Subject: Recommendations of the Strategic Evaluation Committee
Date: Thursday, July 19, 2012 1:13:47 PM

I strongly support and join in all of the Comments Of The Los Angeles Superior Court In Response To The Judicial Council's Request For Public Comment On The Report And Recommendations Of The Strategic Evaluation Committee. Additionally, I wish to emphasize the importance of the specific recommendations made by the Los Angeles Superior Court at the top of page two regarding the need for change now without regard to who the new Administrative Director eventually will be, and the need for implementation of an Administrative Director selection process that will result in a new Administrative Director who will be fully dedicated to the goals set forth in the SEC Report. The new Administrative Director must clearly recognize that the leadership role rests with the Judicial Council and that the Administrative Director's role is one of facilitating the decisions and goals of the Judicial Council to the extent authorized by the Judicial Council.
