Subject: SEC Report
Date: Friday, July 06, 2012 10:59:51 AM

Please be advised that my name is DANIEL S. LOPEZ and I have over 22 years of experience as a Judge with the Los Angeles County Superior Court. I am respectfully requesting the Chief Justice, the Executive and Planning Committee and the Judicial Council to implement each and every recommendation of the Strategic Evaluation Committee. In order to regain the trust and confidence of the judiciary, immediate action is mandatory. There have been enough extensive reports and recommendations over the past five years. The role of the AOC and Judicial Council must be restored to its original statutory limitations, as set forth in the SEC recommendations. The judiciary is faced with an economic nightmare with our budget problems, and more importantly, we are in a crisis of confidence in the management of our court system. In hopes of restoring the dignity of our Court, please act promptly and courageously. Thank you!
