flowing south through San Leandro and Hayward) currently takes up some of the assembly districts with relatively minor population deviation. For instance, AD 11 is only under the ideal size by about 7,000 voters (relatively minimal difference), and AD 8 (located just to the north of current AD 11) exceeds the ideal size by about 5,000 voters. However, the geographic area of greatest substantive interest for the African American community lies in AD 16, which is currently about 10% below the ideal population for a new district.

Our proposal is to achieve compliance with the equal population standard by maintaining an Oakland-based assembly district (AD 16) with a total population of 466,274 persons (0.1% deviation). Each of the major racial groups in this district would range between 21 and 28% of the Voting age population; African Americans would represent 25.15% of all persons in the revised district over the age of 18. After due consideration, AARC proposes to reconfigure AD 16 to join the neighborhoods located in Albany, Berkeley and Emeryville with Oakland. This change would incorporate three adjacent communities that share important historical, social, and political ties with the residents of Oakland.

The expanded version of AD 16 would not only reflect shared patterns of behavior in a political sense; it would also reflect the daily practices of the people who live there. The residents of this area frequently commute within the district's boundaries for work and entertainment purposes; indeed, surface streets that connect this area are lined with commercial interests that barely note the difference between the jurisdictions. The district plan complies with the principles of compactness; its contours largely follow the existing "bayshore" configuration of the current AD 16, which hugs the 880/80 Freeways (a common transportation route for residents in this area).

AARC also supports the minor adjustment of the existing East Bay congressional district with its anchor in Oakland as well. Our proposed map establishes CD 9 to achieve a total population of 702,904 (zero deviation), which secures the continued level of political influence that African American communities have exercised in past elections for Congress. The details of this proposed district follow:

Congressional District	Population	Deviation	Latino CVAP (%)	White CVAP (%)	AA CVAP (%)	API CVAP (%)
9	702,904	0	11.4	44.4	25.6	15.2

**The White, AA, and API CVAP percentages all refer to the figure for non-Latino persons, as defined in the 2010 Census.*

C. Inland Empire (AD 62, SD 32, CD 43)

The final, located in San Bernardino and Riverside Counties, has witnessed some of the state's most significant growth during the last decade. Accordingly, line drawing for districts in this area was fairly easy to accomplish; taken as a whole, the territory exceeds an ideal district population by a total of about 200,000 persons (roughly half the size of an ideal assembly district population).

The area of emphasis currently comprises two assembly districts: AD 61 (a significantly African American population) and 62 (with approaches a majority of Latino voters). District 63, with about a 45% nonwhite CVAP (about 10% of African Americans are there) moves eastward and covers Redlands. In Riverside County's Moreno Valley to the south are the remaining three "north-south oriented" districts with similar demographic profiles. African Americans range between 7-9% of the CVAP in each of them and the overall non-white CVAP falls between 35-37%. Districts 64 and 65 divide the African American concentration in the Moreno Valley; meanwhile, District 66 extends its borders well into the northern part of San Diego County.

AARC would recommend that the Commission consider a district that reflects the role that African Americans have played in contributing to the growth in the Inland Empire. While not as heavily concentrated as the population in South LA, the African American residents in this area do share a common set of interests that are not especially well reflected in the way districts are currently designed. In community meetings, some members have expressed an interest in an assembly district that consolidates what some call "The Ebony Triangle" – which includes neighborhoods lying between the 10, 15, and 215 freeways. Major hubs of the district include Colton, San Bernardino, and Rialto.

Conclusion

AARC sincerely appreciates the opportunity to provide substantive input in the Commission's proceeding. We are hopeful that this report provides a helpful roadmap that the Commission may employ in the consideration of district plans. While we recognize that this is one part of a prolonged and complex process of designing new maps for California, we sincerely hope that the ideas contained here are carefully reviewed before line drawers approach the areas of interest to AARC. Our maps show that maintaining the political influence of our communities can be accomplished in a way that also complies with the Commission's stated goals. We are available to answer any questions that members or staffers may have about this proposal.

TAB 62

May 26, 2011

Region #2: San Bernadino
JUN 07 2011

RECEIVED MAY 31 2011

Citizens Redistricting Commission Chair
901 P Street, Suite 154-A
Sacramento, CA 95814

Via Facsimile

The Pass Area consisting of the Cities of Banning, Beaumont and Calimesa and the County areas of Cabazon and the Morongo Band of Mission Indians are geographically connected and in close proximity to one another. The Cities of Banning, Beaumont and Calimesa and the County areas of Cabazon and the Morongo Band of Mission Indians are looking at the possibility of regional sharing of services. The Cities of Banning, Beaumont and Calimesa currently share Animal Control Services.

The Cities of Banning, Beaumont and Calimesa and the County areas of Cabazon and the Morongo Band of Mission Indians share borders and meet regularly and share common interests in the Pass both politically and geographically and have a desire to remain in the same district to assure continued cohesiveness within these geographic areas.

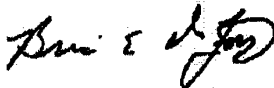

The 2010 Census population will require redistricting within the State of California for the State Senate, Assembly and U.S. Congressional Districts.

The Cities of Banning, Beaumont and Calimesa and the County areas of Cabazon and the Morongo Band of Mission Indians have a desire to remain with their current State Assembly and State Senate Districts.

Respectfully,

Supervisor Marion Ashley
Riverside County 5th District

Barbara Hanna, Mayor
City of Banning

Brian De Forge, Mayor
City of Beaumont

Ella Zanowic, Mayor
City of Calimesa

1 do that.

2 MS. CLARK: Stuff I look at all

3 day.

4 COMMISSIONER DAI: So maybe while

5 we're waiting for that to build --

6 MS. CLARK: Okay.

7 COMMISSIONER DAI: -- I would still

8 be interested in seeing something similar to what

9 we had specified in our region nine wrap-up

10 before when -- I don't know if you've already

11 built that one already, which was the idea of

12 having a mountain cap kind of district that goes

13 up and over and down and retains an inland

14 agricultural region. I don't know if you had a

15 chance to --

16 COMMISSIONER FORBES: Siskiyou,

17 Modoc, Lassen.

18 COMMISSIONER DAI: Right. So

19 Siskiyou, Modoc, Lassen, Plumas, Butte, maybe

20 going down. Because that then puts all of the, I

21 think it puts the watershed, the mountain

22 watershed in a single district.

23 COMMISSIONER DIGUILIO: And right

24 now are we just waiting for these numbers to -- I

25 mean, couldn't we do it the old-fashioned way and

386

KELLINORDEN AND ASSOCIATES 310.820.7733 FAX: 310.820.7933

1 Plumas, Sierra, Nevada and probably the eastern
2 part of Placer.

3 COMMISSIONER FORBES: And Butte.

4 MS. MACDONALD: And who gets Butte?

5 COMMISSIONER DAI: Don't you think
6 Butte is an inland agriculture?

7 COMMISSIONER FORBES: Otherwise
8 northern (Inaudible).

9 COMMISSIONER DAI: No, no, no. I
10 was saying as an alternative to this --

11 COMMISSIONER FORBES: Oh.

12 COMMISSIONER DAI: -- that you
13 would keep the inland agricultural region that we
14 had defined before, which the public testimony
15 defined as -- I think Shasta actually would go
16 with the top part, too, that's why I was asking
17 you, or at least above Redding, that the inland
18 agricultural region that we -- we had a
19 visualization on this before. We had Tehama,
20 Glenn, Colusa, Butte, Yuba and Sutter as an
21 inland agricultural area, and then we went down
22 into Yolo, I believe.

23 COMMISSIONER FORBES: If you put
24 Butte in -- Commissioner Forbes.

25 If you put Butte in, you have to

389

1 different.

2 MS. CLARK: Yeah. I -- well, my
3 personal preference would be to just plow through
4 it and --

5 MS. MACDONALD: Yeah.

6 MS. CLARK: -- get it done and --

7 MS. MACDONALD: She has a --

8 MS. CLARK: -- sleep.

9 MS. MACDONALD: She has a little
10 more energy right now than I do. So I'll just
11 eat a little more pineapple and -- it would be, I
12 think it would be wise to keep going. Because
13 otherwise we might be here very, very late.

14 COMMISSIONER BARABBA: All right.
15 So what that means is that we've got to be really
16 crisp and not a lot of conversation on the side.

17 MS. CLARK: I also think that, if
18 the Commission feels comfortable giving general
19 direction, then some of the direction that
20 applies to assembly would also apply to senate
21 and congress.

22 COMMISSIONER BARABBA: Okay.

23 MS. CLARK: Okay. So this is
24 senate. I only drew one version of the potential
25 senate districts for the Central Valley, because

1 they're actually both very tight. I know that
2 M.A.L.D.E.F. drew a different version than I did.

3 So if we start with Merced, this
4 also covers the Section 5 requirements for
5 Monterey County. This visualization includes
6 Merced County completely intact, comes into San
7 Benito County, grabs Monter -- agricultural areas
8 of Monterey County along the 101, comes up into
9 Stanislaus County and splits the city of Modesto,
10 and then includes the intact counties of Mariposa
11 and Madera County, and then for population, and
12 also this is a high Latino concentration area,
13 grabs these tracts in west Fresno.

14 (Whereupon, there was an
15 inaudible discussion.)

16 COMMISSIONER FILKINS-WEBBER: I
17 just had a question, because now you're bumping
18 up against Monterey, which we haven't had a
19 chance to look at yet. And now I'm wondering if
20 you're taking San Benito and putting it with the
21 foothill communities technically.

22 UNKNOWN FEMALE SPEAKER: Uh-huh.

23 COMMISSIONER FILKINS-WEBBER: But
24 I'm wondering if you're pulling away from the
25 possibility of a, you know, Section 5 issue by

429

1 taking San Benito away from Monterey. Is that --
2 could that likely happen at this level?

3 Because you're saying that this is
4 necessary for Section 5 at the senate level;
5 correct?

6 MS. CLARK: M.A.L.D.E.F. drew a
7 different configuration.

8 COMMISSIONER FILKINS-WEBBER: I'm
9 not talking about M.A.L.D.E.F.; I'm talking about
10 what you have up here right now and the conflict
11 that could be -- exist between two Section 5
12 counties, Merced and Monterey.

13 So I'm just looking to see how this
14 configuration could potentially conflict with
15 Monterey on a -- at a senate level.

16 UNKNOWN FEMALE SPEAKER: I can
17 answer that. The senate level districts
18 currently for Monterey, the two benchmarks, split
19 Monterey down the middle.

20 And so what this actually does is
21 it would kill two birds with one stone, is that
22 this would allow that section of Monterey to meet
23 its benchmark at the same time that it allows the
24 Merced part to meet its benchmark.

25 MS. CLARK: Thank you.

1 UNKNOWN FEMALE SPEAKER: No
2 problem.
3 COMMISSIONER DIGUILIO: So out of
4 curiosity, is this the only model you have? Just
5 again I see that, you know, you're going from the
6 coast into the Central Valley and vice verse -- I
7 don't know how either one of those areas would
8 probably really feel. So I just didn't know if
9 you had any other model.
10 MS. CLARK: This is the only model
11 that I have.
12 COMMISSIONER BARABBA: And I would
13 say that that part of Monterey is not considered
14 coast.
15 UNKNOWN FEMALE SPEAKER: Right.
16 COMMISSIONER BARABBA: Okay.
17 MS. CLARK: This is also the only
18 model that I've discussed with Gibson Dunn.
19 COMMISSIONER BARABBA: Okay.
20 MS. CLARK: Or and that I've
21 discussed it with Gibson Dunn, I should say.
22 COMMISSIONER DIGUILIO: And I'd
23 just like to make one other comment. You know,
24 kind of looking at this in the totality, there's
25 going to be communities, whether it be cities or

431

KELLINORDEN AND ASSOCIATES 310.820.7733 FAX: 310.820.7933

1 the -- it's the Sierras that are there, the
2 tallest mountain in the Continental U.S.A.

3 COMMISSIONER DAI: No. I think
4 Commissioner DiGuilio suggested the best option,
5 which is to split Madera County. I don't know, I
6 think the mountain part is less populated, that
7 part, but there were more than one person who
8 testified that, if you just continue the line
9 down from Mariposa, that that's the -- represents
10 the difference between the foothills and the
11 flatlands.

12 COMMISSIONER BARABBA: Okay. Is
13 that something you think you could work on?

14 MS. CLARK: Yes.

15 COMMISSIONER BARABBA: Okay. Thank
16 you.

17 MS. CLARK: And the last region for
18 senate districts that I have -- could use
19 direction on is this tri-counties area again.

20 COMMISSIONER DIGUILIO: Did we
21 answer your question for SD-4, because it's still
22 underpopulated?

23 UNKNOWN FEMALE SPEAKER:
24 (Inaudible).

25 COMMISSIONER DIGUILIO: So it can

457

1 Oh. Right. So if you want to look at them, look
2 at the maps, but we needed some updated tables.
3 MS. MACDONALD: No. They used
4 different data.
5 COMMISSIONER ANCHETA: Right.
6 MS. MACDONALD: That's possibly
7 what happened.
8 COMMISSIONER ANCHETA: Right. But
9 the maps are --
10 MS. MACDONALD: No, but we can send
11 you -- sorry. It's late.
12 COMMISSIONER ANCHETA: You want to
13 look at something.
14 MS. MACDONALD: But we can send you
15 the benchmarks --
16 COMMISSIONER BARABBA: Okay.
17 MS. MACDONALD: -- the benchmark
18 percentages.
19 COMMISSIONER BARABBA: All right.
20 MS. MACDONALD: Okay.
21 COMMISSIONER BARABBA: So let's
22 look at the new ones here.
23 MS. CLARK: So for this
24 visualization for the Merced district, Merced is
25 intact. This portion of eastern Madera County,

465

KELLINORDEN AND ASSOCIATES 310.820.7733 FAX: 310.820.7933

1 including the city of Madera, is also intact.
2 This was -- there was testimony saying that this
3 was the place that, what, to the west of this
4 line is the flatlands and to the east is the
5 foothills.

6 Then along the 99 corridor it comes
7 into Fresno County to grab this southern area of
8 the city of Fresno and continues along the 99
9 corridor to grab a few communities here along the
10 99 corridor as well.

11 This has a deviation of zero
12 individuals. The Latino V.A.P. is 53.1 percent.
13 Black V.A.P. is 6.08 percent. And Asian V.A.P.
14 is 8.68 percent.

15 If we look at this Kings district,
16 this is also pretty similar to the benchmark.
17 Kings is intact. Again, this west Fresno area is
18 also included. This includes more of west
19 Fresno, which there was community of interest
20 testimony saying that all of west Fresno was a
21 community of interest.

22 And then again, northwest and
23 southwest Tulare County, this Wasco/Shafter area
24 and the 99 corridor is intact. And then again,
25 the curl comes down to pick up Arvin, Lamont,

466

KELLINORDEN AND ASSOCIATES 310.820.7733 FAX: 310.820.7933

1 Weedpatch and southeast Bakersfield.

2 There's a deviation of one person
3 on this. The Latino V.A.P. is 65.77 percent.
4 Black V.A.P. is 5.71 percent. Asian V.A.P. is
5 3.83 percent.

6 COMMISSIONER BARABBA: Commissioner
7 Filkins-Webber.

8 COMMISSIONER FILKINS-WEBBER: In
9 line with what Commissioner Barabba had asked
10 earlier about our Kern curl, you had it going one
11 direction for the assembly, and if we were to
12 consider some nesting and we went that direction
13 again, would that be consistent with this
14 congressional district?

15 If we make a decision which way the
16 curl's going to go, I guess all three of the maps
17 will follow, or do you think that there's going
18 to be some significant difference?

19 MS. CLARK: There is in general --

20 COMMISSIONER FILKINS-WEBBER: The
21 reason I ask is because we did receive some
22 specific C.O.I. testimony regarding southern
23 Bakersfield and how that particular area in --
24 and specifically new homes, new construction, if
25 I'm not mistaken it was, I thought it was an

1 should follow the guidance that we gave you for
2 the assembly, but if we caused pain, to try to fix
3 it in the senate where we split something in
4 particular. So I think the South El Monte -- or
5 El Monte example was a good one. I think that's
6 a -- that's a good general rule of thumb.

7 Any -- anybody else have some
8 refinements to that.

9 (No audible response.)

10 COMMISSIONER BARABBA: I believe we
11 can move on from -- from that suggestion, yes.

12 Commissioner Yao.

13 COMMISSIONER YAO: I just want to
14 throw out something and see whether we can reach
15 some kind of general agreement. For small to very
16 small cities, pick a number, 20 thousand -- 20
17 thousand population, should we set an objective
18 and try not to split those very small cities?

19 In other words, given the choice of
20 splitting bigger cities versus smaller cities, the
21 preference is to try not to split the small
22 cities.

23 COMMISSIONER BARABBA: I think the
24 problem you run into going by size is it's where
25 the city is located relative to the district.

1 COMMISSIONER YAO: No, I understand
2 that, but -- but often we do have choices in term
3 of which city to split to come out with the exact
4 population, and -- and I'm simply suggest that
5 if -- if everything else being equal, then perhaps
6 the -- the pain will be less to split the bigger
7 city as compared to the smaller city.

8 COMMISSIONER BARABBA: Any other
9 commissioners want to comment on that?

10 Commissioner Ancheta.

11 COMMISSIONER ANCHETA: Well, I
12 think that's hard because it assumes all other
13 things are equal. I'm not sure we can always
14 determine when all other things are equal.

15 I understand the interest that --
16 Commissioner Yao has identified. I -- I don't
17 feel comfortable sort of ranking cities, though,
18 because I think there's too many variables going
19 into location and what -- what other things are
20 happening to try to create a district. But -- but
21 I understand what you're -- what you're getting
22 at.

23 COMMISSIONER BARABBA:

24 Ms. MacDonald.

25 MS. MACDONALD: I mean, as you can

1 point out that that is something that will happen,
2 and if you have some preferences or if you'd like
3 to give us some guidance on that. And again, I'm
4 not saying that you can nest everything, right.

5 COMMISSIONER BARABBA: Yes. I
6 think an example that Commissioner Webber just
7 identified, this would be -- when you think -- if
8 you have another direction over in San Bernardino,
9 it would be better to nest the two assembly
10 districts in San Bernardino together rather than
11 go over county.

12 But we understand that from time to
13 time you'll have to go over a county.

14 Commissioner Yao.

15 COMMISSIONER YAO: By making this
16 nesting decision of the Pomona, Montclair, along
17 with San Bernardino and so on, basically
18 indirectly we're forcing Rancho and Upland to be
19 nested with the -- with the Los Angeles County.

20 And -- and I suspect that there's
21 probably opposition to that decision as well, so
22 we -- we basically listened to the Pomona speakers
23 and -- and made the decision to allow Pomona to --
24 to be part of the San Bernardino County in coming
25 up with the assembly.

1 But that forces the -- the --
2 the -- the -- the marriage of the San Bernardino
3 cities with the Los Angeles County, so I -- I
4 don't know whether we want to discuss that
5 trade-off or not, but -- but that's really what we
6 have done.

7 COMMISSIONER BARABBA: Commissioner
8 Blanco.

9 COMMISSIONER BLANCO: I have a
10 question about how this works in term -- is this
11 one -- so is this one of the areas that we're
12 doing the racially polarized voting analysis
13 from -- for? I can't remember. Pomona Valley?

14 COMMISSIONER BARABBA: I'm getting
15 a nod of the head from Mr. Brown.

16 COMMISSIONER BLANCO: Yes? Yes?
17 And when -- when we do that, do you it separately
18 for an assembly and then separately for a senate?
19 How does that work?

20 MR. BROWN: We'll want to consult
21 with the expert that we hired, but my sense is
22 you're going to do it for the geographic area that
23 you're interested in.

24 COMMISSIONER BARABBA: Okay. So in
25 answer to your question, Ms. MacDonald, I think

TAB 65

----- Original Message -----

Subject: District Lines

Date: Tue, 31 May 2011 13:10:18 -0700

From: Glenn Miller <[REDACTED]>

To: <[REDACTED]>

Dear CRC Members:

I would like to call your attention to the **101 emails from citizens** (73 emails, one with a 29-signature petition attached) that was recently lodged with the Commission opposing the districting of cities in the Coachella Valley with Imperial County. These emails clearly spell out the reasons why these two areas should not be drawn together, most notably that the Coachella Valley is a tourism based economy with a suburban, contiguous bedroom community and Imperial County is a distant rural farmland area highly dependant on the agriculture industry. I have never in my (9) years in office had any kind of interaction with Imperial County Cities and/or their representatives. Conversely, I sit on many boards and commissions with my fellow elected officials of western Riverside County cities.

In your May 19 regional wrap-up the Commission clearly recognized these differences and directed several alternative maps combining Imperial County with San Diego County. In that hearing you reiterated the strong testimony of Imperial County and San Diego County residents to keep their counties together in one district. These counties share a common border and culture, and their elected officials have worked together on numerous projects and social issues for many years with great success. They already share educational, medical, and social interaction on a daily basis. San Diego County also has the necessary resources to bring Imperial County into a more productive area sooner than the cities in the eastern region of Riverside County.

In your Region 2 wrap-up you directed that NO maps combining Coachella Valley with Imperial County be drawn. The only outstanding question was which area should have responsibility over the Salton Sea. That can be mitigated either way to protect both areas interests.

I hear that powerful special interest groups are proposing maps combining these two unrelated areas and splitting the desert cities. However, the redistricting lines need to be drawn taking into consideration what is best for both areas and should NOT be about politics and catering to the needs of Special Interest groups. Since the CRC gave the citizens no time to react to these maps, I am entering into the record my request that you don't let these groups have the last say and that you will put the most weight on our citizens who know needs of their respective cities and the unincorporated areas that will be directly affected by the Commission decision. In our case, **101 citizens are the largest number of emails supporting one specific redistricting issue in the entire State!**

Once again, **please do not combine the Coachella Valley with Imperial County in any maps** for the reasons stated above.

Respectfully submitted,
Glenn A. Miller

1 know, if it goes down a lot then I suspect, again, given a
2 totality's analysis that if the other numbers are
3 generally okay that we'd probably be fine.

4 But there's certain things we just can't control
5 because if there's a big shift away and that's largely
6 something we can't do without violating contiguity or
7 compactness concerns, then I don't think there's much we
8 can do at this point.

9 CHAIRPERSON GALAMBOS MALLOY: So, I'm hearing,
10 Commissioner Yao, a suggestion that we -- I will allow Ms.
11 MacDonald to speak, first, then I'll summarize. Go ahead.

12 MS. MAC DONALD: I just wanted to clarify the
13 benchmark really quickly. So, the benchmark is 2001 lines
14 with 2010 data. So, these are current data that are in
15 the benchmark lines, basically.

16 So, it's the old district lines, the ones that
17 we're now redrawing with the new data.

18 CHAIRPERSON GALAMBOS MALLOY: Okay.

19 COMMISSIONER YAO: Thank you.

20 CHAIRPERSON GALAMBOS MALLOY: So, in light of
21 that, Commissioner Yao, it seemed like you were suggesting
22 that the Commission consider a broad principle around how
23 close do we try and get with some of our percentages
24 regarding retrogression in smaller minority populations.

25 COMMISSIONER YAO: My concern is that if we --

1 going up.

2 CHAIRPERSON GALAMBOS MALLOY: Uh-hum, uh-hum.

3 Thank you.

4 COMMISSIONER DAI: So, one question before we move
5 on. I just had a question and this is partly to my fellow
6 Commissioners, about Butte. I'm trying to remember -- or
7 maybe to our line-drawers, whether -- was there testimony
8 about Butte being incorporated in some of those --
9 including in some of those, Sutter, Yuba and, if so, have
10 we been able to honor that request in another district,
11 like in a Senate or a Congressional?

12 MS. CLARK: There is -- there is COI testimony
13 that Butte is a community of interest with basically this
14 area, Butte, Yuba, Sutter, Colusa and Glenn.

15 In Senate I did next these two districts and
16 they're together in Senate. And I believe they're
17 together in Congress, too, but that could be --

18 COMMISSIONER DAI: Okay. So, just for a note I'll
19 take a note that for Assembly it just wasn't possible to
20 do that, but we'll look further in terms of Congressional
21 and Senate.

22 MS. CLARK: If the Commission is interested in
23 maintaining this north to south oriented Assembly
24 districts then we, yeah, definitely would have to move a
25 lot around.

1 Ancheta.

2 COMMISSIONER ANCHETA: So, given that reasoning,
3 when are we covering Section 5 Congressional and Senate
4 districts?

5 MS. CLARK: Right now.

6 MS. MAC DONALD: Right now.

7 COMMISSIONER ANCHETA: Right now, we're going
8 back -- oh, we're going back up to Merced, Kings,
9 Monterey?

10 MS. MAC DONALD: Correct, for Senate. So, we're
11 doing Senate Section 5 districts next.

12 COMMISSIONER ANCHETA: Okay, thank. So, I was
13 inquiring about the exact ordering, thank you.

14 MS. MAC DONALD: We're going to page 17.

15 And I apologize that you're seeing all of this
16 programming actually on the screen. We usually have a
17 second monitor, so this is usually done on the second
18 monitor. But the second monitor is not yet hooked up, but
19 it will be. So, for this afternoon we're going to have a
20 little bit less of this. Maybe it's exciting for some of
21 you to see it.

22 MS. CLARK: So, this Senate district addresses the
23 Merced benchmark issues, as well as this eastern part of
24 Monterey. It's similar to the benchmark district lines.

25 This district, again the County of Merced is

1 completely intact. It comes up and grabs this East
2 Stanislaus County -- or I'm sorry, West Stanislaus County
3 area, splits the City of Modesto. And does not include
4 the City of Turlock, which is dissimilar to the Assembly
5 plan that we just looked at.

6 It does include this very western flatland region
7 of Madera County, and then comes in just west of the 99
8 corridor in Fresno County.

9 The City of -- or the County of San Benito is also
10 intact and included in this plan, and this area, the
11 Highway 101 corridor in Monterey County.

12 The benchmark percentages for this district, for
13 percent Latino VAP is 53.48 percent. The percent black
14 VAP is 3.14. And percent API VAP is 5.64.

15 This visualization has a -1.52 percent deviation.
16 The Latino VAP is 57.43 percent. The black VAP is 3.27
17 percent. And the API VAP is 5.6 percent.

18 The only city splits are Modesto and Fresno.
19 I'm sorry, the City of Fresno is not included in this
20 visualization, so the only city split is Modesto.

21 CHAIRPERSON GALAMBOS MALLOY: Commissioner
22 Barabba?

23 COMMISSIONER BARABBA: Yeah, how far west into
24 Monterey County did you go?

25 MS. CLARK: It's really just along the Highway 101

1 corridor. It's including these cities from Salinas to
2 Kings City.

3 COMMISSIONER BARABBA: Okay, thank you.

4 CHAIRPERSON GALAMBOS MALLOY: Commissioner
5 DiGuilio?

6 COMMISSIONER DI GUILIO: Just going back, since
7 Modesto was split in the Assembly, could I see -- is it a
8 similar split in the Senate as well, too?

9 MS. CLARK: Yes, it's just the southern area.

10 COMMISSIONER DI GUILIO: Okay. So, it still has
11 to split the greater Modesto area, but it's along those
12 same lines as the AD?

13 MS. CLARK: I believe that this split is a little
14 bit further north in Modesto, but it is pretty close.
15 It's right here at the 99 and 132 junction.

16 COMMISSIONER DI GUILIO: And could I see just the
17 very top of that?

18 MS. CLARK: This is the Census place Salida.

19 COMMISSIONER DI GUILIO: Yeah, and it had to be
20 included in that?

21 MS. CLARK: It had to be included in that for
22 population. Again, that's the -1.52 percent deviation.
23 However, I -- I could try and --

24 COMMISSIONER DI GUILIO: So, it's either keep
25 Salida or you have to break up what's down there, is that

1 Turlock? Yeah.

2 MS. CLARK: Yeah.

3 COMMISSIONER DI GUILIO: Okay, just wanted to
4 check it.

5 MS. CLARK: Also, because the -- I could look into
6 incorporating more of the City of Modesto, since the
7 Latino VAP is above the benchmark by about four percent,
8 but that would be further splitting Modesto.

9 CHAIRPERSON GALAMBOS MALLOY: Commissioner -- I'm
10 sorry, go ahead.

11 COMMISSIONER DI GUILIO: So, maybe that would be
12 an area to see if that community would prefer to have
13 Salida in with greater Modesto, and to slice up part of
14 Modesto on the bottom or --

15 MS. CLARK: Okay.

16 MS. MAC DONALD: Correct. And then also where to
17 exactly split Modesto, if there's perhaps some
18 neighborhood testimony or so that might be received by the
19 Commission.

20 CHAIRPERSON GALAMBOS MALLOY: Commissioner
21 Ancheta?

22 COMMISSIONER ANCHETA: Oh, could you pan down to
23 show the Fresno sections in this district?

24 MS. CLARK: The cities included in this
25 visualization are Biola and Kerman. Other Census places,

1 Commissioner Blanco?

2 COMMISSIONER BLANCO: Can you refresh my memory,
3 maybe other people remember, what was the guidance that we
4 gave you on this Assembly district that sort of created
5 this? I mean, what was sort of -- what was the pivotal
6 decision that drove this?

7 MS. ALON: Well, this was mostly trying to -- of
8 course, the first decision being not to go down into San
9 Francisco from Marin, having to push upward.

10 And then you gave direction about this part of
11 Sonoma County, the wine-growing areas being with Napa on
12 this side.

13 And so, because we have this district, which goes
14 all the way up north, Marin had to kind of come over here
15 to these areas, but avoid more of these -- but we were
16 able to keep kind of the wine areas together.

17 CHAIRPERSON GALAMBOS MALLOY: Commissioner
18 DiGuilio?

19 COMMISSIONER DI GUILIO: Thank you. I'm just
20 wondering did we have any -- did we have any testimony,
21 really, in terms of that Benicia/Vallejo area, or was it
22 just kind of, again, you were saying it based on
23 population deviation. And I understand that, I just
24 didn't know if that -- I don't necessarily recall anything
25 specifically in that area against what --

1 MS. ALON: We actually had virtually no COI
2 testimony about Solano County which is why, yeah, we moved
3 it.

4 COMMISSIONER DI GUILIO: Thank you.

5 CHAIRPERSON GALAMBOS MALLOY: Commissioner Forbes?

6 COMMISSIONER FORBES: A thought. As opposed --
7 the wine country in Napa County is north of Napa; it's not
8 south of Napa. It made me wonder whether we could keep
9 Fairfield whole and -- or, basically, trade Napa for
10 Fairfield, for the half of Fairfield cut out. Would
11 anything like that would work?

12 I mean, I recognize that I'm splitting Napa
13 County, but we're splitting Solano County, anyway, so I
14 don't think it's a --

15 MS. CLARK: Just to clarify, then, the direction
16 would be to look into excluding Fairfield from this
17 visualization to include this southern area of Napa
18 County?

19 COMMISSIONER FORBES: Right.

20 COMMISSIONER DI GUILIO: What is the population of
21 that last purple city, American --

22 MS. CLARK: Canyon --

23 COMMISSIONER DI GUILIO: -- Canyon, versus what
24 you had to take out of Fairfield? That's just something
25 to look into, you might not know it now. I don't know how

1 Sacramento. And this -- and out to Davis.

2 COMMISSIONER FORBES: I do have a couple of
3 comments on this, just for the record. I do notice on the
4 map, the colored map, you have a little piece -- you have
5 in a different district.

6 If you look just to the southwest of Davis, it's
7 outside of the boundary, but I believe that is going to be
8 the university and that should be in the district.

9 MS. CLARK: The university --

10 COMMISSIONER FORBES: Right there. Right there,
11 uh-huh.

12 MS. CLARK: The University of Davis should be with
13 Davis.

14 COMMISSIONER FORBES: The University of California
15 at Davis should truly be in the district.

16 MS. CLARK: Okay.

17 COMMISSIONER FORBES: Now, this is just for the
18 Davis folks and the Yolo County folks, this is a change
19 from how things are now, and the rational is that West
20 Sacramento has a great identification with Sacramento
21 proper in baseball, in bridges, in proximity, both sides,
22 river fronts, and so forth and so on.

23 And in Davis the primary -- there's a lot of
24 employment connection to Sacramento, an awful lot of
25 people who work in downtown Sacramento and at the Capitol

1 Calaveras, Amador, Tuolumne, Mariposa, and all of Madera
2 County.

3 In this visualization, there was testimony
4 saying that Madera County should be split right here to
5 have sort of a flatlands versus foothills configuration
6 for Madera County. However, because of population
7 constraints that was not possible.

8 The other option for that might have been to
9 include this -- the rest of Fresno County -- the rest of
10 the City of Fresno, rather, with this east -- with western
11 Madera County. However, the population was not great
12 enough.

13 So, for this visualization I opted to just have
14 eastern Fresno County as its own district and then to
15 include Madera County whole with this Foothills district.

16 CHAIRPERSON GALAMBOS MALLOY: Commissioner
17 DiGuilio?

18 COMMISSIONER DI GUILIO: I'm just looking at the
19 northern part, it looks like El Dorado, a little bit of
20 the western part of El Dorado is split off, too. I'm
21 assuming it's probably not a very big --

22 MS. CLARK: This -- right, this is in that
23 Sacramento metropolitan area.

24 COMMISSIONER DI GUILIO: Okay.

25 MS. CLARK: It's El Dorado Hills and Cameron

1 then comes down to include -- oh, along the 99 corridor,
2 and it includes Visalia and Tulare, in Tulare County.
3 Those are the two most populated cities in Tulare County
4 and the only city split is Fresno.

5 Zero percent deviation.

6 CHAIRPERSON GALAMBOS MALLOY: All right, let's move on.

7 COMMISSIONER DI GUILIO: Just a question; how big
8 is the population of Fresno?

9 MS. CLARK: The entire city? Four hundred and
10 twenty-seven thousand.

11 COMMISSIONER DI GUILIO: And I'm assuming those
12 splits happened along some of the -- we did have a lot of
13 COI testimony that distinguished the different areas of
14 Fresno, is that kind of what it was based on?

15 MS. CLARK: Right. So, if you remember, then this
16 Section 5 county, Merced, this district picks up this
17 southern Fresno, City of area, based on COI testimony.

18 COMMISSIONER DI GUILIO: Thank you.

19 CHAIRPERSON GALAMBOS MALLOY: All right, let's
20 move on.

21 MS. CLARK: This visualization -- this
22 visualization is not quite finished, we need to pick up
23 approximately 85,000 people, but it does include just this
24 little left-over bit for population in Fresno County. And
25 then this eastern Tulare County, all of the rest of Kern

1 County, and then I am -- left it in the hands of Nichole
2 and Alex to pick up the rest of the 84,000 people.

3 COMMISSIONER FORBES: That was very considerate of
4 you.

5 MS. CLARK: To be continued.

6 COMMISSIONER FORBES: Smart, too.

7 COMMISSIONER DAI: Well, Kern's only split once,
8 is that right?

9 MS. CLARK: Excuse me?

10 COMMISSIONER DAI: How many times is Kern County
11 split?

12 MS. CLARK: Kern County is split once.

13 COMMISSIONER DAI: Yeah, that's a big improvement
14 over the last time.

15 MS. CLARK: If we refer to page 24, this is the --
16 again, the Tri-County area, Region 5, the intact Counties
17 of San Luis Obispo and Santa Barbara. Here, in Ventura
18 County, we're having a similar issue with this
19 potential -- or with this community of interest.

20 Maybe we should just focus on this one, first.

21 All of San Luis Obispo and Santa Barbara Counties, and
22 then northern Ventura County and Ojai.

23 Are there any questions about that? Zero percent
24 population deviation.

25 COMMISSIONER DI GUILIO: So, I'm sorry, so what's

TAB 68

06.01.11 California Section 5 Benchmark District Stats

Madam Chair and members of the California Citizens Redistricting Commission, I am Alice Huffman, President of the California National Association for the Advancement of Colored People (NAACP). The NAACP submitted redistricting plans to the Commission on May 23, 2011 and I am concerned that you are discussing your plans without including the input we submitted.

The NAACP used the criteria established by the initiatives passed by the voters in preparing our plan. Your lawyer advised you to use the provisions of Section 2 of the Voting Rights Act as the principle guide in drawing the lines for districts in Los Angeles that centered around Compton, Carson, Inglewood and Gardena. Using Section 2 will result in the consolidation of four Assembly districts in two and two Senate Districts into one and three Congressional districts into two. We did not apply Section 2 because we have no evidence of polarized voting against African Americans and to apply this section would result in a dilution of African American voting strength. Your lawyer has further advised you that Section 2 of the Voting Rights Act is applicable only when the following preconditions exist:

1. A protected minority group is concentrated into an area where they could make up 50% or more of a district.
2. The minority group must be contiguous. And
3. There must be evidence of polarized voting against the specific minority group.

We took a look at Los Angeles and other cities where there are concentrations of African Americans and could not find any evidence of polarized voting. We

Additionally, we looked at Assembly, Senate and Congressional Districts where African Americans have been elected. Our review dated back to the 1990 redistricting. We found that the percentage of African Americans in each district ranged from 11.87 percent to 46 Percent. However, since the 2002 redistricting, which we believe was prepared by the courts, African have not comprised more than 36 percent of a district.

Table I

Assembly District	Percent of AA in District 1992	Percent of AA in District 2002
44	11.87	9.6
47	40.45	31.0
48	46.17	30.46
51	36.96	31.58
52	36.26	28.67
55	23.28	15.24
62	12.65	13.81

Table II

Senate District	Percent of AA in District 1992	Percent of AA in District 2002
25	36.6	33.3
26	43.0	29.7

Table III

Congressional District	Percent of AA in District 1992	Percent of AA in District 2002
33	40.0	26.4
35	43.0	29.40

We believe our review clearly demonstrates the absence of polarized voting. Therefore, we do not believe the Commission should apply Section 2 of the Voting Rights Act to the areas mentioned. If Section 2 is not applicable, then the Commission must use the criteria of Compactness, Contiguity, Preservation of Cities and Counties and Respect for Communities of interest.

We are opposed to the use of Section 2 in drawing the lines for the above communities in your first draft of the redistricting plan and urge the Commission to adopt the lines contained the NAACP plan.

1 Barabba and then Dai.

2 COMMISSIONER BARABBA: the sense I got out of the
3 discussion is the people who brought that idea up were
4 more concerned about their connection to the mountains
5 than they were about their connection within the city.
6 And I think that's what's probably left this to occur.

7 CHAIRPERSON GALAMBOS MALLOY: Commissioner Dai.

8 COMMISSIONER DAI: Yeah, and the other thing that
9 we gave direction to Q2 about was to allow them to split
10 it along the 210 because there is a difference in the
11 communities that are north of the 210 vs. south, even
12 within the same city, and this is also to accommodate a
13 potential Section 2 district.

14 COMMISSIONER YAO: Yeah, that mainly applies to
15 the San Bernardino County cities like Rancho Cucamonga
16 and Fontana, and so on, that comment doesn't apply to the
17 Los Angeles County Foothill Cities.

18 CHAIRPERSON GALAMBOS MALLOY: Commissioner Di
19 Guilio.

20 COMMISSIONER DI GUILIO: I'd like to just make
21 one last comment, generally. I think we all ought to
22 remind ourselves, too, as we were reminded by, I believe,
23 the League of Women Voters, a joint letter that was sent
24 a little while, a couple weeks ago, to remind us that we
25 don't want to put too much emphasis just on lack of city

161

CALIFORNIA REPORTING, LLC
52 Longwood Drive, San Rafael, California 94901 (415) 457-4417

1 and county splits, but to also give equal weight to
2 communities of interest testimony. I think sometimes we
3 think that cities and counties are very easy lines, but
4 we should be encouraged to listen to the COI testimony
5 and, in some circumstances, we'll try and keep cities as
6 whole as we can, but there has been a lot of testimony to
7 say that we would like to have them split, then let's
8 throw something out there and then they can respond to it
9 if there is the response that says that was our initial
10 direction, but we don't like the consequences of that,
11 then we can make adjustments. But, again, I think this
12 absolute idea of we never split cities or never split
13 counties, I think, in general, is correct, but not if
14 it's at the expense of significant COI testimony, which
15 we've been reminded is just as important and equally
16 balanced as the others.

17 CHAIRPERSON GALAMBOS MALLOY: Okay,
18 Commissioners. I think we're reaching time. Any final
19 direction or comments on this district? It seems that,
20 at this point, given that we're at the draft stage, that
21 we should move forward with the Foothills District. I
22 think we would like to consider if there is the
23 possibility of reuniting any of these cities and still
24 maintaining the concept of a Foothills District, that we
25 would prefer that, but barring that, we will move ahead

From: Dan Nahmias <[REDACTED]>

Subject: Keep Oxnard WHOLE!

Message Body:

Dear Commissioners,

I am writing to voice my opinion about the pertinent task of redrawing our new district lines.

I currently work in Oxnard as a firefighter. I know firsthand the importance of keeping this city whole and providing it the same legislative representation. It would be a disservice to the community to split Oxnard into more than one district and I encourage you to keep it whole. I know several people who were very concerned with the direction the commission took yesterday in regards to breaking Oxnard up.

I ask that when redrawing our district lines that you keep Oxnard whole even if it includes making it part of a district to the north. It makes more sense to keep the Santa Clara Valley together with East Ventura County.

Thank you,

Dan Nahmias

Oxnard City Firefighter

From:Rita Johnson <[REDACTED]>

To:[REDACTED]

Attn: California Redistricting Commission:

Dear Commissioners:

As residents of Marin county for 40 years, we feel strongly that Marin should **NOT** be lumped together with San Francisco or any East Bay communities as there are no points in common with either of those communities. If Marin must be paired with any community it should be its sister county of Sonoma and possibly Napa. We request, along with others, that Marin, Sonoma and Napa be joined for the State Senate District; Marin and Sonoma be joined for the Congressional District; and, for State Assembly, it be paired with Southern Sonoma County--depending on the numbers involved that would encompass going up to Santa Rosa and, if possible, include the city of Santa Rosa as the links between Santa Rosa, Rohnert Park, Novato and San Rafael are many, both culturally, socially, transportation-wise and commerce-wise. Another acceptable scenario for Assembly would be Marin, Southern Sonoma including Petaluma/Rohnert Park and extending into the contiguous part of Napa. All three of these counties have cultural, commercial and transportation communities of interest.

Moreover we support: fair and competitive districts that fully comply with Proposition 11 with district geography criteria of natural geographical boundaries such as mountain ranges, bodies of water, of equal population and that comply with the Federal Voting Rights Act. I want my district lines to maintain district contiguity, and compactness by keeping cities, communities and neighborhoods intact as much as possible.

1. **I strongly oppose** the Sierra Club Bay Area plan that violates the Voting Rights Act and gerrymanders the TriValley.
2. **I agree** with the Sierra Club plan ONLY on the one point, **not to cross the Bay and Golden Gate Bridges.**
3. **I reject** the San Joaquin County Citizens for Constitutional Redistricting plan; they carve up the TriValley to create a San Joaquin district favorable to a tiny fraction of our Bay Area population.
4. **I reject** the Latino Policy Forum maps; they create an absurd district that jumps over the water to connect Marin, half of

<https://mail.google.com/mail/?ui=2&ik=d92a6b21a7&view=pt&search=inbox&msg=1306b...> 6/7/2011

San Francisco and West Oakland in violation of the Federal Voting Rights Act.

5. I strongly oppose the California Institute for Jobs, Economy, and Education (CIJEE) plan and insist that districts not jump across the East Bay hills, because the communities from San Leandro to Milpitas have little in common with the Tri-Valley, and everything in common with each other. The commission got overwhelming testimony in the Oakland input hearings to this effect, both from Tri-Valley and from Oakland, San Leandro, Milpitas, Richmond, El Cerrito etc. to the effect, "Keep the Berkeley Oakland Hills as a natural geographic barrier between urban, ethnic, diverse communities west of the hills and suburban bedroom and office park communities east of the hills."

6. I strongly oppose the Institute for Jobs, Economy, and Education (CIJEE) gerrymander of Union City, an overwhelmingly Asian and Latino city along the East Bay shoreline that CIJEE links with the Tri-Valley communities such as San Ramon and Livermore. Union City is linked to its neighbors in Fremont and Newark by ethnicity, job patterns, and I-880. It has no connection whatsoever to Danville! Additionally, there was very clear testimony at the Oakland input hearing from community groups centered around the auto industry who did NOT want to be connected to Tri-Valley.

7. I strongly oppose the Institute for Jobs, Economy, and Education (CIJEE) plan forcing communities of Lamorinda and Pleasant Hill into a district with Berkeley, as was done in 1981, and is being resurrected by CIJEE. The Berkeley-Oakland area is different in every demographic respect from the suburban communities on the other side of the mountains.

8. I strongly oppose the Institute for Jobs, Economy, and Education (CIJEE) plan gerrymandering that put the mid-Peninsula area around Palo Alto with the city of Santa Cruz - a city on the other side of a mountain range, in a different county, and on the ocean.

9. I strongly oppose the Institute for Jobs, Economy, and Education (CIJEE) plan which splits the Latino community in San Jose into two Assembly districts, although it should be kept together in one district.

10. I strongly oppose the Institute for Jobs, Economy, and Education (CIJEE) plan for Marin. Any AD based in Marin should expand north along Hwy 101, to reach people who work in Marin. It should not be gerrymandered far east to Benicia, which it has nothing in common with.

11. I strongly oppose the Institute for Jobs, Economy, and Education (CIJEE) plan which merges North Bay districts with SF districts. We insist that the North Bay districts be kept separate from the SF districts.

12. I reject the Coalition of Asian Pacific Americans for Fair Redistricting CAPAFR plan. Specifically but not limited to joining Fremont with The TriValley: the City of Pleasanton.

13. I reject the Mexican American Legal Defense and Education Fund (MALDEF) plan for violations of the Voter Rights Act and abusive gerrymandering. So ridiculous that one commissioner spoke out during MALDEF's presentation on 5/26 in Northridge stating "Why so many Gerrymander Fingers?"

Thank you,
Rick and Rita Johnson

1 as well. I think that's problematic.

2 COMMISSIONER BLANCO: I would agree.

3 COMMISSIONER DAI: We had talked before about
4 extending Benicia and Vallejo to the south, not to the
5 west. So, I think we're going to have to revisit how far
6 down the North Coast district comes.

7 CHAIRPERSON ONTAI: Commissioner Barabba?

8 COMMISSIONER BARABBA: And we did hear community
9 comment identifying how the community kind of rejected
10 this idea. Not specifically, but when you look at the
11 numbers they're pretty clear.

12 COMMISSIONER GALAMBOS MALLOY: I agree, I think we
13 heard quite a bit of testimony about not crossing the
14 Golden Gate Bridge, but that was before we had a tangible
15 alternative of what it would look like if we did not cross
16 the Golden Gate Bridge.

17 So, you know, if the Commission feels like we
18 should move ahead with this, I'm open to it. But I am
19 convinced that this will not look like this by the time we
20 get to the next round of maps. Although, we might have
21 some more specific direction or guidance on which
22 direction we go.

23 COMMISSIONER DI GUILIO: So, do we have any
24 suggestions? Again, this is similar to San Diego, do we
25 want to throw something out now for the mappers to work on

1 P R O C E E D I N G S

2 JUNE 7, 2011

6:34 P.M.

3 CHAIRPERSON ONTAI: Okay, the Commission is
4 reconvening after a dinner break and so we'll jump right
5 into the continuation of the Assembly Districts. Nicole?
6 I mean, Jaime, I'm sorry. Why am I calling you Nicole?

7 MS. CLARK: Okay, if next we can move on to this
8 East Fresno Assembly District on page 32? This district
9 hasn't had any dramatic changes to it, just along this
10 boundary here with the West Fresno District and that's
11 it. The City of Fresno is split and, obviously, the
12 County of Fresno is split, and those are the only splits.

13 CHAIRPERSON ONTAI: All right, comments? Good?
14 Let's move on.

15 MS. CLARK: Okay, if we can move on to page 33 to
16 look at this Kings Section 5 district. This also hasn't
17 changed since you've last seen it. There's the intact
18 County of Kings, Northern Kern County, and then along the
19 I-5 there's the curl.

20 CHAIRPERSON ONTAI: Comments. Mr. Kolkey?

21 VRA ATTORNEY KOLKEY: Yes. And so, for the
22 record, after working through this, were you able to find
23 any more compact configuration that avoided retrogression
24 with respect to the district covering Kings County?

25 MS. CLARK: Really, the only other option for

5

CALIFORNIA REPORTING, LLC
52 Longwood Drive, San Rafael, California 94901 (415) 457-4417

1 this is to have the curl going in the opposite direction,
2 unless we're talking about splitting Kings County, which
3 would be another Section 5 district.

4 CHAIRPERSON ONTAI: All right, thumbs up? All
5 right, let's move on.

6 MS. CLARK: Okay, on page 34, oh, actually maybe
7 back to page 33, I'm sorry, I skipped Tulare County
8 District, it is the entirety of Tulare County and then
9 northern regions of Central Kern County for population.
10 This also hasn't changed since the last time you saw it.

11 CHAIRPERSON ONTAI: Comments. Looks good? All
12 right, let's move on.

13 MS. CLARK: Okay, so this district is the rest of
14 Kern County, all of the rest of Bakersfield is included
15 in this county, there is only one city split based on
16 that southeastern area of Bakersfield. And the rest of
17 the county, excluding this lower southeastern portion of
18 the county, which was needed, as you saw earlier in
19 Alex's Assembly districts for population.

20 CHAIRPERSON ONTAI: Comments. Commissioner
21 Barabba.

22 COMMISSIONER BARABBA: What was the total
23 population of Kern County?

24 MS. CLARK: The total population of Kern County
25 is approximately 840,000.

1 because this is a template that would be appropriate for
2 kind of a Central Valley, agri-business, large-scale
3 operation as opposed to the smaller scale, often by-hand-
4 agricultural concerns of Napa County that would share more
5 over with the coastal winery regions.

6 Obviously, the name "Napa" is identifiable all
7 over the world as a premium California wine-producing
8 region. We would feel that it would be a disservice to
9 the Napa County and the California wine industry to
10 separate the representation and to separate Napa away from
11 the other coastal wine-growing regions.

12 On the other topic, as a citizen -- as a citizen
13 and resident of the City of American Canyon, to echo
14 Council Member Bennett's concerns, I would urge you not to
15 separate American Canyon out.

16 Currently this year, for example, the supervisor
17 representing American Canyon is the Chair -- the Vice-
18 Chair of the Napa County Board of Supervisors. The
19 President of the Napa Valley College Board of Trustees,
20 the President of the Napa Valley Unified School District
21 and myself, as the Chairman of the Napa Valley Planning
22 Commission all are American Canyon residents, and I think
23 that illustrates the new political and economic nexus
24 between the interests of American Canyon and the interests
25 of Napa County. Thank you.

Subject: Oddities in the grouping of the Eastern Inland Empire

Message Body:

In looking at each of the four maps, I begin to notice an irregularity in the maps when it comes to boundary lines in reference to the Eastern Inland Empire; the specific communities in question being the Cities of Yucaipa, Calimesa, Banning, and Beaumont. As an overview I list the communities the cities are grouped with below:

Assembly - MORONGOBAN (Morongo Valley, Hemet, and Menifee)

Senate - SBBAN (Highland, Hemet, Morongo Valley, and Redlands)

Congress - INMSB (Mammoth Lakes, Inyo County, Barstow, and Needles)

Equalization - ORSD (Highland, Riverside, San Diego)

If the intent was to group those with common regional interest then the Redistricting Board has failed with this area of California. As evident in the groupings listed, the Board seems to believe that residents of the Eastern Inland Empire have more in common with the Morongo Valley and High Desert than with those in the Inland Empire. They could not be more wrong. As a resident from this area, I assure you that the needs of the residents from these communities better align with those in Redlands, Loma Linda, and cities west opposed to cities east. Citizens from this area do not travel east for shopping and recreation but West into the Inland Empire. The people of Yucaipa, Calimesa, Beaumont, and Banning will be severely misrepresented and their concerns will not be met as adequately as they should be if they were in a district that was truly common in regional interest.

The map that requires the heaviest amount of scrutiny is the Congressional map. The reasoning behind carving these communities from the rest of the Inland Empire and lumping them with the High Desert is absolutely baffling.

1 COMMISSIONER BLANCO: I see a VAP of 17.75
2 percent Latino.

3 COMMISSIONER FILKINS WEBBER: Correct. The
4 benchmark was 11.72. The proposed district is 17.72.
5 The issues arises with the Black VAP. The Black VAP
6 benchmark is 2.16, and the proposed district is 1.46.
7 So this is where we have a slight retrogression on the
8 Black VAP. Our attorneys are recommending that we take
9 a look at modifying it to make the Black VAP
10 nonretrogressive.

11 Asian VAP is 3.37 for the benchmark. The
12 proposed is 5.50. So based on advice of counsel, I
13 would recommend that we instruct Q2 to take another
14 look at the Yuba Assembly district in order to increase
15 the Black VAP. To the extent which they cannot do so,
16 to provide us written explanation regarding why they
17 cannot reach the benchmark for the Black VAP.

18 Any other suggestions or comments for Q2 for
19 the Yuba County Assembly district? And no objections
20 to my instruction -- recommended instruction? Thank
21 you.

22 Move on to the Senate district, the Latino
23 benchmark is 13.41. The proposed district is at 14.40
24 with no retrogression. The Black VAP is 1.48. The
25 benchmark, the proposed is 1.66. So no retrogression.

Dear Commission:

I am writing to express my concern over the separation of Pasadena and Altadena in the redistricting of Assembly districts. Altadena is an unincorporated area north of Pasadena that is very closely tied to Pasadena; in fact they are part of the same school district. Altadena is also joined to Pasadena commercially and culturally.

I know this circumstance intimately since I was an Assemblymember of the 44th District (1996-2000) and a Senator of the 21st District (2000-2008). In all that time Pasadena and Altadena were part of the same district. Furthermore, I have been a resident of Altadena for over twenty years.

I would deeply appreciate your correcting this matter in the final drawing of district lines.

Sincerely,

Jack Scott, Ph.D.
Chancellor

AMENDED AND CORRECTED

Re: Public Comment for public meeting on Re-Districting held in Whittier June 17, 2011

Ladies and Gentlemen:

This letter was originally submitted to you with speaker card #128 on June 17, 2011 however that evening I addressed you as speaker #66. Following the hearing, I noticed an error in my letter under solution (C), which I have corrected herein and noted by italicizing the correction.

Thank you for the opportunity to present views on the impact of the recently announced tentative district boundaries on the City of Pasadena.

I am a City Council Member and Vice Mayor of Pasadena. Each of Pasadena's seven Council Districts contains about 20,000 residents, represents a distinct part of Pasadena, and is designed to include whole neighborhoods, preserve the Voting Rights Act and include a portion of our historic Colorado Boulevard, which lies south of the 210 freeway. Five of our seven Council Districts include areas north and south of the 210 freeway in order to include portions of Colorado Boulevard, the heart of our City. Pasadena thinks and acts as one community. The proposed map threatens to unnaturally break up our city into two Congressional Districts.

By way of background, when the 210 freeway was constructed in the 1970's, it destroyed neighborhoods and created a deep gash in our community, dividing the City and separating neighborhoods. One reason our Council Districts are so designed is to knit together the fabric of the community torn by the freeway. A further separation of the City into separate congressional districts by using the 210 freeway as a dividing line would undo decades of work we've done to restore ourselves as one community, one Pasadena.

As presently drafted, the tentative boundaries divide the City of Pasadena in the Congressional map between two districts. Preserving Pasadena whole would improve the map, and would be beneficial for the City, its residents, and many important institutions, such as Caltech and the Jet Propulsion Laboratory.

_____, Pasadena, CA 91109

Citizens Redistricting Commission
June 20, 2011
Page Two

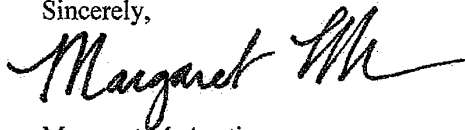

A proposed solution would be as follows:

- (A) Move the southern portion of Pasadena from the East San Gabriel Valley-Diamond Bar district into the San Gabriel Mountains Foothill district to make it whole.
- (B) Move most of Upland from the San Gabriel Mountains Foothill district into the Ontario district.
- (C) Move the southeastern portion of Chino Hills from the Ontario district into the East San Gabriel Valley-Diamond Bar district.*

These adjustments keep Pasadena together; keep the San Gabriel Mountains Foothill district within Los Angeles County, instead of reaching into San Bernardino County; restore a community of interest in the East San Gabriel Valley-Diamond Bar district by uniting the city of Chino Hills; and preserve the Voting Rights Act status of the Ontario district.

Thank you for the opportunity to present my views of the best interests of the City of Pasadena and its neighborhoods. Please feel free to contact me directly at [REDACTED] or [REDACTED] should you have any questions.

Sincerely,

Margaret McAustin
Vice Mayor

Maps that splits the cities of Oxnard and Ventura

Subject: Maps that splits the cities of Oxnard and Ventura

From: Johnny Garcia Vasquez <[REDACTED]>

Date: Wed, 22 Jun 2011 16:40:33 -0700

To: [REDACTED]

Dear Commissioners,

I am writing today as a long time resident of Oxnard and as a past Student Government President of Oxnard College to strongly urge you to reconsider your east Ventura assembly map and your west Ventura assembly map that splits the cities of Oxnard and Ventura. I suggest a district composed of keeping Oxnard whole in one assembly district. While also ensuring that Oxnard and Ventura colleges are in the same assembly district as they share similar challenges and draw from the same student population.

Splitting them into two legislative districts will diverge student advocacy efforts and will only amount to the ongoing marginalization of these students, their families, and their communities.

Furthermore, a united district would give the local assembly representative a stronger voice on behalf of students since Ventura and Oxnard colleges will be in one district and not split in separate assembly districts. Therefore, there will be more accountability from students that will translate to more accountability from their families and their communities.

Thank you for your time and I urge you to keep Oxnard whole in one assembly district, while also ensuring that Oxnard and Ventura colleges are in the same assembly district.

--

Re: Communities of Interest for Oxnard, Ventura and the Santa Clara Valley

Dear Commissioners,

I am a recently elected Oxnard City Council Member, as of November 2010. I write this letter on behalf of myself and not on behalf of the City of Oxnard or my fellow council members.

I have lived and worked in the City of Oxnard for since 1978, more than 30 years. I have been a practicing attorney for 35 years on behalf of low income and immigrant people in this community, including farm workers, disabled adults and children and working poor families, among others . From 2005 through 2007, I represented the attorneys of Santa Barbara, Ventura, and San Luis Obispo as the elected member of the Board of Governors of the State Bar of California. I am currently a member of the St. John's Regional Hospital Community Board of Directors, the Ventura County Community Foundation and the Center for Civic Education, a national organization dedicated to teaching young people in our country and around the world about the rule of law and the practice of democracy.

Oxnard is a predominantly Hispanic community as is the Santa Clara Valley, where agriculture and the jobs it requires are critical to the economy. We have a coastline and have a number of issues, such as the existence of environmental pollution at the Halaco Superfund site, the low level of educational attainment, and a major housing crisis, lack of affordable housing and a high number of families affected by the foreclosure crisis and the predatory lending schemes with subprime loans.

Ventura, Oxnard and the Santa Clara Valley, share the Santa Clara River, which provides some of the water our homes, agriculture and industry, as well as has potential problems with the adequacy of its levy along the riverbanks.

The City of Oxnard is a geographic neighbor to Naval Base Ventura County, Point Mugu Naval Air

Station as well as the Naval Construction Battalion based in Port Hueneme. As the largest city neighboring Naval Base Ventura County it is important that the City of Oxnard be in the same Assembly, Senate and Congressional districts with our neighboring City of Port Hueneme

Letter to Redistricting Commission

June 22, 2011

Page two

that also includes Naval Base Ventura County. In addition, the City of Oxnard is part of the Oxnard Harbor District that also includes the City of Port Hueneme.

Given these important community of interest relationships with West Ventura County, I strongly support the Commission's first draft maps for the Senate and Congressional Districts. The Senate and Congressional districts take into account Oxnard's communities of interest in that they:

- 1) do not split the City of Oxnard;
- 2) include the City of Oxnard with the similar West Ventura County communities of interest including Port Hueneme, Ventura and the Santa Clara Valley; and
- 3) keep Oxnard in Ventura County based districts

Based on these same points of communities of interest, I recommend a revision to the Assembly District that splits the City of Oxnard and includes the City of Oxnard with East Ventura County. The best community of interest Assembly District includes the cities of Oxnard, Port Hueneme, Ventura and the Santa Clara Valley.

If this ideal Assembly District is not possible, the next best alternative is an Assembly District that does not split any cities and includes all of the cities of Oxnard, Port Hueneme, Camarillo and Thousand Oaks. Along with my written testimony, I am providing the Commission with a map of this better Assembly District. You will see that this improved Assembly District recommendation is possible with only minor changes to the immediate proposed neighboring districts.

In summary, the Commission's first draft Congressional and Senate districts respect the City of Oxnard communities of interest and it is only necessary to make minor revisions to the Assembly Districts so that the City of Oxnard is not split and is included with the most similar communities of interest that include at the very least the unincorporated areas of El Rio and Nyeland Acres and the City of Port Hueneme. Ideally, the City of Oxnard would be in an assembly district with West Ventura County. Thank you for your attention to these serious issues.

Sincerely,

M. Carmen Ramirez
Council Member
City of Oxnard

06.28.11.Z

June 23, 2011

California Citizens Redistricting Commission
901 P Street, Suite 154-A
Sacramento, CA 95814
Fax: (916) 651-5711

To: Members of the California Citizens Redistricting Commission

I have been a resident of Davis for 39 years. A significant reason for locating here was because I appreciated the way agricultural and ecological/environmental issues were addressed by Yolo County. Time living here has emphasized that this is a community of small cities that cooperate and collaborate to support and promote these shared interests and values. What you have done with the redistricting of the area shreds the very fabric of those interests and will make it extremely difficult, if not impossible, to extend the culture and commonalities that Yolo County has cultivated and is known for.

The fact that people live in Yolo County, but may work in Sacramento does not make a tie-that-binds. Anyone truly interested in urban living (like Sacramento offers), would live there --- since housing and other amenities are known to be cheaper there. Our major economic interests center on UCD, the many Ag related businesses and small owner-operated businesses in the County. This combination propels the school and education issues here and the land use/growth decisions here. We have taxed ourselves in order to keep those decisions consistent with our shared vision of this County. Without stooping to conspiracy theories, why would you break up an area that is working well?

The plan you propose divides Davis and Woodland (11 miles apart), so they would have no common representative for any State or Congressional office. Yet you jump two counties away to put Woodland with Lodi; how does that make sense! Your current plan would have nine people representing bits and pieces of Yolo County. With no unifying voice, our interests will be lost and parts of our County, drawn different directions, will be subsumed and paired with ill matched communities.

INTELLE QUEST INVESTIGATIONS

• Davis, CA 95617-1996 •

It is my understanding that you are to look at more than just population numbers in deciding what areas have a "fit" that will serve the purposes of redistricting. How can you not consider the strong cohesiveness that has bound Yolo County together since the 1800's? This County has made no pretense of wanting to be "urban," rather, it has cherished open space and preservation of habitat.

Changing a district, just because you can does not mean it is an improvement. Use more natural boundaries and allow the social affinities to remain intact.

Another major concern is the discrimination that only Yolo County has endured in the last three census changes. We have been alternately assigned as a Senate District to odd and even numbers. This has disadvantaged us consistently for voting for our next Senator on a normal election cycle. This is unreasonable. Please keep us on the "odd" year schedule.

Where is the "transparency" in how you arrived at the decision to carve up our County? It appears that you were dismissive of our obvious commonalities and community of interest.

I am a small business owner. I have invested in Yolo County and the community of Davis because it has provided support for the ideas and values that are meaningful to me. Your current plan will divide like minded people and dilute their opportunity to continue to act cooperatively to preserve the rural flavor of the County and to act on the collaborative model which has developed to the betterment of the whole County.

Thank you for considering my views and interest in this most important matter. What you do will not only affect the next ten years, it may forever alter, to negative effect, the unique qualities of this area. We are currently well served in our Assembly, Senate and Congressional representation. Please do not break us apart and leave us underserved by all these divisions.

Sincerely,

A handwritten signature in cursive script that reads "Barbara R. Burr".

RE: Concerns Regarding Commission's Application of
Sections 2 and 5 of Federal Voting Rights Act

Dear Members of the California Citizens Redistricting Commission:

On behalf of the African American Redistricting Collaborative (AARC), the Asian Pacific American Legal Center (APALC), the Central Coast Alliance United for a Sustainable Economy (CAUSE), the League of Women Voters of California (LWVC), the Mexican American Legal Defense and Educational Fund (MALDEF), and the National Association of Latino Elected and Appointed Officials (NALEO) Educational Fund, we write to convey concerns about the manner in which the Commission is considering the requirements of Sections 2 and 5 of the Voting Rights Act and to provide suggestions for how the Commission can address these concerns.

We first want to express our gratitude for your clearly demonstrated commitment to serving the people of California and carrying out your responsibilities under the Voters First Act in a serious and thoughtful manner. You and your staff have worked tirelessly to give members of the public opportunities to provide input about redistricting. We truly appreciate your efforts.

We also offer our congratulations on the release of your first draft maps. This is a significant accomplishment by the Commission and represents the culmination of a careful process of gathering and considering public input.

Now that the first stage of the line-drawing process is complete, we urge you to take a fresh look at what district configurations may be required to be drawn under the Voting Rights Act (VRA). We are encouraged that you are planning to conduct racially polarized voting analysis in several areas of the state. However, we are concerned that your analysis of Section 2 compliance will be incomplete because you have not yet given consideration to the full range of districts that can be drawn to satisfy the first prong of *Thornburg v. Gingles*, 478 U.S. 30 (1986). To help strengthen the Commission's ability to carry out a thorough and complete VRA assessment, we offer the following guidance on Section 2 analysis.

1. The Commission should not take an unnecessarily narrow view of the geographical compactness requirement in the first *Gingles* precondition.

Our first concern pertains to the Commission's treatment of the geographical compactness requirement in *Gingles*'s first precondition. *Gingles* outlines three preconditions for stating a claim that a redistricting plan has the effect of diluting minority voting strength in contravention of Section 2. The first precondition which must be met is that, "the minority group must be able to demonstrate that it is sufficiently large and geographically compact to constitute a majority in

a single-member district.”¹ The geographical compactness requirement in the first *Gingles* precondition is different from and serves a different purpose than the concept of the overall compactness of a district.²

In several regions of the state, minority populations are sufficiently large that they can make up 50% of the citizen voting-age population (CVAP) of a hypothetical district. However, in several such areas, the Commission’s June 10 draft maps draw districts in which the minority population’s share of CVAP is less than 50%. With respect to certain of the minority 50% CVAP districts that are not drawn in the Commission’s draft maps, it appears that the Commission was advised by its counsel that Section 2 does not require the drawing of such districts based on the predicate that the minority population is not geographically compact in the *Gingles* sense. This conclusion that the minority populations in these areas are noncompact reflects what appears to be an unnecessarily narrow understanding of Section 2 compactness that courts have avoided taking.³

For example, we note that a Santa Ana assembly district can be drawn to include Latinos in Anaheim so that the district has a Latino CVAP of over 50%. We understand that the Commission’s counsel has raised questions about whether Latinos in Anaheim and Santa Ana are a geographically compact population, even though they are separated only by Disneyland. We further understand that due to these concerns about noncompactness, the Commission’s June 10 draft contains an assembly district which includes Santa Ana and Orange, but not Anaheim, and that this district has a Latino CVAP which approaches but does not reach 50% (SNANA, at 46.5% Latino CVAP).

We find instructive the U.S. Supreme Court’s decision in *League of United Latin American Citizens v. Perry*, 548 U.S. 399 (2006) (“*LULAC*”) and note that a district including Latino populations in Santa Ana and Anaheim would be a far cry from the district that the Court deemed to be geographically noncompact in *LULAC*. In *LULAC*, the Court found that Congressional District 25, which the State of Texas drew as a purported Section 2 district, failed to meet the first *Gingles* prong because the district contained two Latino populations, one in Austin and the other by the Rio Grande, that together could not be considered geographically compact. In reaching its finding that the Latino population in District 25 was noncompact, the Court took note of both the fact that Latinos in Austin were separated by 300 miles from Latinos

¹ *Gingles* at 50.

² See *Bush v. Vera*, 517 U.S. 952, 997 (1996) (“The first *Gingles* condition refers to the compactness of the minority population, not to the compactness of the contested district.”).

³ See, e.g., *Sanchez v. Colorado*, 97 F.3d 1303, 1311 (10th Cir. 1996) (“Because *Gingles* advances a functional evaluation of whether the minority population is large enough to form a district in the first instance, the Circuits have been flexible in assessing the showing made for this precondition. ‘The first *Gingles* precondition does not require some aesthetic ideal of compactness, but simply that the black population be sufficiently compact to constitute a majority in a single-member district. Moreover, plaintiffs’ proposed district is not cast in stone. It was simply presented to demonstrate that a majority-black district is feasible.... If a § 2 violation is found, the county will be given the first opportunity to develop a remedial plan.’”) (citing *Clark v. Calhoun County, Miss.*, 21 F.3d 92, 95 (5th Cir. 1994) (internal citations omitted)).

near the Rio Grande, and also the fact that Latinos in Austin had disparate needs and interests compared with Latinos near the Rio Grande:

We also accept that in some cases members of a racial group in different areas—for example, rural and urban communities—could share similar interests and therefore form a compact district if the areas are in reasonably close proximity... We emphasize it is the enormous geographical distance separating the Austin and Mexican-border communities, coupled with the disparate needs and interests of these populations—*not either factor alone*—that renders District 25 noncompact for § 2 purposes.⁴

The Court's pronouncement in *LULAC* has two implications. First, it is clear that geographical compactness in the *Gingles* sense does not mean contiguity.⁵ Two minority communities may be separated geographically but still form a geographically compact population in satisfaction of the first *Gingles* precondition. Second, the geographical compactness inquiry under *Gingles* looks at both geographical distance and also the needs and interests of populations, and where minority populations are separated by distance or disparate needs and interests, neither factor alone necessarily leads to a finding of noncompactness in the *Gingles* sense. Taking into account these implications, and in comparison to the Congressional District 25 drawn by the State of Texas, an assembly district containing Latino populations in Santa Ana and Anaheim raises no concerns about *Gingles* compactness.

We understand that there are other areas of the state where *Gingles* compactness issues have been raised by counsel. We urge the Commission to avoid taking an unnecessarily narrow view of *Gingles* compactness because as the example above illustrates, taking such a view could result in the Commission overlooking 50% minority districts that may be required under Section 2. Importantly, districts drawn by states to comply with Section 2 have rarely been found to be noncompact in the *Gingles* sense. See *LULAC* at 505 (opinion of Roberts, C.J., dissenting from finding of noncompactness) (“Until today, no court has ever suggested that lack of compactness under § 2 might invalidate a district that a State has chosen to create in the first instance.”). We suggest that the Commission be cautious of an unwarranted narrow view of *Gingles* compactness that precludes consideration of 50% minority districts which may potentially be required by Section 2.

2. The Commission should not invert the priority of redistricting criteria; elevating the importance of lower-ranked criteria may preclude the Commission from considering certain districts that are potentially required by Section 2.

Our second concern is that while the Commission has devoted ample attention to the geographic integrity of cities, counties, communities of interest and neighborhoods, as well as compactness, it has done so at the cost of considering several 50% minority districts that may be required by

⁴ *LULAC* at 435 (citations omitted; emphasis added).

⁵ We note that at times, the Commission's counsel incorrectly articulated that Section 2 requires population contiguity. See transcript of Commission's June 2, 2011 business meeting, vol. 2 of 2, pages 268-269, http://wedrawthelines.ca.gov/downloads/transcripts/201106/transcripts_20110602_sacto_vol2.pdf.

Section 2. For example, we understand that the Commission has decided to treat the boundary between Riverside and Imperial counties as a “hard line” not to be crossed, based on testimony received during public hearings. It appears that because the Riverside-Imperial county line was treated as a non-negotiable boundary never to be crossed, the Commission did not even consider the possibility of drawing an assembly district consisting of Imperial County and the Coachella Valley area of Riverside County, even though Latinos could make up over 50% of such a district’s CVAP. Instead, the Commission’s June 10 draft contains an Imperial County assembly district that has a Latino CVAP of 29.5% (ISAND). Consideration of county boundaries has improperly trumped consideration of a district potentially required by the VRA.

Additionally, we understand that the Commission has received advice from counsel stating that if it simply follows traditional redistricting criteria in certain areas of the state with large Latino populations, such as Los Angeles County, the result will be to draw a sufficient number of Latino opportunity districts under Section 2 and absolve the Commission of any Section 2 liability.⁶ Following this advice would invert the Voters First Act’s criteria, which prioritizes Voting Rights Act compliance over all other redistricting criteria except population equality. Following this advice would also disregard the supremacy of federal law, which would require the Commission to prioritize Voting Rights Act compliance over state constitutional criteria even if the Voters First Act did not explicitly require such prioritization.

The Commission’s Assembly, Senate and Congressional draft plans reflect this inversion of lower-ranked criteria over Voting Rights Act compliance. The number of 50% Latino CVAP districts in the draft plans compares unfavorably with the number of existing 50% Latino CVAP districts in light of the fact that Latinos make up 90% of the state’s net population growth since 2000. Specifically, nine current Assembly districts have at least 50% Latino CVAP, compared to 10 in the Commission’s draft. Five Senate districts have at least 50% Latino CVAP, compared to four in the Commission’s draft. Seven Congressional districts have at least 50% Latino CVAP, compared to the same number in the Commission’s draft. In short, the Commission’s drafts draw the same number of 50% Latino CVAP districts that currently exist even though the substantial growth of the Latino population since 2000 suggests that a greater number of such districts can be drawn, and even though mapping proposals submitted by the public illustrate how to draw a greater number of such districts.

We also suggest that while the Commission arguably has no duty to maximize the number of 50% minority districts in its plans,⁷ the Commission should consider its plans from a risk aversion perspective, meaning that a failure to draw a number of minority opportunity districts that is roughly proportional to the minority share of the population deprives the Commission of a potential defense to Section 2 liability. Whether the number of opportunity districts is roughly proportional to the minority share of the population can be a relevant factor in the totality of the

⁶ See transcript of Commission’s June 2, 2011 business meeting, vol. 2 of 2, pages 207-208, 212-213, http://wedrawthelines.ca.gov/downloads/transcripts/201106/transcripts_20110602_sacto_vol2.pdf; see also transcript of Commission’s June 7, 2011 business meeting, vol. 1 of 3, page 120, http://wedrawthelines.ca.gov/downloads/transcripts/201106/transcripts_20110607_sacto_vol1.pdf.

⁷ See *Johnson v. De Grandy*, 512 U.S. 997, 1016-1017 (1994).

circumstances inquiry under Section 2 that follows after a plaintiff has met the three *Gingles* preconditions.⁸

Although a state can not rely on proportionality as a safe harbor under Section 2,⁹ proportionality can in some instances preclude a finding of liability even where the plaintiff has met the three *Gingles* preconditions.¹⁰ For the Commission's purposes, Latinos make up 23.3% of the state's total CVAP, which is equivalent to 18 assembly districts, nine senate districts and 12 congressional districts, and make up a higher percentage of CVAP in certain areas of the state, for example 32.7% of CVAP in Los Angeles County. On a statewide basis, the number of 50% Latino CVAP districts in the Commission's draft plans – 10 assembly, four senate, seven congressional – cannot be considered roughly proportional. Unless the Commission increases the number of Section 2 Latino opportunity districts in its plans, it will be unable to avail itself of using proportionality in the totality of the circumstances inquiry, in the event a plaintiff bringing a statewide claim for vote dilution makes a showing that the three *Gingles* preconditions have been met.

To address the concern that inversion of redistricting criteria has led to an insufficient number of minority opportunity districts being drawn in the Commission's June 10 draft maps, we urge the Commission to more consciously and intentionally examine what districts need to be drawn under Section 2. We suggest that the Commission first identify the full range of 50% minority districts that can be drawn. The Commission may of course conduct racially polarized voting analysis to determine whether such districts are in fact required by Section 2, but without first identifying the full range of 50% minority districts that can be drawn, the Commission cannot assure itself that it has conducted a thorough and complete analysis of its VRA obligations.¹¹ A good starting point in identifying 50% minority districts potentially required under Section 2 would be to examine 50% minority districts drawn in various mapping submissions submitted by civil rights organizations as potential Section 2 districts.

3. The Commission should focus its retrogression analysis under Section 5 on the ability of minority voters to elect their preferred candidates of choice.

In addition to the Section 2 guidance provided above, we offer some thoughts to help inform the Commission's Section 5 analysis. We understand that the Commission's counsel has raised

⁸ Id. at 1012-1016.

⁹ Id. at 1017-1020.

¹⁰ Id. at 1012-1016.

¹¹ We note here that the drawing of 50% African American CVAP districts in South Los Angeles would neither be appropriate from a community empowerment perspective nor warranted under Section 2, given that African American populations in South Los Angeles have demonstrated an ability to elect preferred candidates in districts where they comprise less than 50% of the district's CVAP. Two of the signatories to this letter, the African American Redistricting Collaborative (AARC) and the Asian Pacific American Legal Center (APALC), further contend that the demonstrated ability of African Americans in South Angeles to elect preferred candidates in districts where they comprise less than a majority of the district should be considered in the totality of the circumstances under Section 2, and that the consolidation of such effective opportunity districts into a few African American-majority districts may raise difficult Section 2 problems concerning racial vote dilution.

questions whether Section 5 requires the addition of a “Stockton finger” to the Commission’s draft assembly district for Merced County (MRCED), similar to the “Stockton finger” drawn in current Assembly District 17. We understand that this question was triggered by the fact that Asian American population in the draft MRCED district is smaller than in the benchmark Assembly District 17. We note that Asian Americans make 5.9% of CVAP in the draft MRCED district and 9.7% of CVAP in the benchmark Assembly District 17.

In carrying out our own retrogression analysis, we found instructive the U.S. Department of Justice’s *Guidance Concerning Redistricting Under Section 5 of the Voting Rights Act* (Federal Register, Vol. 76, No. 27, February 9, 2011), which indicates that in the redistricting context, the retrogression inquiry should focus on the ability of minority voters to elect their preferred candidates of choice:

A proposed plan is retrogressive under Section 5 if its net effect would be to reduce minority voters’ “effective exercise of the electoral franchise” when compared to the benchmark plan. *Beer v. United States* at 141. In 2006, Congress clarified that this means the jurisdiction must establish that its proposed redistricting plan will not have the effect of “diminishing the ability of any citizens of the United States” because of race, color, or membership in a language minority group defined in the Act, “to elect their preferred candidate of choice.” 42 U.S.C. 1973c(b) & (d). In analyzing redistricting plans, the Department will follow the congressional directive of ensuring that the ability of such citizens to elect their preferred candidates of choice is protected. That ability to elect either exists or it does not in any particular circumstance.¹²

Given the demographics of the population in Merced County, where Latinos make up 37% of the county’s CVAP and 55% of total population and Asian Americans make up 6% of CVAP and 7% of total population, we believe that the retrogression analysis for Merced County properly focuses not on whether the ability of Asian American voters to elect their preferred candidates would be retrogressed in the Commission’s draft MRCED district, but on whether the ability of Latino voters to elect their preferred candidates would be retrogressed.

We understand that the Commission intends to gather input from Asian American communities in Merced and San Joaquin counties. This input will be important and helpful to the Commission’s ability to consider the interests of Asian American community members in these counties for communities of interest purposes, but as noted above, for Section 5 purposes, the demographics of Merced County point to the retrogression analysis focusing on the ability of Latino voters to elect candidates of choice.

* * * * *

We hope the guidance contained in this letter helps inform your VRA analysis. We also ask that the Commission address the concerns raised in this letter in a future business meeting. Please

Hello,

I think you've worked really hard. There is no way to please everyone and what we don't get we'll just have to get over.

I live in Morongo Valley. The San Bernardino, Mono, Inyo territory leaves us with the same problem we had before. Too large, too diverse an area, and not sharing common interests. Certainly excluding the territories to the West of Yucaipa made sense, although we don't really share much with Yucaipa either. My idea would be to push the Inyo and Mono Counties into a further North Congressional District. The San Bernardino County, including Mountains and Morongo Basin part might better include areas to the south to include places like Desert Hot Springs, Palm Spring, Cathedral City Palm Desert etc. That the remainder of the Coachella Valley is more cohesive with the areas of Imperial County. In my mind it has to do with areas we frequent and know. I've only driven through Mono and Inyo Counties out of necessity to return home from areas further North. We share little in common.

My concern is the same for the State Senate District. How 29 Palms and Rancho Cucamongo end up in the same district is troubling. Again, our interests and concerns have always been ignored by those to the West. They do not see the high desert as important. Again, high desert areas are more closely linked with the mountain regional and the low desert areas. It just feels like we will again be the foster children of the Western regions as currently proposed.

The Assembly District seems a bit more cohesive, although, Hemet and 29 Palms through Morongo Valley region share little in common.

Thanks for your consideration. It would be so terrific if we could have representatives who actually understand our concerns. With Jerry Lewis as our Congressman, we have always been....them. Redlands has always been his interest and there again we share little in common.

All the same, congratulations, and I'm sure you'll do the best job as you see appropriate.

Sincerely,
Donald J. Krouse

URGENT APPEAL

Citizens Redistricting Commission
1130 K Street – Suite 101
Sacramento, Ca. 95814

RE: YOUR PROPOSED CONGRESSIONAL REDISTRICT MAP – COACHELLA VALLEY

Dear Commissioners:

I am writing to appeal your proposed Congressional redistricting map for the Coachella Valley. I am writing in total dismay and disappointment in what you have proposed. I am urging you to re-consider.

I wrote to you earlier this summer prior to the release of your proposed draft map as a local, long-time resident of the Coachella Valley and as a concerned, well-educated Mexican-American (degree from University of Southern California and a master's degree from San Jose State University). As a child I worked in the fields in the Coachella Valley and Imperial County, and I am concerned about the large Spanish speaking populations that would be disenfranchised if Imperial County is not part of the Coachella Valley district. I am particularly concerned because the communities in Imperial County have more in common with cities in the Coachella Valley (such as Indio, Coachella, Mecca, etc.) and yet the commission is proposing a district that does not include Imperial County like-kind communities but includes retirement communities of Hemet and San Jacinto which have almost nothing in common with Coachella Valley!

I am proposing that you re-map the Congressional district this way:

New Congressional district:

Morongo and Desert Hot Springs
All Coachella Valley cities and the rest of Riverside County out to Blythe
Imperial County

Discard from your proposed district:

Beaumont pass cities of Banning, Beaumont, Calimesa
Hemet
San Jacinto

Here are SIX major reasons to consider:

JOBBS: Jobs in the Coachella Valley cities and Imperial County are much more aligned due to agriculture, the newly developing and possibly huge job markets in SOLAR energy, transportation, tourism, and communities of interest for farm workers, medical professionals and others that would link the two regions. I am especially concerned about Latino citizens in these common communities of interest and how they would be served and engaged if combined. It simply makes no sense, when considering the Voting Rights Act, to include Hemet and not include the large populations of Spanish speaking residents of Imperial County with those Spanish speaking communities of east and south Coachella Valley.

SALTON SEA: In your proposed map, this hugely problematic area needs the attention of one representative, not two as you have proposed! The Salton Sea can be addressed once and for all with a much-needed cohesive Congressional representation. The Salton Sea communities in Imperial County and the cities in south and east Coachella Valley especially share common problems regarding air quality, wildlife and fish preservation and concerns, community development around the Salton Sea area and the mere survival of the Salton Sea. The Salton Sea area should be represented in Congress in ONE and the SAME district. The communities of Hemet, San Jacinto, the Banning pass and communities in San Diego have little or no interest in the Salton Sea!

SHOPPING AND COMMERCE: Imperial County residents tend to shop and do business much more in the Coachella Valley cities. Residents in Imperial do not travel over a mountain range with limited accessibility to San Diego County to conduct business and shop.

TRANSPORTATION: Imperial County residents use the Palm Springs International Airport in the Coachella Valley much more often they would by traveling to the San Diego airport. Residents in Hemet and San Jacinto use the Ontario airport! Proposed much needed improvements in rail and bus service are more common in Coachella and Imperial than in Hemet! And, the trucking industry—linking agriculture, highway access and commerce—obviously is more common between Coachella and Imperial—not Hemet!

MEDIA AND INFORMATION: A combined district of Coachella and Imperial would be a much more effective district to get radio, newsprint and other media attention in order to engage communities and get out vital information. Hemet/San Jacinto folks do not read the same newspapers or watch the same news programs/stations or listen to the same radio outlets as those in Coachella and Imperial. The markets simply are totally different. This is extremely important when encouraging citizens to be engaged and informed about civic, educational, political and other regional concerns and needs.

PUBLIC SAFETY AND EMERGENCY PREPAREDNESS: It should be totally obvious that Coachella Valley and Imperial County regions share common public safety concerns and needs than do residents of Hemet/San Jacinto. When considering emergency preparedness (earthquake, fires, etc.), communities in the Coachella Valley and Imperial County share certain and immediate

concerns which could save lives and property. Again, Hemet/San Jacinto residents do not have the same concerns!

In summary, what you are proposing does NOT properly reflect communities of interest and your proposed district certainly does not address concerns and engagement of Spanish speaking communities apart from the Hemet/San Jacinto areas. The sizable populations of Spanish speaking communities of south and east Coachella Valley mirror those of the Spanish speaking communities in Imperial County!

Please re-consider your proposed Congressional map. Please combine Coachella Valley cities and all of Imperial County into one cohesive district that would much better reflect what our communities of interest share.

Sincerely,

George Garcia

Subject: Fw: Redistricting

From: "Avery Willis" <[REDACTED]>

Date: 6/27/2011 7:51 PM

To: <[REDACTED]>

It is very clear why politicians redistrict. They do it for political power, not for the benefit of the people in the district. The interests of the people in Ventura County are not tied to the interests of people in Los Angeles County. In fact, many of us moved to Ventura County to get away from L.A. county. We wanted better schools, safer neighborhoods, cleaner cities, and parks. Both Simi Valley and Moorpark are very much like Thousand Oaks and Newberry Park with excellent schools and good family living. The water, transportation, and economic development of these cities are all tied to Ventura County, which are very different than the major concerns of people living in Los Angeles County. The bottom line is, let Simi Valley and Moorpark vote with their county.

Subject: Redistricting Commission's Erroneous Plan

From: Bob Guhl <[REDACTED]>

Date: 6/27/2011 2:02 PM

To: [REDACTED]

As a 25 year resident of Moorpark, and a registered and active voter, I am appalled at the thought of becoming lumped into a district which includes a portion of Los Angeles County that has no logical, governmental or infrastructure relationship to Moorpark and Simi Valley.

Our representational needs will not be well served by this blatant attempt at gerrymandering. Our community goals and aspirations are not remotely congruent across the proposed redistricting plan; which, it seems to me, would make it nearly impossible for our representative to be effective in serving anyone's interest under the proposed plan.

We are tied into Ventura County by many threads, such as a common physical infrastructure, common governmental bodies and well-integrated agricultural communities. We, therefore, deserve to be represented as an integrated and coherent district.

Letter to the Redistricting Commission

Subject: Letter to the Redistricting Commission

From: "Dean Kunicki" <[REDACTED]>

Date: 6/27/2011 5:02 PM

To: <[REDACTED]>

Commissioners,

My name is Dean Kunicki, and I am a longtime resident of Simi Valley. I am also a member of the Ventura County Board of Education representing Simi Valley and Moorpark. I spoke to you in Oxnard and want to follow up on my comments;

Please keep Simi Valley whole. Do not split Wood Ranch. You have already split other communities in the district, consider splitting them further and keeping us whole since they are already split.

In our Congressional seat, keep us with Ventura County. Ventura should be connected to Santa Barbara. This is consistent with your assembly lines, and also with testimony you have received as far back as the San Luis Obispo hearing. Keep that coastal city with other coastal cities and keep our inland valley with the other inland valleys in our County.

Finally, and most importantly, please nest our assembly district with a Senate district in Santa Clarita. Thousand Oaks has more in common with other inland areas than coastal areas. Keep our inland suburban communities together.

Thank you.

Dean Kunicki

TAB 90

[REDACTED]

Subject: Eastvent Congressional District

From: "Greg" [REDACTED]

Date: 6/27/2011 3:28 PM

To: [REDACTED]

To the Redistricting Commission;

I find it surprising and disappointing that at the last moment, Simi Valley and Moorpark are separated from the bulk of Ventura County for the Congressional District. The concept of moving Thousand Oaks into the Eastvent Congressional District was a nice gesture, but adding part of Los Angeles County unnecessarily violated the County lines criteria and is inconsistent with the goals of the Commission. Moreover, contiguous is not simply lines on a map. It should follow traffic routes. There is no direct access from Simi Valley to the Santa Clarita area. The freeway route is through two other districts! This clearly approach violates the idea of compact districts.

Despite some of the testimony given, Simi Valley is as much an integral part of Ventura County as Oxnard and they share much in common. Like Simi Valley, Oxnard gets its water from the Calleguas Municipal Water District, and both city's council members sit on such boards and agencies as the Association of Water Agencies of Ventura County; the Ventura Council of Governments, the Ventura County Transportation Commission, and the Economic Development Collaborative of Ventura County.

I understand that Ventura county is too large for one congressional district. It would appear that Simi Valley and Moorpark were chosen at the last minute to be moved, and plopped into a district only connected through impassable mountains. That is not the idea of compact areas of interest. When the 160,000 Simi Valley and Moorpark residents were removed from the Ventura County district, the commissioners then had to put Los Angeles County residents back in to make up the difference. They reached to pick up the cities of Westlake Village, Agoura Hills and Malibu. The residents of Malibu have made it clear they do not believe their interests will be served as part of a Ventura County district. The net effect of the current lines is to violate the interests of about 210,000 people. Your solution made lots of people unhappy.

So how to fix it? First option is to go back to the last staff proposal. At least that respected our road system. Or, to compensate for Simi Valley and Moorpark being put back into the Ventura district, move the LA County parts of the current proposal to the West San Fernando Valley and the north of the San Fernando Valley up to Santa Clarita. If you need more Ventura County to be moved to Santa Clarita, take the 126 corridor. At least they have a direct road access.

If Ventura County must be split, it should be split on its traditional East/West lines. A good solution is to add the eastern Ventura county (Conejo Valley, Simi Valley and Moorpark) to part of the west San Fernando Valley district. This is somewhat similar to the VICA submitted map, but with all of eastern Ventura county in the district and thus less of the San Fernando Valley. It keeps Calabasas with its sister cities on the 101. Desoto or Tampa looks like a good line. Move the North San Fernando Valley above the 118 up to Santa Clarita. Combine the rest into the East San Fernando. Then fill in the Ventura District with parts N. LA county from around the 126/5 interchange.

Subject: FW: Redistricting-removing Simi Valley/Moorpark from Ventura County representation

From: Jill Myers <[REDACTED]>

Date: 6/27/2011 5:01 PM

To: <[REDACTED]>

From: [REDACTED]

To: [REDACTED]

Subject: Redistricting-removing Simi Valley/Moorpark from Ventura County representation

Date: Mon, 27 Jun 2011 16:26:41 -0700

What happens when we are lumped in with an area encompassing the Santa Clarita Valley, extending to Victorville? Why does Simi Valley & Moorpark have to be separated from the rest of Ventura County when it has been working well for so long? Our cities are serviced by many of the county agencies such as the Ventura County Area Agency on Aging, the Ventura County Transportation Commission, the Economic Collaborative of Ventura County. We have residents that serve on county boards. We are serviced well by Elton Gallegly and have more in common with Ventura County than with any part of Los Angeles County. A large portion of Simi Valley & Moorpark residents moved here to be removed from L.A. We are not part of L.A., never have been and should not be considered as such by your commission.

We will be such a small part of the Los Angeles County district serving Santa Clarita and others that we will have virtually no representation. Is it true that the current Congressmna, Buck McKeon has stated that he does not want to represent Simi Valley & Moorpark. How will our voice be heard? Not that I believe Ventura County should be touched by your group at all, but if someone has to be tied to Santa Clarita, why not have that be the towns of Piru, Fillmore & Santa Paula that are off the 126 highway and at least have that in common with Santa Clarita. Simi Valley & Moorpark do not even have that connection with Santa Clarita. I have lived in Simi Valley since 1960, going to elementary, junior high, high school & college in the county. It has been a wonderful place to live; to raise children; partially because of our affiliation with Ventura County for government representation. Please do not remove us from the rest of the county.

TAB 92

Subject: Redistricting - Simi Valley & Moorpark

From: Stephanie Ferguson <[REDACTED]>

Date: 6/27/2011 4:56 PM

To: [REDACTED]

We fought a war because of taxation without representation. This is the basic issue we are discussing with the redistricting of Simi Valley and Moorpark. These cities are part of the Ventura County community, and will not have their interests represented if they are included in the Los Angeles district. We have already seen evidence of this. Brad Sherman reserved all his transportation money for bicycle lanes and handicapped hiking trails, and another district's congressman had to fight for the widening of the 23 and 101, even though it wasn't in his district at the time.

Congressman Buck McKeon who represents Santa Clarita, when he announced his intention to seek reelection on Thursday, made it clear in his press release that he doesn't want to represent Simi Valley and Moorpark. So where will the representation of these communities come from?

Most people who moved to Simi Valley and Moorpark did so to remove themselves from Los Angeles County. To tie them back to Los Angeles in a district that will have Los Angeles County's interests at heart and not Simi Valley and Moorpark's violates point 4 of the criteria mandated by the California Constitution that the lines respect counties, cities, communities of interest, and neighborhoods.

People deserve to be represented by those who have their interests at heart. The redistricting plans need to be revised so that everyone has their interests represented.

--

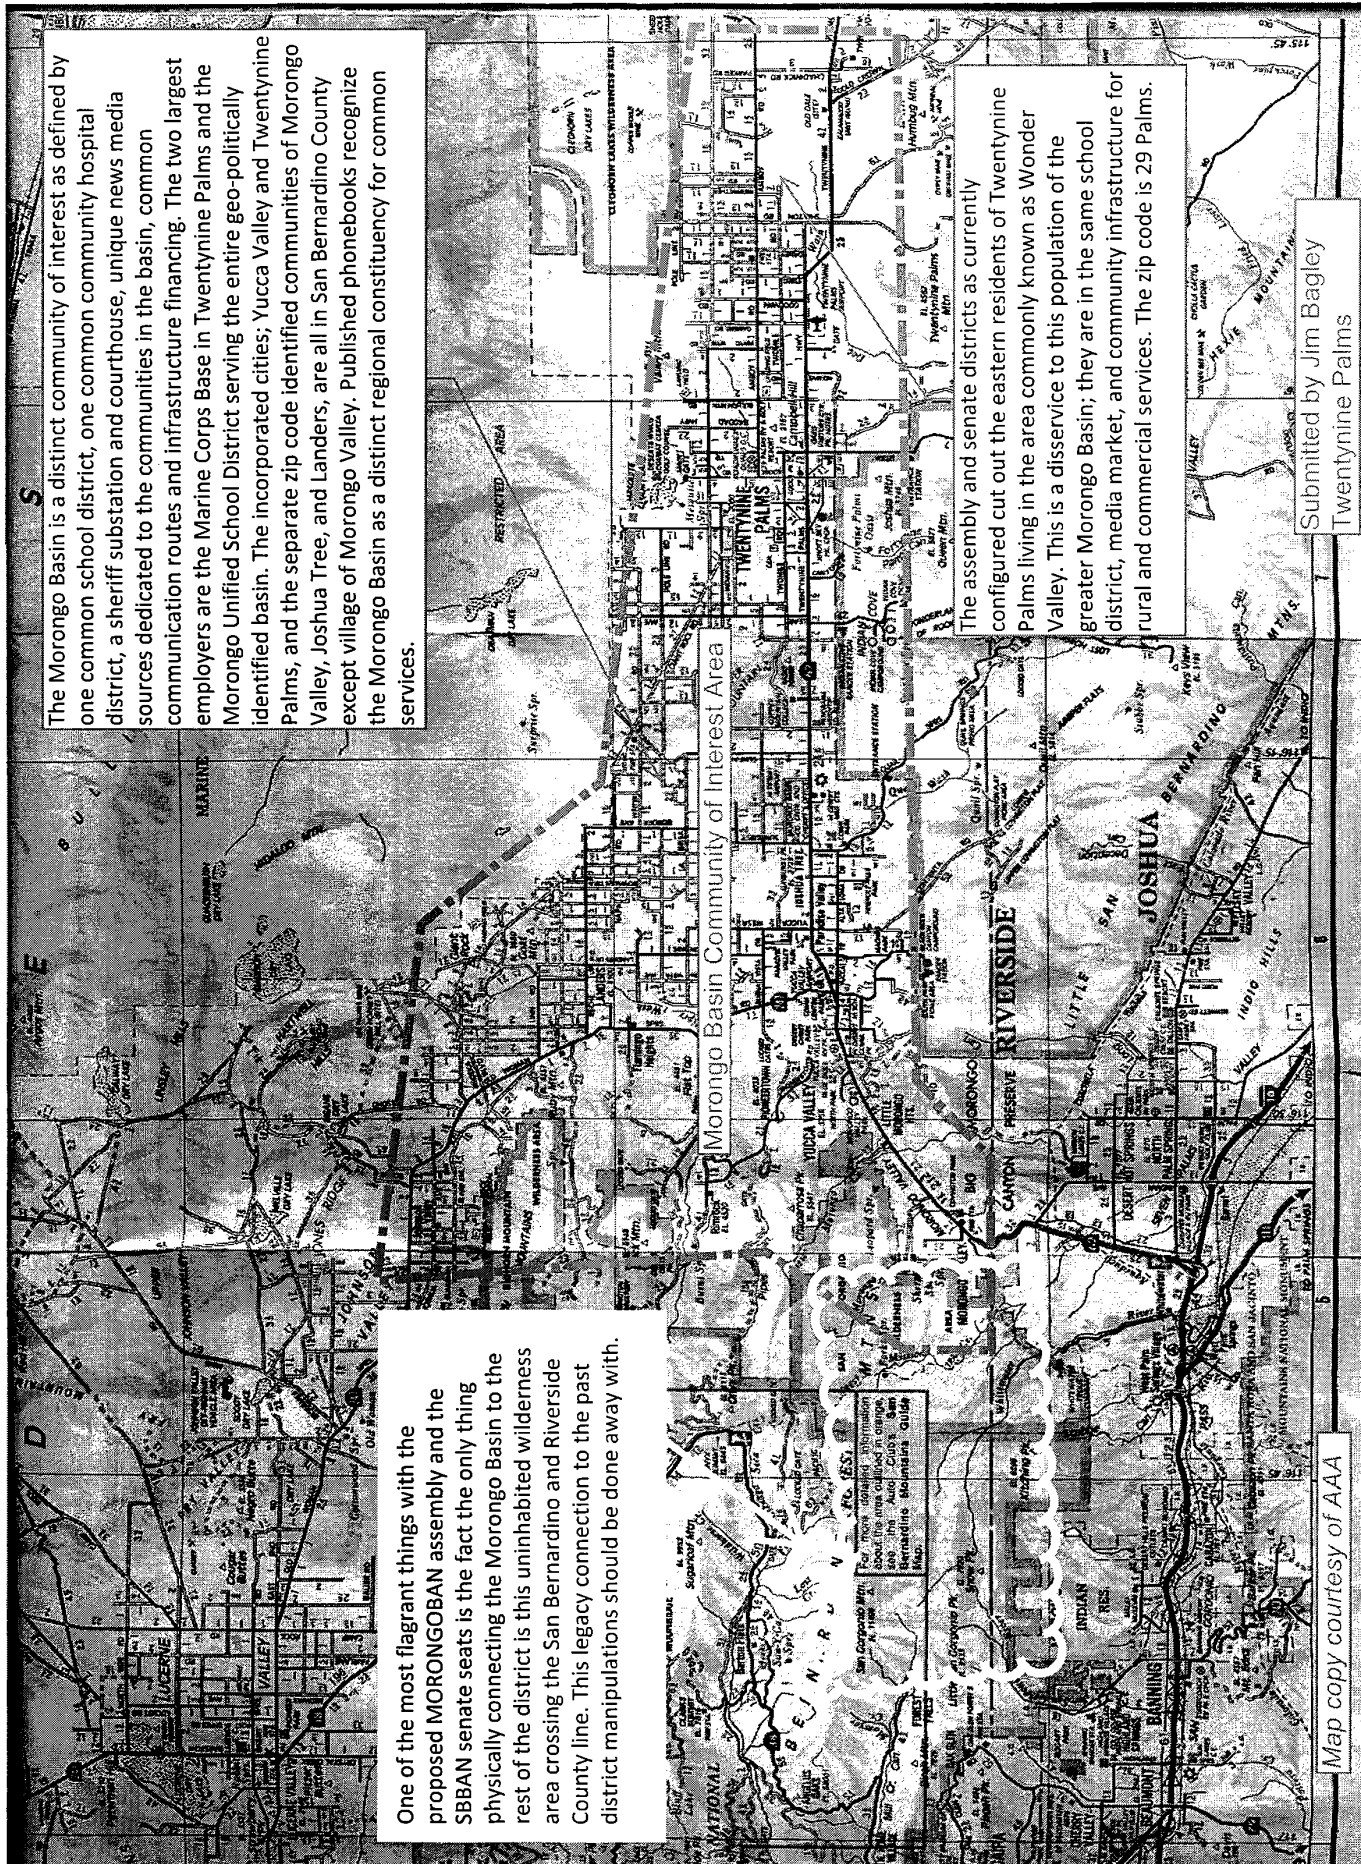

California State Senate - SBBAN

This configuration for a senate district does little to correct the ills of past gerrymandering for the communities of interest being bifurcated with dissimilar geo-political commonalities. The desert citizens of the Morongo Basin are falsely connected to cities in urban San Bernardino County and cross county lines into Riverside County with no logical connection. The map appears to be a weak attempt at justifying the past district lines without the required adherence to avoiding splitting county boundary lines and keeping the district compact with efficient and fair representation. As drawn it would require driving more than an hour and half to visit any of the area's disparate populations.

The Morongo Basin should be in a desert based senate seat with the Victor Valley cities in San Bernardino County such as Apple Valley, Hesperia, Barstow, Needles, and possibly Blythe in Riverside County. Or in a district including Desert Hot Springs and the lower desert communities of the Palm Spring area. We all share common desert community needs for infrastructure and services. That would create a logical senate district without treating the smaller desert communities like stepchildren in unimportant appendages to divergent population centers.

Re: Map alternative affecting COACH, PRS, RVMVN, and NESAN (1st Draft) Congressional Districts

Citizens Redistricting Commission
901 P Street, Suite 154-A
Sacramento, California 95814

Honorable Commissioners:

Thank you for your willingness to listen, and for the further opportunity to suggest alternatives to the 1st Draft of Maps. The Hemet-San Jacinto Action Group is a group of local community leaders in the San Jacinto Valley (Riverside County). We have taken the initiative in providing an alternative to the Congressional Maps referenced above (the "Action Group Alternative"), and we have attached our suggestions in the form of data and pdf files. The goals and justifications of our proposed alternative can be summarized as follows:

1. The San Jacinto Valley has no connection with the Coachella Valley, and shares many common attributes with the communities of the PRS District.
 - a. **Geographic Integrity.** The second highest mountain range in southern California (Mt. San Jacinto) separates the Coachella Valley from the San Jacinto Valley. The San Jacinto Valley is simply not geographically contiguous to the proposed COACH District, but is very much contiguous and immediately adjacent to the proposed PRS District.
 - b. **Communities of Interests.** The San Jacinto Valley shares significant common historical interests with those of Perris, Menifee, Idyllwild, and Anza, and no common interest with the Coachella Valley. A major east-west transportation corridor (the Mid-County Parkway) was recently adopted by the Riverside County Transportation Commission linking the San Jacinto Valley with the City of Perris and the 215 Freeway. In addition, the San Jacinto Valley shares with PRS and not COACH various water districts, school and community college districts, a hospital district, park district, WRCOG membership, a common railroad line and similar economic opportunities and interests.
 - c. **Geographical Compactness.** The San Jacinto Valley's (approximately) 164,000 people are remote compared to the far more concentrated and distant population of the Coachella Valley.

2. In order to adjust the PRS District and allow for the inclusion of the San Jacinto Valley, together with Idyllwild and Anza (who relate much better to the coastal side of Mt. San Jacinto as opposed to the desert side, and have an historical connection to the San Jacinto Valley) we propose placing the population of Imperial County into that of the COACH District. We suggest that Imperial County has a much greater geographic connection with the COACH District than it does with the proposed IMSAND District. Major geographical features like the Salton Sea will be included in one Congressional District, and the awkward linear finger stretching from the Pacific Ocean to inner Imperial County will be eliminated.

3. We acknowledge that the Congressional Districts of San Diego County will need to be adjusted to compensate for the inclusion of the Imperial County population in the COACH District. We suggest that the NESAN District be adjusted to include additional population and propose that the balance of Temecula, the cities of Murrieta and Wildomar, and the unincorporated areas in between be added to the NESAN District. This change unifies the Temecula area, and includes those southern Riverside County communities who relate very well with northern San Diego County. The area shares a common transportation corridor (Interstate 15), and many residents of these southern Riverside County cities commute daily to jobs in San Diego County. There are no major geographical obstacles impairing the connection, and there are many historical ties between southern Riverside County and the proposed NESAN District. We propose the adjustment of the NESAN District; however we agree that the Commission may have more interests in adjusting the San Diego Districts further to the west.

4. Finally, we have made minor adjustments to the RVMVN District, balancing population with the inclusion of the City of Calimesa, and a portion of the March Air Reserve Base. We believe that Calimesa relates much better to the proposed RVMVN District than it does to the proposed COACH District, and the March Air Reserve adjustment should prove relatively minor in significance.

The Hemet-San Jacinto Action Group would like to thank the Redistricting Commission for its consideration of the proposal outlined above. In going through this exercise, we have a much greater appreciation for the Commission's work, and we have tried to make our request as "staff-friendly" as possible. Please do not hesitate to contact us if any of the attachments need to be in a different format, or if additional supporting data is required. Thank you again for this very transparent and open process.

Yours very truly,

Eric Gosch
President
Hemet-San Jacinto Action Group

[illegible]

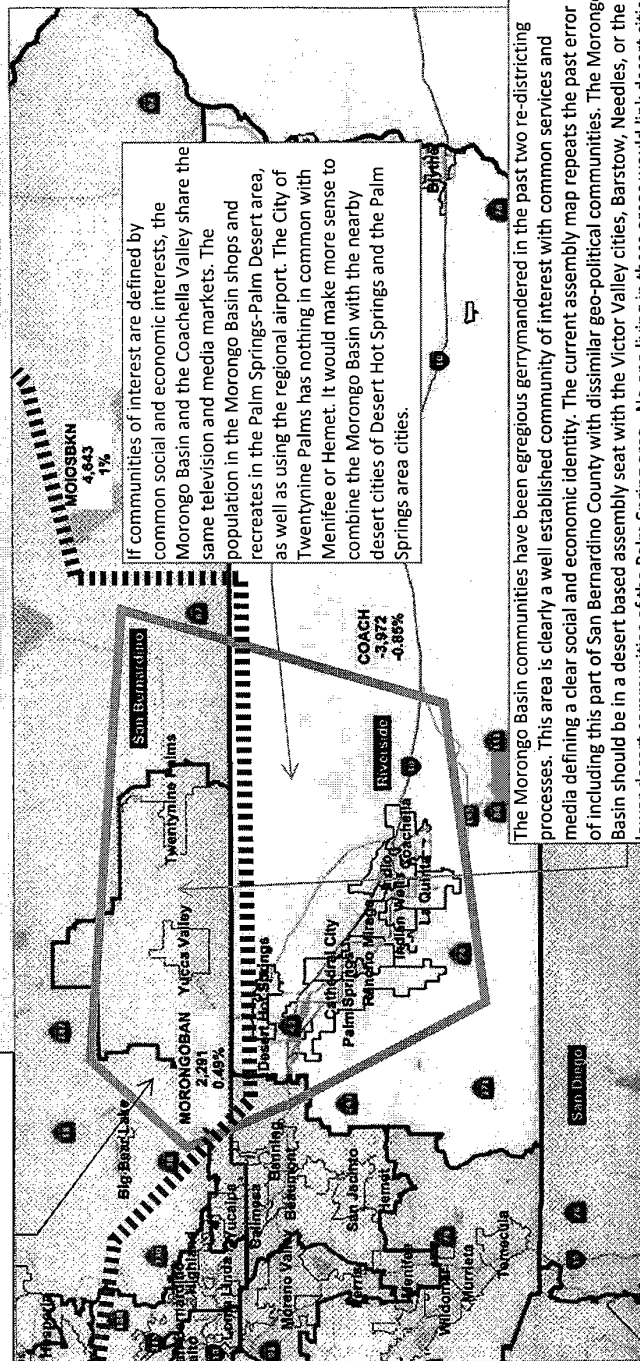

The Morongo Basin should be in a desert based senate seat with the Victor Valley cities in San Bernardino County such as Apple Valley, Hesperia, Barstow, Needles, and possibly Blythe in Riverside County. Or in a district including Desert Hot Springs and the lower desert communities of the Palm Spring area. We all share common desert community needs for infrastructure and services. That would create a logical senate district without treating the smaller desert communities like stepchildren in unimportant appendages to divergent population centers.

Appen. 275

California State Assembly - COACH

The Morongo Basin should be in a desert based assembly seat with the Victor Valley cities of Apple Valley, Hesperia, and the similar communities of Barstow, Needles, and possibly Blythe. They are all in San Bernardino County (except Blythe) and share common desert community needs for infrastructure and services.

If communities of interest are defined by common social and economic interests, the Morongo Basin and the Coachella Valley share the same television and media markets. The population in the Morongo Basin shops and recreates in the Palm Springs-Palm Desert area, as well as using the regional airport. The City of Twenty-nine Palms has nothing in common with Menifee or Hemet. It would make more sense to combine the Morongo Basin with the nearby desert cities of Desert Hot Springs and the Palm Springs area cities.

The Morongo Basin communities have been egregiously gerrymandered in the past two re-districting processes. This area is clearly a well established community of interest with common services and media defining a clear social and economic identity. The current assembly map repeats the past error of including this part of San Bernardino County with dissimilar geo-political communities. The Morongo Basin should be in a desert based assembly seat with the Victor Valley cities, Barstow, Needles, or the lower desert communities of the Palm Spring area. No one living in these areas would link desert cities to Inland Empire cities as the maps as presented have proposed.

My name is Dolores Huerta and I live in the community of the Central Valley. I am currently the President of the Dolores Huerta Foundation and our organization represents thousands of in Kern and Tulare County.

The Commission's maps affect my representation in the following way:

As a minority, I believe the commission could improve Latino effectiveness of all districts and comply with Section 2 and Section 5 of the VRA. The redistricting maps from your Commission need to take into consideration the Latino population's growth as indicated by the Census.

The following comments are my suggestions:

Congressional

At a *Congressional* level, the Commission should review and strengthen the "Kings" Congressional district and respectively increase both Latino effectiveness and the LCVAP. In order to accomplish the aforementioned, the Commission should remove Clovis and add East Porterville, Orange Cove, and East Orosi.

Kings Assembly District

Latino effectiveness and the LCVAP can be increased if the communities in the Northern part of the district (East Orosi, Goshen, Seville, Lemon Cove, Tulare, Woodville, Pixley, Terra Bella, Ducor, and Rich Grove) are added.

Laton, Stratford, Lemoore Station, Hanford, and Kettleman City can be removed for the balance in population. These towns also differ in economic interests since their main industries are cattle, oil, and prisons.

Also, if Bakersfield is going to be split, the split should be along Hwy 99 because the Latino community of interest resides East of Hwy 99. The Commission can use the Kings River as a loose guide to help determine where the population can be divided.

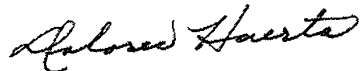

The Commission should not divide Arvin. The district can include Arvin in its entirety to Morning Drive then to Hwy 58, north to Niles, west to Oswell and HWY 99, and north to Columbus. All these community additions and removals will help the district meet the population requirement.

Senate

At a *Senatorial* level, the Commission should strengthen the "Merced" Senate district and increase both Latino effectiveness and the LCVAP. The Commission should maintain the Latino effective district in "Kings". In order to maintain this Latino effective district, I suggest the Commission moves the district East to include Ducor, Richgrove, Wasco, McFarland, Shafter, Plainview, Porterville, Exeter, Terra Bella, Lemon Cove, and Tulare (West of Hwy 99, North to Prosperity, and East to Enterprise). If the Commission believes that adding Tonyville to this district would successfully increase Latino effectiveness, it should also be added.

The communities of Dos Palos, Firebaugh, Stratford, Kettleman City Hanford, Lemoore, and Coalinga should be removed from the "Kings" district to meet population requirements.

The Commission should also look at the Mexican American Legal Defense and Educational Fund's maps and also attempt to make Senate District 4 cross the mountain range west in order to reflect the flow of agricultural workers that reside in those areas.

Dolores Huerta,
President Dolores Huerta Foundation

Francis Resta
[REDACTED]Davis, CA 95618
[REDACTED]

Citizens Redistricting Commission
Sacramento, CA

Delivered by hand, Tuesday, June 28, 2011

My name is Francis Resta. Since 1985, I've lived in my house in NE Davis

Also ---I'm 84, a retired systems engineer, Civil Air Patrol pilot, dance instructor, and WWII Infantry combat veteran.

I have some perspectives of Davis and Yolo County as a community, to share with you.

First, note that in the 1960's when I was learning to fly, my instructor set up my first cross-country flight from Sacramento Municipal Airport to the Davis Airport. Understand, Davis was cross country from Sacramento then and still is never considered part of Sacramento by the flying community.

Second, note that when I moved to Davis in 1985, all my doctors and hospitals were in Sacramento. After many years of the frustration of driving all the way in to Sacramento from Davis to see my doctors or go to hospitals (heart surgeries, pneumonia 3 times, hip replacement, etc.), and my wife's many hours travel to keep her presence at the hospitals, I finally changed doctors to the Sutter group in Davis a decade ago. I was sad to give up the doctors in Sacramento which I had collected through many tests and trials, but I realized that after leaving Sacramento, I no longer had any community with Sacramento and had to recognize that.

Third, note that there is a Yolo County Veterans Coalition board made up of reps from all veterans organizations and from all communities in Yolo County. I sit on that board, as Commander of the Davis VFW Post 6949. On the board are several Yolo County Veterans of Foreign Wars Posts, from Davis, Woodland, Bryte. Winters, Esparto, and West Sac. There also are board members from American Legion, Disabled American Veterans, AMVETS, and Marine Corps League organizations.

We work together as a community group, trading ideas for improving our Yolo County cities and towns and for providing a common vision of how we can help returning veterans get their benefits. Entirely through fund raisers, we operate a fleet of three vans to provide transportation for indigent, elderly, and disabled veterans who don't have any other way to get to the Mather VA Hospital and to the McClellan Out Patient Clinics.

The redistricting you have developed will require us to seek support from 9, yes nine, assembly and senate district representatives, in order to get any thing done. The redistricting separates us so that any one assembly person's constituency has no more than 20% of Yolo county people. We will be every representative's least important constituent group. How can we take care of veterans needs with that impossible arrangement? We will have no community voice.

Thank you.

Francis Resta

RE: Map alternative affecting COACH, PRS, RVMVN, and NESAN (1st Draft)
Congressional Districts

Honorable Commissioners:

Be it understood, as of June 28, 2011, the Hemet City Council unanimously concurs with the conclusions and the actions proposed by the Hemet-San Jacinto Action Group.

Yours very truly,

Vice Mayor Robert Youssef
Council Member Larry Smith
Council Member Linda Krupa

TAB 100

Chairman Yao and members of the redistricting commission:

Dear Chairman Yao and members of the redistricting commission:

My name is Kathleen DeRosa. I am the Mayor of Cathedral City, chair of the Palm Springs Convention and Visitors Authority, immediate past chair of the Coachella Valley Economic Partnership (CVEP), a board member of the Riverside County Division of the League of California Cities and a member of the executive committee of the Coachella Valley Association of Governments (CVAG).

I had the distinct honor and pleasure of addressing you during the public hearing held in Palm Springs some time ago. I am writing to thank you for hearing my plea to keep the Coachella Valley from the Banning Pass to the Arizona border intact. Keeping these communities of interest intact will have significant positive impact on the economic future of our valley. As I stated during the hearing there is no commonality between the Coachella Valley Association of Governments and the Imperial County Council of Governments. When Imperial County chose to look at an economic development strategy, they chose to team up with San Diego and the San Diego Economic Development organization and not the Coachella Valley Economic Partnership. One of the significant drivers of the economy here is the Coachella Valley is tourism, hence it is critical to keep our community intact.

Several Coachella Valley and the Banning Pass cities of Banning and Beaumont are in the final stage of finalizing an emergency communication system (ERICA) that will link public safety in this entire area. The Palo Verde Valley, Blythe, is also a significant partner in CVAG.

Please allow me to reaffirm that the first draft of the new map is indeed fair and equitable to all involved and will serve the citizens of the area best.

Thank you for your time and thank you for who you are and your service on this very important commission.

Respectfully,

Kathleen DeRosa

Mayor, Cathedral City

1 Newark is in the middle of Fremont, you end up with them
2 together. So, it seemed to me that if we wanted to
3 discuss this, or give direction, that you could pull on
4 Hayward and Union City and keep the Fremont Newark as the
5 core.

6 VICE CHAIRPERSON DAI: Right.

7 COMMISSIONER FORBES: And see what goes from
8 there.

9 VICE CHAIRPERSON DAI: Yeah, that's exactly
10 consistent with the testimony. Fremont and Newark are
11 always talked about together and often the tri-city, too,
12 but I think the Fremont Newark connection is stronger.

13 At this point, we have 10 minutes. I would like
14 Commissioners Ancheta and Barraba to talk about Monterey
15 because our choice in Monterey may actually force choices
16 in this area, and we got, I think, very clear direction
17 from Mr. Brown this morning, so I think we will have to
18 make a choice.

19 COMMISSIONER ANCHETA: So, and I don't -- Jamie,
20 do you have Tamina's -- well, let me back up. Without
21 going through the various testimony assumptions, let's
22 just sort of start in with the Section 5 discussion. The
23 first draft map had the Latino VAP at around 42 percent,
24 the benchmark is at 44 percent, based on counsel's advice
25 this morning, we need to increase that, so we can't go

101

CALIFORNIA REPORTING, LLC
52 Longwood Drive, San Rafael, California 94901 (415) 457-4417

1 with the first draft based on that advice. There's an
2 argument out there to maintain it, but if we're going to
3 follow advice, at this point we would have to increase.
4 Tamina did try to map out a couple of visualizations
5 where she would up the percentages, and I think one had
6 significant ripples going up through San Francisco and
7 another had a few ripples, but it does have to divide a
8 number of cities including, I think, Santa Cruz and
9 either Santa Clara or Cupertino. So, if you can pull
10 that up and maybe Tamina can highlight what's going on
11 there. But it would exceed benchmark.

12 VICE CHAIRPERSON DAI: Right. Okay, go Tamina.
13 Can you see it, yet?

14 MS. ALON: Sort of, okay. So the district we
15 looked at creating has -- we took Gilroy and we took half
16 of Santa Cruz City, and so we have a split in the middle
17 of Santa Cruz City, we have a split where the Santa Clara
18 County line is, and we have taken Gilroy away from San
19 Martin and Morgan Hill. This new district meets the
20 benchmark and, so, this visualization that we were just
21 previously looking at, it was built off of this
22 particular visualization. So, there are a couple of
23 options in terms of switching the population around and
24 you have a couple of different visualizations, I believe,
25 on that. The one that we're looking at here is, if we

102

CALIFORNIA REPORTING, LLC
52 Longwood Drive, San Rafael, California 94901 (415) 457-4417

1 were to keep that Fremont area together, then you have
2 this option, however, if you were to go back to the maps
3 as they were first drafted, and not look at the rest of
4 this visualization, just plugging in this new Monterey
5 District will either require you to push the population
6 up over the bridge, or to split Cupertino or Santa Clara
7 to be able to balance these districts that touch Monterey
8 County.

9 VICE CHAIRPERSON DAI: Okay, so this was one of
10 the options that exceeds the benchmark per counsel.

11 COMMISSIONER BARRABA: Commissioner Dai? I'd
12 like the Commission to see the original one which doesn't
13 exceed it, but what it does relative to meeting, I think,
14 the other intent of what our job is, which is to create
15 not only communities of interest, but compact districts,
16 and the amount of county lines that have to be crossed,
17 as well as cities.

18 VICE CHAIRPERSON DAI: Do you have that one? Is
19 it the same one as in our first draft maps?

20 COMMISSIONER BARRABA: No.

21 VICE CHAIRPERSON DAI: Okay, so we're going to
22 look at a second option that retrogresses, but, again,
23 per advice of counsel, we probably can't implement it.

24 COMMISSIONER BARRABA: That is advice of counsel,
25 not -- earlier someone said the direction, I think we

103

CALIFORNIA REPORTING, LLC
52 Longwood Drive, San Rafael, California 94901 (415) 457-4417

1 take his advice, we are not following it by direction, as
2 I recall. It's our choice, I would think.

3 CHAIRPERSON YAO: My understanding is it is more
4 direction than it is a choice.

5 VICE CHAIRPERSON DAI: I think he was pretty
6 clear about that.

7 COMMISSIONER BARRABA: I understand he was clear,
8 I'm suggesting that I'm not clear on it.

9 VICE CHAIRPERSON DAI: Okay, well, we can
10 certainly have the Commission vote on that, but I
11 personally would not be willing to risk having all of our
12 maps thrown out because we retrogressed on a Section 5
13 district.

14 COMMISSIONER DI GIULIO: And this is the
15 retrogression in terms of the LVAP.

16 VICE CHAIRPERSON DAI: This is the retrogression
17 of two percent in terms of Latino --

18 COMMISSIONER DI GIULIO: In terms of LVAP as
19 opposed to the other retrogressions we've talked about
20 which are the smaller.

21 COMMISSIONER BARRABA: It's not two percent, it's
22 a percent and a half because what you're looking at is
23 the revised one.

24 VICE CHAIRPERSON DAI: Okay, so this is an
25 alternative that retrogresses Latino -

104

CALIFORNIA REPORTING, LLC
52 Longwood Drive, San Rafael, California 94901 (415) 457-4417

1 MS. CLARK: Okay, I just want to clarify that
2 this is the district that was in the first draft maps and
3 it does -- the LVAP is below the benchmark.

4 COMMISSIONER FORBES: Can I ask -- so, the
5 benchmark is 44.5?

6 MS. CLARK: The benchmark is 44.16.

7 COMMISSIONER FORBES: Okay, and Commissioner
8 Barraba, do you want to make your case? I mean, I
9 understand that --

10 COMMISSIONER BARRABA: Well, I mean, the case is
11 that we're about to split a large city in half and put it
12 -- and create a ripple effect up the coast, which is
13 going to revise, unfortunately, everything else we've
14 done for a percent and a half on retrogression, and, as
15 well, cut into Santa Clara County to pick up Gilroy.

16 COMMISSIONER GALAMBOS MALLOY: This is an area
17 where I definitely heard Mr. Brown's opinion this
18 morning. I think it would be useful for us to be
19 provided with more context as to how the Department of
20 Justice has dealt with similar cases in other parts of
21 the country. I am grappling with this one because I
22 really do wonder whether the many impacts of this small
23 percentage that are going to reverberate throughout the
24 entire region, that's a tremendous trade-off. I feel
25 like, yes, the cleanest thing would be if we could

105

CALIFORNIA REPORTING, LLC
52 Longwood Drive, San Rafael, California 94901 (415) 457-4417

1 improve our numbers, yet the number of, you know, when
2 you look at city splits, county splits, community of
3 interest splits, I feel like I would like if not a second
4 opinion, definitely more context to help inform the
5 Commission before we make a decision on it.

6 VICE CHAIRPERSON DAI: Commissioner Ancheta.

7 COMMISSIONER ANCHETA: Well, you can go back to
8 Mr. Brown for more. I don't know that he'll give us
9 more, other than saying -- it is a totality of
10 circumstances analysis, so it's not solely by the
11 numbers, you know, the examination of registration
12 numbers, other election data relevant to the Latino
13 population. As I recall, I don't think there are
14 improvements along those dimensions if you stay with this
15 district, I think they're still below benchmark. I don't
16 know what to do about this other than saying that those
17 are the numbers right now and I think, unless you had
18 some additional analysis by our expert on some of the
19 actual election data that might show that, even with the
20 lower number, you'd still have the ability to elect, that
21 might be something, but this is one of those areas where
22 the numerical indicators on their face move in a certain
23 direction. Again, you can ask for more from counsel on
24 that.

25 VICE CHAIRPERSON DAI: Commissioner Blanco.

106

CALIFORNIA REPORTING, LLC
52 Longwood Drive, San Rafael, California 94901 (415) 457-4417

1 COMMISSIONER BLANCO: First of all, just before I
2 get into the legal question, our new one has Gilroy in
3 with this? Is that true?

4 COMMISSIONER BARRABA: Yes.

5 COMMISSIONER BLANCO: Because we heard a lot of
6 testimony about that, correct? I mean, apart from all
7 the Section 5 issues, didn't we hear a lot about Gilroy
8 being --

9 VICE CHAIRPERSON DAI: With San Martin and --
10 yes, we did.

11 COMMISSIONER BLANCO: So part of that is also
12 based on community of interest testimony. So, on the
13 Section 5, I spent some time this morning reading Mr.
14 Avila's submission on Section 5, and on Monterey County,
15 in particular. It was related to the Senate Districts,
16 but in so doing, he also gave a lengthy history on the
17 history of discrimination in Monterey County and what's
18 been the basis for many of those local level, county
19 level, and other Section 2 and Section 5 lawsuits over
20 the past 30 years in this area. I think a lot of people
21 understand that Section 5 really hamstring us; I'm not
22 willing, especially if we were talking about some of the
23 other areas we've looked at where we've looked at a
24 smaller number. In Monterey County, with a two percent
25 retrogression, I'm not willing to take the risk.

107

CALIFORNIA REPORTING, LLC
52 Longwood Drive, San Rafael, California 94901 (415) 457-4417

1 VICE CHAIRPERSON DAI: One more comment.

2 COMMISSIONER DI GIULIO: Can I just say I
3 understand, I think part of this is, if you look in the
4 Central Valley, which we will get to, the City of Fresno
5 was split from Merced, the City of Bakersfield was split
6 for Kings, it's really a shame, and I would like to see
7 if there is a way that we could keep the retrogression
8 and try -- I think Commissioner Barraba has raised this
9 in the past, that if we can keep as much of the integrity
10 of the Bay together as possible, to try to minimize the
11 split maybe in Santa Cruz, but particularly since this is
12 a Federal District, and we would like to keep the coast
13 of the Monterey Bay as whole as possible, which looks
14 like a significant part was, but I guess I feel like, for
15 Section 5, the LVAP numbers are - it has caused some bad
16 splits for cities where --

17 VICE CHAIRPERSON DAI: And I just want to make
18 clear that, I mean, I think we all heard again this
19 morning Mr. Brown was really clear that compliance with
20 the Voting Rights Act far outranks cities, counties, and
21 communities of interest, so if our only rationale for
22 retrogressing is to keep cities, counties, and
23 communities of interest whole, that is not going to work
24 as a totality of the circumstances case, and he was
25 extremely clear about that.

108

CALIFORNIA REPORTING, LLC
52 Longwood Drive, San Rafael, California 94901 (415) 457-4417

1 COMMISSIONER BARRABA: There is another piece of
2 information that I would like to get from our Voting
3 expert, is an assessment of the likelihood of an election
4 of a Latino under both conditions.

5 VICE CHAIRPERSON DAI: We can certainly request
6 that.

7 MS. CLARK: I would like to address Commissioner
8 Di Giulio's suggestion of trying to minimize the Santa
9 Cruz city split and, basically, this district needs
10 Gilroy to meet the benchmark, and so I think that would
11 be the only population that could be pulled out.

12 VICE CHAIRPERSON DAI: Can you -- if you added
13 San Martin and Morgan Hill, does it dilute the benchmark?
14 Does it dilute it to fall below the benchmark?

15 MS. ALON: Yes, it will.

16 VICE CHAIRPERSON DAI: Okay, so they tried the
17 obvious, which was to try to keep that COI together,
18 apparently not enough Latinos in San Martin and Morgan
19 Hill. Yeah, I mean, I think it's not ideal, but, again,
20 I think Commissioner Di Giulio is right; all of the
21 Section 5 districts have caused splits elsewhere.

22 COMMISSIONER BARRABA: As I understand the intent
23 of the Voting Rights Act, it's not to eliminate the
24 chance of a Latino being elected. I'd like to see what
25 the difference is between those two options. I don't

109

CALIFORNIA REPORTING, LLC
52 Longwood Drive, San Rafael, California 94901 (415) 457-4417

1 think that's an unreasonable request.

2 VICE CHAIRPERSON DAI: Yeah, I think we can ask
3 that. Commissioner Ancheta, do you have any comments on
4 that?

5 COMMISSIONER ANCHETA: I don't know if that's
6 within the contract, I'm not sure if -- we might have to
7 go beyond the contract to get that. He may have that
8 available, I just don't know. We'd have to ask counsel
9 to speak with Dr. Barretto regarding that kind of
10 differentiation. And just as a reminder, I mean, there
11 are some other options, for example, the wraparound to go
12 up to Alum Rock, which we've seen in other districts --

13 VICE CHAIRPERSON DAI: Which I personally thought
14 was not good, so this actually fixes that. We no longer
15 are splitting off East San Jose, so this is actually a
16 remedy for something we heard a lot about in our San Jose
17 area.

18 COMMISSIONER ANCHETA: And again, I think Ms.
19 Alon spent a lot of time trying to work out a lot of
20 different variations where -- and again, it's simply to
21 maintain that percentage of Latino VAP, you've got to go
22 to the Latino concentrations. The demography of this
23 area is such that, as you move further north, you just
24 don't have the numbers to hit that mark.

25 VICE CHAIRPERSON DAI: Tamina, is it correct to

110

CALIFORNIA REPORTING, LLC
52 Longwood Drive, San Rafael, California 94901 (415) 457-4417

1 say that the only two Latino concentrations that would
2 solve the problem for the benchmark are in Gilroy or Alum
3 Rock?

4 MS. ALON: Yeah. I've tried probably about 18
5 different variations of trying to figure out a way to do
6 this and, really, the only way is to take Gilroy, Morgan
7 Hill, and San Martin don't have enough, and what you
8 would have to do is go into San Jose, is just take the
9 Alum Rock area and create kind of snake-like finger into
10 just that area, and then that would still split Santa
11 Cruz because there is no other real population of note in
12 Santa Cruz County. So there are really not a whole -
13 this is really the only option, really, to the extent
14 that this is a good option, it's the cleanest option that
15 I've been able to come up with, and I have spent
16 significant time on this.

17 VICE CHAIRPERSON DAI: Let me just make sure we
18 consider all our options. Going south obviously dilutes
19 it even further?

20 MS. ALON: Yes, south will not work.

21 COMMISSIONER GALAMBOS MALLOY: Tamina, I think
22 this is a dramatic improvement on where we were at
23 before, I think that what made me most nervous about this
24 area was that we had essentially two groupings of
25 Latinos, you know, one on the east side of San Jose, and

111

CALIFORNIA REPORTING, LLC
52 Longwood Drive, San Rafael, California 94901 (415) 457-4417

1 one of those groupings of Latinos was saying, "This
2 district doesn't work for us," and if the entire intent
3 is to make voting and make elections work for minority
4 populations, something about that was not sitting right
5 with me. So, I think we are making progress. And I
6 appreciate being pointed to Mr. Avila's testimony, I had
7 not had a chance to review that, so with that in mind, I
8 would feel comfortable moving ahead with this for now.

9 VICE CHAIRPERSON DAI: Commissioner Forbes.

10 COMMISSIONER FORBES: I just have two questions,
11 one is there has been reference to the LVAP and CVAP, and
12 Mr. Avila, so I don't know what --

13 VICE CHAIRPERSON DAI: It's LVAP for Section 5.

14 COMMISSIONER FORBES: Okay. And is there
15 anything that we can do that would increase the Latino
16 population by doing a name search or other mechanisms to
17 get a more accurate piece of data as to what is actually
18 there?

19 VICE CHAIRPERSON DAI: So, just to clarify, LVAP
20 is pretty accurate, it's very accurate; it's CVAP that is
21 not accurate.

22 COMMISSIONER FORBES: Okay.

23 VICE CHAIRPERSON DAI: So this is accurate.

24 COMMISSIONER FORBES: Okay, I'm trying to think
25 because Mr. Avila's testimony, I think, refers to CVAP.

112

1 VICE CHAIRPERSON DAI: Which would be for Section
2 2.

3 COMMISSIONER FORBES: Well, let me see here,
4 sorry to take the time to go back to it.

5 COMMISSIONER ANCHETA: And just to clarify, I
6 mean, part of Mr. Avila's argument, both in his written
7 testimony and his oral testimony, it is focusing largely
8 on the Senate Districts and potential Section 2
9 violations because of significant disparities in the CVAP
10 numbers between proposed district and our first draft
11 district. I think his testimony was pretty extensive, it
12 does look at sort of the history of Monterey County and
13 litigation that's been brought in the County and issues
14 of Latino Voting Rights, but I think there is a lot in
15 there, I think it is over 30 pages of written testimony,
16 single-spaced.

17 VICE CHAIRPERSON DAI: So not all of us have
18 absorbed it yet.

19 COMMISSIONER ANCHETA: Right.

20 VICE CHAIRPERSON DAI: So, a time check, it is
21 12:20. We can to 10 more minutes if you want, or we can
22 have a 40-minute lunch. You know, our Mappers are going
23 to have to leave shortly after 3:00 and we really want to
24 get through all the Congressional Districts. I think we
25 can act on Commissioner Barraba's request to look at the

113

CALIFORNIA REPORTING, LLC
52 Longwood Drive, San Rafael, California 94901 (415) 457-4417

1 history of voting and that might fall in the scope of Mr.
2 Barretto's contract, since he's looking at --

3 COMMISSIONER ANCHETA: Yeah, I think we'll just
4 have to consult with Gibson, Dunn & Crutcher and have
5 them check in with Dr. Barretto regarding that question.

6 VICE CHAIRPERSON DAI: But I do think we need to
7 make a decision on what are we going to use going forward
8 because it will affect how we draw the districts above it
9 in the Bay Area, and which communities of interest we can
10 keep whole now that we've gotten past the Voting Rights
11 Act issue.

12 COMMISSIONER BARRABA: I'm okay with -- earlier,
13 we raised the question to make sure you are satisfied
14 with it, and I'm not satisfied with this, but as a member
15 of the Commission I'm ready to go forward with it. But I
16 would just like everybody to keep in mind that there is
17 an alternative that has to be considered later on if we
18 find information that allows us to.

19 VICE CHAIRPERSON DAI: Thank you, Commissioner
20 Barraba. With that, I am wondering, do we want to go 10
21 more minutes and look up, or do we want to take a 40-
22 minute break and try to read that 30-page testimony?
23 Lunch? Okay, good break point.

24 CHAIRPERSON YAO: All right, we're going to
25 adjourn for lunch at this point and be back at 1:00 p.m.

114

CALIFORNIA REPORTING, LLC
52 Longwood Drive, San Rafael, California 94901 (415) 457-4417
