Case Highlight

Court Ordered Debt received a case in December 2015 with a balance of \$33,700. Due process was completed with a Demand notice being issued the same month.

In December 2016 a new employer was located and payments on an Earnings Withholding Order were received until January 2019 when the debtor's employment was terminated with that employer.

In June 2021 an Order to Withhold was sent to a credit union and captured the remaining \$30,000 balance due on the case. The debtor did not dispute the OTW or try to have it modified, the payment cleared and paid the case in full.
