I fully support all recommendations contained within the SEC Report. All recommendations are appropriate and necessary to aid our judicial system in recovering from the current financial crisis as well as regaining its integrity. The public funds spent on the top heavy AOC will be better spent on the judicial system that actually serves the public. The Court's have been in financial dismay for years and the continuous outpour of funds into CCMS has been a disgrace.

I urge the immediate implementation of all recommendations contained with the SEC Report.

Michelle Jeremiah
Courtroom Clerk
Sacramento Superior Court
