### **Special Needs of students are considered in this lesson:**

Students are given the chance to work from the adopted curriculum reading aloud together as a class. Students have a chance to view some primary documents as a class on the projector. Students work together in small groups to discuss the activities. The activities are then discussed as a class with notes provided on the overhead. Students then have an opportunity to take the reading, primary source, group work, and whole class work to complete an independent project, a letter. Students then share their letter and have an opportunity to get feedback before their final product is complete.

### **Extension Ideas:**

Students became very interested in the judicial system and conversations branched off in many directions. Students requested a chance to go and visit a court. The importance of fair trials will come up when we begin our novel unit on Let the Circle Be Unbroken.
