I completely endorse the official reply of the Los Angeles Superior Court to the SEC report. I have been a judge for nearly thirty years and have served as a Presiding Judge, a Supervising Judge and three times as a pro tem for the Court of Appeal. I have lectured around the state, including for the AOC. I think I have some understanding of the branch. The time to act is now. If we do not we will lose our ability to govern our own destiny and can expect a revolt both from outside as well as within.
