I strongly believe that the Judicial Council should adopt the recommendations of the SEC report. There needs to be more controls placed on the AOC. I do not accept that the AOC has suffered the same budget cuts as the trial courts. Perception is Reality. The AOC has become a bloated bureaucracy and there needs to be more accountability. If the leaders of the Court fail to adopt the recommendations of the SEC Report, it signals there is no change. I have served on Judicial Council Committees and my opinion is not just based on the SEC report but on some personal observations. The AOC seems to be immune from budget cuts and responsibility for its decisions during the economic crisis.
