1. The tabulated data reflect responses from justices and judges that were active and serving on the bench as of December 31, 2020. The tables do not include demographic information for justices that were appointed but not yet confirmed, nor for judges that were appointed but had not yet taken their oaths of office as of December 31, 2020.

2. The race and ethnicity category descriptions were adapted from definitions used by the U.S. Census Bureau in Census 2000. The same category descriptions were used by the U.S. Census Bureau in Census 2010. See page 21 for descriptions of race and ethnicity categories.

3. "Some other race only" includes respondents who indicated they do not consider themselves to be any of the six identified race and ethnicity categories. To provide the most accurate data, the "some other race only" category includes only those respondents who identified some other race or ethnicity that did not clearly fall within one or more of the six identified categories.

4. "Information not provided" includes non-responses by active justices and judges participating in the survey that did not respond to a given survey question, as well as a smaller group of active justices and judges that have not responded to the survey more generally.

3. Since the selection of more than one response alternative is possible for the question pertaining to gender identity/sexual orientation, total responses to this question may be greater than the sum of justices and judges responding to the survey in a given year.

1. The tabled data reflect responses from justices and judges that were active and serving on the bench as of December 31, 2020. The tables do not include demographic information for justices that were appointed but not yet confirmed, nor for judges that were appointed but had not yet taken their oaths of office as of December 31, 2020.
2. The race and ethnicity category descriptions were adapted from definitions used by the U.S. Census Bureau in Census 2000. The same category descriptions were used by the U.S. Census Bureau in Census 2010. See page 21 for descriptions of race and ethnicity categories.
3. "Some other race only" includes respondents who indicated they do not consider themselves to be any of the six identified race and ethnicity categories. To provide the most accurate data, the "some other race only" category includes only those respondents who identified some other race or ethnicity that did not clearly fall within one or more of the six identified categories.
4. "Information not provided" includes non-responses by active justices and judges participating in the survey that did not respond to a given survey question, as well as a smaller group of active justices and judges that have not responded to the survey more generally.

1. The tabled data reflect responses from justices and judges that were active and serving on the bench as of December 31, 2020. The tables do not include demographic information for justices that were appointed but not yet confirmed, nor for judges that were appointed but had not yet taken their oaths of office as of December 31, 2020.

2. "Information not provided" includes non-responses by active justices and judges participating in the survey that did not respond to a given survey question, as well as a smaller group of active justices and judges that have not responded to the survey more generally.

3. Since the selection of more than one response alternative is possible for the question pertaining to gender identity/sexual orientation, total responses to this question may be greater than the sum of judicial officers responding to the survey in a given year.

1. Tabled values for veteran and disability status include responses from justices and judges new to the bench in calendar years 2014 through 2020, as well as experienced justices and judges who chose to update their demographic information during the same 6 year period. Demographic questions pertaining to veteran and disability status are new as of 2014 and reflect an expansion of the mandate for the collection of demographic information from new justices and judges.

1. The calendar years in which the demographic data was released may be found in the first column of the table. The 2008 data reflect the number of justices and judges on the bench as of February 1 of that year. The 2009 through 2021 data reflect the number of justices and judges on the bench as of December 31 of the previous year.

Note: The changes in percentages from year to year are the result of more than one factor, including: (1) new judicial appointments; (2) judicial retirements; and (3) newly-acquired data from judges on the bench who previously did not provide their demographic information.

1. The calendar years in which the demographic data was released may be found in the first column of the table. The 2008 data reflect the number of justices and judges on the bench as of February 1 of that year. The 2009 through 2021 data reflect the number of justices and judges on the bench as of December 31 of the previous year.

2. The race and ethnicity category descriptions were adapted from definitions used by the U.S. Census Bureau in Census 2000. The same category descriptions were used by the U.S. Census Bureau in Census 2010. See page 21 for descriptions of race and ethnicity categories.

3. "Some other race only" includes respondents who indicated they do not consider themselves to be any of the six identified race and ethnicity categories. To provide the most accurate data, the "some other race only" category includes only those respondents who identified some other race or ethnicity that did not clearly fall within one or more of the six identified categories.

4. "Information not provided" includes non-responses by active justices and judges participating in the survey that did not respond to a given survey question, as well as a smaller group of active justices and judges that have not responded to the survey more generally.

Race/Ethnicity Categories

The category descriptions are adapted from definitions used by the U.S. Census Bureau in Census 2000, which for the first time invited respondents to identify more than one category. The same category descriptions were used in Census 2010.

American Indian or Alaska Native: A person having origins in any of the original peoples of North and South America (including Central America), and who maintains tribal affiliation or community attachment.

Asian: A person having origins in any of the original peoples of the Far East, Southeast Asia, or the Indian subcontinent. The category includes persons who indicate their race as Cambodian, Chinese, East Indian, Filipino, Japanese, Korean, Malaysian, Pakistani, Thai, or Vietnamese.

Black or African American: A person having origins in any of the black racial groups of Africa.

Hispanic or Latino: A person of Cuban, Mexican, Puerto Rican, South or Central American, or other Spanish culture or origin, regardless of race.

Native Hawaiian or Other Pacific Islander: A person having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands.

White: A person having origins in any of the original peoples of Europe, the Middle East, or North Africa.
