I am in full support of the recommendations made by the SEC report. In my opinion these changes are long overdue and should be made today. I understand that some of the changes may be more difficult to implement than others, but we should proceed full steam ahead with immediate implementation. Every day of delay makes it more difficult to justify to the court of public opinion and the other two branches of government that we are using tax payer money in a responsible manner.

Thank you for the opportunity to comment.
