Report Title: *Semiannual Report on Contracts for the Judicial Branch for the Reporting Period of January 1 through June 30, 2015*

Statutory Citation: Public Contract Code section 19209

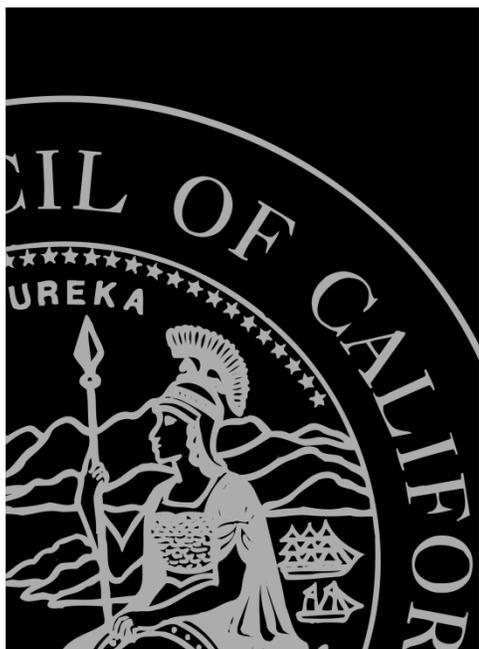

Date of Report: August 21, 2015

The Judicial Council has submitted a report to the Legislature in accordance with Public Contract Code section 19209. The following summary of the report is provided under the requirements of Government Code section 9795.

The Judicial Branch Contract Law (JBCL), enacted March 24, 2011, requires judicial branch entities to comply with the provisions of the Public Contract Code applicable to state agencies and departments related to the procurement of goods and services. The JBCL applies to all contracts entered into or amended by judicial branch entities on or after October 1, 2011.

The JBCL also requires the Judicial Council, beginning in 2012, to report to the Joint Legislative Budget Committee and the State Auditor semiannually on contracting activities by judicial branch entities. The reports must contain specific information, including details about payments received by vendors and contractors, and their associated contracts, contract amendments entered into by judicial branch entities with vendors or contractors, and the nature of the services or goods provided under the reported contracts and amendments. The reports exclude payments or contract amendment information that is statutorily restricted or excluded from reporting, information subject to any statutory restrictions on disclosure to third parties, or information on capital cases in active litigation.

This report covers the period of January 1 through June 30, 2015. The report runs several hundred pages (including attachments). Nearly \$233.2 million in payments was made by the superior courts and approximately \$210.4 million by the state judiciary (Supreme Court, Courts of Appeal, Habeas Corpus Resource Center, and Judicial Council). The report lists 10,365 contracts associated with these payments as well as 1,468 contracts with amendments. The full report can be accessed at www.courts.ca.gov/7466.htm. A printed copy of the report may be obtained by contacting Mr. Zlatko Theodorovic, Director, Finance, Judicial Council, at zlatko.theodorovic@jud.ca.gov.

**Semiannual Report on Contracts for the Judicial Branch for the Reporting
Period of January 1 through June 30, 2015:
Report to the Joint Legislative Budget Committee and the State Auditor as
Required by Public Contract Code Section 19209**

August 21, 2015

Introduction

The Judicial Council submits this report to the Joint Legislative Budget Committee and the California State Auditor under Public Contract Code section 19209 to provide information related to procurement of contracts for the judicial branch. The report includes a list of vendors and contractors as required by Public Contract Code section 19209(b). The report further identifies the amounts of payment(s) to the contractors and vendors, the types of services and goods provided, and the judicial branch entity or entities with which the contractors and vendors contracted to provide those goods and services. The report is a summary which includes a list of all new contracts and amended contracts as required by Public Contract Code section 19209(c) and identifies the vendors and contractors, the types of services and goods provided under the contract, including any changes to the contract value, type of services or goods, or the contract. Judicial branch entities are the Supreme Court, Courts of Appeal (COA), superior courts, Habeas Corpus Resource Center (HCRC), and the Judicial Council.

Because the operative date of the Judicial Branch Contract Law (JBCL) was October 1, 2011, only contracts entered into or amended after that date are included in this report. This report is developed on a semiannual basis and covers the six-month periods from January 1 through June 30 and July 1 through December 31. This report covers the period from January 1 through June 30, 2015.

Contracts Excluded From the Report

Public Contract Code section 19204(c) provides that the JBCL “does not apply to procurement and contracting by judicial branch entities that are related to trial court construction, including, but not limited to, the planning, design, construction, rehabilitation, renovation, replacement, lease, or acquisition of trial court facilities.” This section also states that the JBCL “shall apply to contracts for maintenance of all judicial branch facilities that are not under the operation and management of the Department of General Services.” Appropriate exclusions and inclusions based on the above subsections have been made in this report.

Also excluded from the report are the following contracts that are unique to the superior courts and are not subject to the JBCL:

- Contracts (often referred to as memoranda of understanding or MOUs) between a superior court and the sheriff for court security services;

- Contracts between a court and a court reporter, when the court reporter provides services as an independent contractor; and
- Contracts between a court and a court interpreter, when the court interpreter provides services as an independent contractor.

Other Reporting Features

The Trial Court Contract Report has been revised to provide a summary of contract activity during the reporting period for each contract on a single line. Previously, reports included multiple lines for a single contract, resulting in difficulty when the contracts were sorted.

Format of the Report

The Judicial Council's Finance office is responsible for preparing the report. The portion of the report that relates to the Supreme Court, Courts of Appeal, Habeas Corpus Resource Center, and Judicial Council is handled by Accounting and Business Services, which extracts data from the Oracle Financial System. The council's Trial Court Administrative Services office (TCAS) is responsible for compiling the information that relates to the superior courts, extracting data for the report from the Phoenix Financial System. Because Finance and TCAS use different information management systems, the format and data elements of various portions of the report differ. The four portions of the report are listed below.

- Superior courts:
 1. Trial Court Contract Report
 2. Trial Court Payment Report
- Supreme Court, Courts of Appeal, Habeas Corpus Resource Center, and Judicial Council:
 1. Contract Amendment Report
 2. Payment Report

The chart on the following page explains the differences in the format of the reports and describes the data elements.

This semiannual report includes all the information required by statute. Portions of the report related to the superior courts contain items of information (vendor ID), as listed above, that are not required for the Supreme Court, Courts of Appeal, Habeas Corpus Resource Center, and Judicial Council.

The superior court information includes contracts and contract amendments that were entered into during the reporting period, even if no payments were made. This is additional information

and is not required by the JBCL. The portion of the report related to the Supreme Court, Courts of Appeal, Habeas Corpus Resource Center, and Judicial Council does not include contracts for which no payment was made during the reporting period. The superior court report consolidates all payments to a vendor or contractor under one contract as one payment for the reporting period.

Statistics

On the following pages, a series of tables provides statistical information for the January 1 through June 30, 2015 reporting period. Note that some tables may include totals that may not equal 100 percent, due to rounding.

Report Information

Superior Courts

1. Trial Court Contract Report

The Phoenix Financial System is not configured to collect information about contracts in a manner that precisely matches the statutory reporting requirements. Below are some key factors to consider when reviewing the contract data related to the superior courts.

- The Trial Court Contract Report includes all contracts and amendments completed within the reporting period because including all contracts is more cost-effective than

developing a report that includes distinct contracts for only the vendors who received more than one payment in the reporting period. *Vendor* is often used synonymously with *contractor* in the report.

- Goods/Services descriptions are determined by the general ledger account(s) entered in the system.
- The only amendment descriptions that can be reported are changes in the overall value or duration of an agreement, or changes in the goods/services provided.
- The Phoenix Financial System cannot distinguish between a true amendment and an error correction. Screens were built to allow superior courts to review transactions included in the report and exclude changes that were error corrections. This design feature affects the accuracy of the data based on a court's ability/availability to review its transactions.

Contract Report Fields

The chart below contains a list of the report fields and their descriptions.

Field Name	Field Description
Court	Judicial Branch Entity. Name of the superior court with the associated contract.
Contract	Unique identifier for the contract which can be system generated or a court-specific number.
Vendor ID	Unique identifier for the vendor which can be system generated or a court-specific vendor identifier.
Vendor Name	Name of the vendor.
Last Reported Contract Value	When the transaction record is for a contract that has been previously reported, the value in this field will refer to the most recently reported contract value. Only contracts created or amended after January 1, 2012, have been reported.
Contract Value (New)	When the transaction record is for a new contract, the value in this field refers to the known or estimated original contract value.
Contract Value (Changed)	This value will indicate the increase or decrease to the contract value if the contract value changed within the reporting period. It is possible for this to occur in the same reporting period as a new contract.
Goods/Services (New)	When the transaction record is for an original contract, this field provides a description of the goods/services based on the general ledger accounts associated with the contract. The goods/services are rolled up from subaccounts, so descriptions may appear to be duplicates but are really separate subaccounts in the rolled-up category.

Field Name	Field Description
Goods/Services (Changed)	When the transaction record refers to an amendment to the goods/services, this field provides a description of the changed goods/services based on the general ledger accounts associated with the contract. The goods/services are rolled up from subaccounts, so descriptions may appear to be duplicates but are really separate subaccounts in the rolled-up category.
Contract Duration (New)	When the transaction record is for an original contract, this field refers to the original contract duration which is represented in months or a fraction thereof.
Contract Duration (Changed)	When the transaction record refers to an amendment to the current contract duration, the value will indicate the increase or decrease to the contract duration which is represented in months or a fraction thereof.
Total Contract Duration	This field represents the total contact duration, including cumulative changes to the original contract duration. The value is represented in months or a fraction thereof.

2. Trial Court Payment Report

Below are some key factors to consider when reviewing the payment data.

- Goods/Services descriptions are determined by the general ledger account(s) entered in the system.
- A single payment may have multiple lines of data in the file if the payment is for multiple goods/services. Simple sorting by contract number keeps these records together. They can also be sorted by court (JBE) or by vendor.

The chart below contains a list of the report fields and their descriptions.

Field Name	Field Description
JBE	Name of the superior court making the payment.
Contract Number	Unique identifier for the contract under which the payment was made. If the payment was not associated with a contract, this field will be blank.
Goods/Services	Description of the goods/services based on the general ledger account associated with the payment. The goods/services are rolled up from subaccounts, so descriptions may appear to be duplicates but are really separate subaccounts in the rolled-up category.
Vendor ID	Unique identifier for the vendor.
Vendor Name	Name of the vendor.
Total Payments	Total payments to a vendor, reported by court, contract, and goods/services under the contract. Data can be sorted in various ways to obtain totals by court, vendor, contract, goods/services, etc.

Supreme Court, Courts of Appeal, Habeas Corpus Resource Center, and Judicial Council

General Rules Applicable to These Portions of the Report

Contract and payment information concerning active litigation on capital cases is not reported at the request of the Habeas Corpus Resource Center under statutory and work-product principles.

1. Contract Amendment Report

Exclusions and explanations in the Contract Amendment Report follow:

- Schedule changes that constitute amendments to a contract indicate the cost of amendment as “0.00,” “n/a,” or “not applicable” because no additional cost was involved.
- “Change of cost and schedule of the work” has an associated cost. Cost changes result from any number of reasons, and there is no specificity for this data element in the Oracle Financial System. Further details related to the basis of the cost change require review of the individual contract.

2. Payment Report

Payments extracted from the Oracle Financial System were reviewed to determine whether they were contractual payments. Any payment types considered “non-contractual items” are excluded from the reporting, including:

- Payroll and other payments to state employees and judicial officers and the related benefits payments;
- Assigned judges’ compensation;
- Appellate court–appointed counsel panel attorney compensation claims (paid on court order);
- Most utilities;
- Postage;
- Travel reimbursements;
- Settlement charges; and
- Trial court allocations.

Some of the above payment types may be included in the superior court reports, such as utilities, postage, and travel reimbursements.
