---

Good morning:

I implore the Executive and Planning Committee, the Chief Justice, and the Judicial Council to immediately implement every recommendation of the Strategic Evaluation Committee. The AOC must be reined in, and its size and functions reduced as recommended.

I have been a sitting judge for 27 years. I have watched the AOC grow in size and self-importance. It defies common sense that the AOC continues unabated in its operations and size while the court it is supposed to serve suffers draconian cuts in staff and reductions in services. This is not the opinion of just one judge. It is the opinion of a state auditor, seasoned legislators and well-respected members of our bench. I echo every comment from every judge who has responded that this is an emergency that cannot be put off any longer.

Another public comment period will not change the facts. This delay is unconscionable.

*Judge Lisa Schall*
