

CCPOR Release 54 – Release Notes

(December 2018)

I. WHAT'S NEW IN THIS RELEASE

1. Added confidentiality regarding the CLETS-001 (Confidential CLETS Information) form image and data fields.
2. Additional method to handle the CARPOS Messages error ORI AGENCY INVALID FOR UPDATE
3. Added logic for default Agency value when creating a new order via Cloning
4. Added the administrative role to allow reversing Cancelled status of a record within CCPOR
5. Added message on the Other Information tab clarifying function of the Notes field.
6. Originating Agency Case Number added to the CARPOS Messages printout
7. Added sorting logic for the Image Attachments section on the Core Information tab
8. Added gun violence order types to the available search criteria on Search Orders screen, Order Type dropdown
9. Corrected message formatting issue when cloning an order with an Additional Protected Person(s), that caused error (REL INVALID DATA) in some situations.

II. DETAILED INFORMATION ON RELEASE ITEMS

1. ETMS00017644 – Adds masking of certain fields and the CLETS-001 form for Non-CLETS certified users.

The CLETS-001 form and its information are confidential per [California Rule of Court 1.51](#). This release item makes the form image and its data only visible to CLETS certified users in CCPOR.

Non-CLETS certified users will not be able to view the scanned image of the CLETS-001 form and will not be able to view the Restrained Person DL#, DL state, SSN, Vehicle, scars/marks/tattoo info, Protected Person Race and date of birth fields.

CLETS certified users' access will remain unchanged.

For example, for the record below, the CLETS certified user will see:

2. ETMS00017759 Creates an additional option for handling Invalid Agency CARPOS Message error

The CARPOS Message error "**ORI AGENCY INVALID FOR UPDATE**" is received when service information is entered in CCPOR and submitted to CARPOS, but service information has already been entered into CARPOS outside of CCPOR by a different agency. **As with any error, it must be addressed otherwise all subsequent modifications to the order will result in the same error message and CARPOS will not be updated.**

Currently this issue is addressed either by temporarily doing an order type change to clear the service information in CARPOS or by doing a Cancel and Clone of the affected order.

This release item introduces an additional option to address the error. A checkbox is now available on the Proof of Service tab that, if checked, will prevent the service information from being sent from CCPOR to CARPOS.

Important note: As long as the checkbox is checked service information from the Proof of Service tab will not be transmitted to CARPOS.

The following scenario depicted by Fig. 7 – 14 outlines how this checkbox can be used.

Sample Scenario:

- An order with Court Case Number JAORI2018B020 has been successfully created through CCPOR and transmitted to CARPOS.
- The order is served by an agency different from the one that created the order and the service is entered into CARPOS (*not* through CCPOR). This updates CARPOS but not CCPOR.
- A copy of the Proof of service is received by the court/agency that originally entered the order through CCPOR.
- Since the service information is blank in CCPOR, a user from the originating agency proceeds to enter the service information into CCPOR.
- Because the service information has been entered into CARPOS by a different agency, the error message "ORI AGENCY INVALID FOR UPDATE" is returned from CARPOS.

Fig. 7 The user needing to enter service information searches for a case and clicks the Modify link under Actions column in Search Results.

Message: **Type ERROR**

Message: **ORI AGENCY INVALID FOR UPDATE**

Fig. 12 To address the error, the user searches for the order on the Search Orders screen and clicks the Modify link from Search Results. On the Proof of Service tab, the previously entered data is still there. If the user were to make other modifications to the order, then the same error would continue to be received because that service data would continue to be sent. This release item adds a checkbox on the Proof of Service tab that, if checked, will suppress the sending of the proof of service data to CARPOS. In the image below the user checks the check box and clicks the Submit Order button to submit.

3. ETMS00017811 Defaulting of Agency value when cloning an order

An order can only be modified (with the exception of service) by a user belonging to the same ORI as the order.

Previously, when an order was cloned, the Agency (ORI) value on the new order would be set to the value that existed on the order being cloned. If that value was different than the ORI assigned to the user, that would result in a situation where the user would be unable to modify an order they had created via cloning.

After this enhancement, when cloning an order in CCPOR, the Agency value (ORI) on the new order will now default to the ORI assigned to the user even if the order being cloned is from a different ORI within the same County.

Figs. 15 – 18 below illustrate the change.

Fig. 15 Cancelled order exists with an Agency (ORI) value of **CA033013J**

4. ETMS00017809 Ability to revert Canceled status in CCPOR

The item creates an administrative role that allows a user to un-cancel an order in CCPOR. The use case for this is when a user Cancels an order in CCPOR but receives an ERROR in CARPOS Messages meaning that the Cancel did not go through into CARPOS. If the Error is something that can be fixed, then the user can “un-cancel” the order in CCPOR, correct the issue and then attempt to cancel again.

Notes:

- This is a role-based function. If you would like to have this right added to someone at your agency, please contact jccCCPORSupport@jud.ca.gov
- This feature should only be used when the Cancel transaction resulted in an error that is correctable.

Fig. 19 An Authorized user will see a link to Reverse Cancel on the Search Orders screen for orders in a Cancelled status

This option would only be appropriate if the error received when cancelling the transaction is something that the user can address. For example:

Fig. 20 The error below received when attempting to Cancel the order is indicating that the File Control Number (FCN) is inactive in CARPOS. Since this is not something the user can change in CCPOR, **this would NOT be a valid situation to reverse the Cancelled status.**

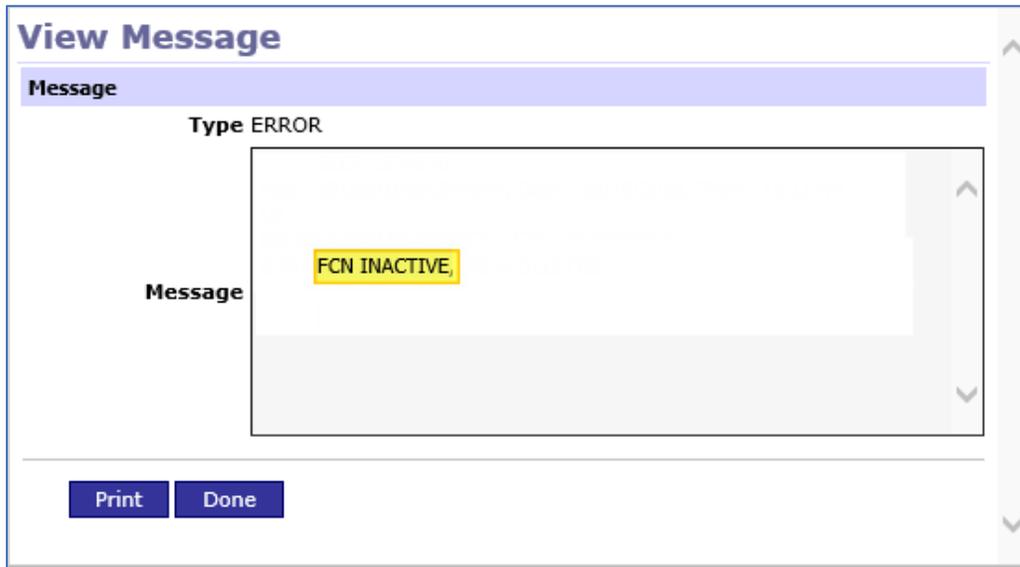

Fig. 21 The error below is indicating that the Date of Cancellation (DOC) is invalid because it is greater than the current system date. **This would be a valid situation to reverse the Cancelled status,** correct the Cancel Date and retry the Cancel transaction in CCPOR.

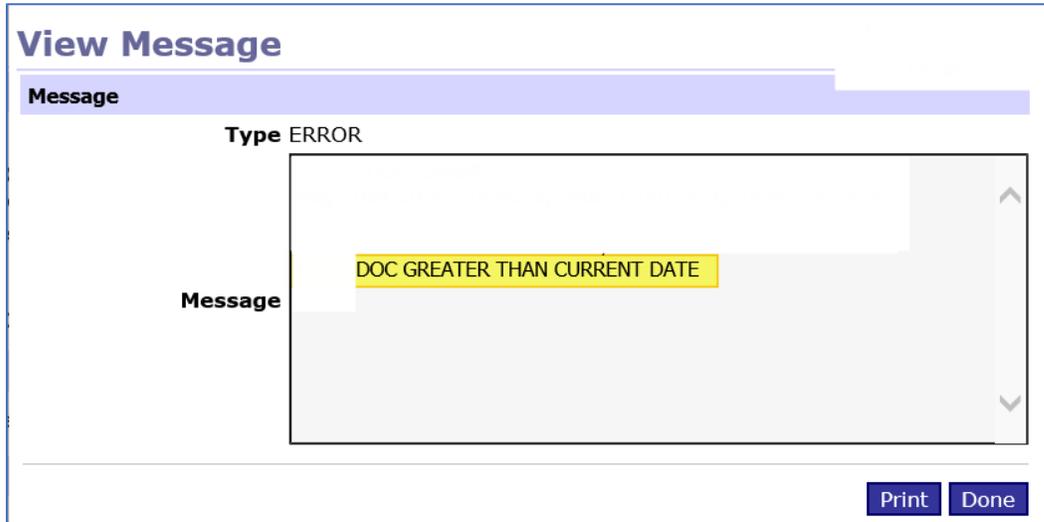

Fig. 22 The error below is indicating that the restrained person's name (NAM) from CCPOR does not match the restrained person's name in CARPOS so the Cancel transaction failed. **This would be a valid situation to reverse the Cancelled status**, change the name in CCPOR to match CARPOS and then retry the Cancel transaction in CCPOR.

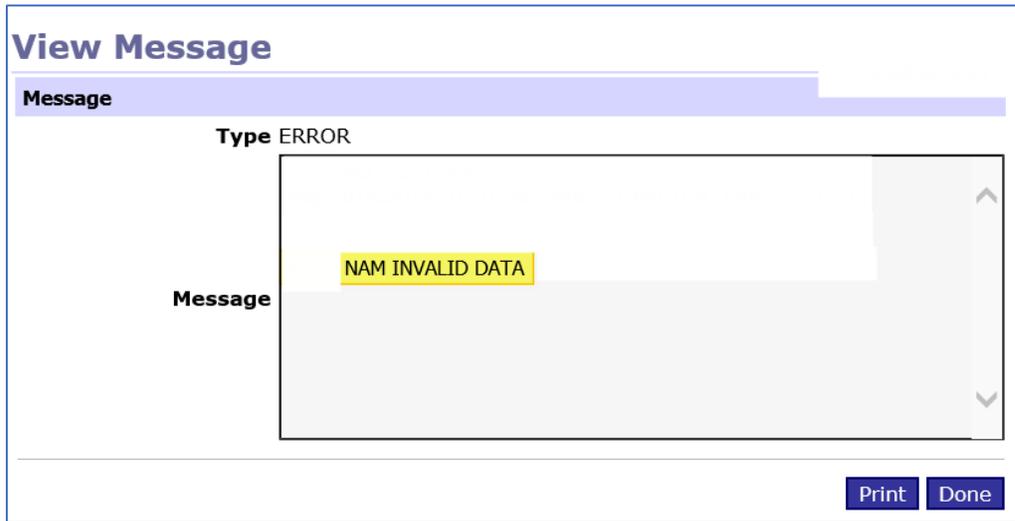

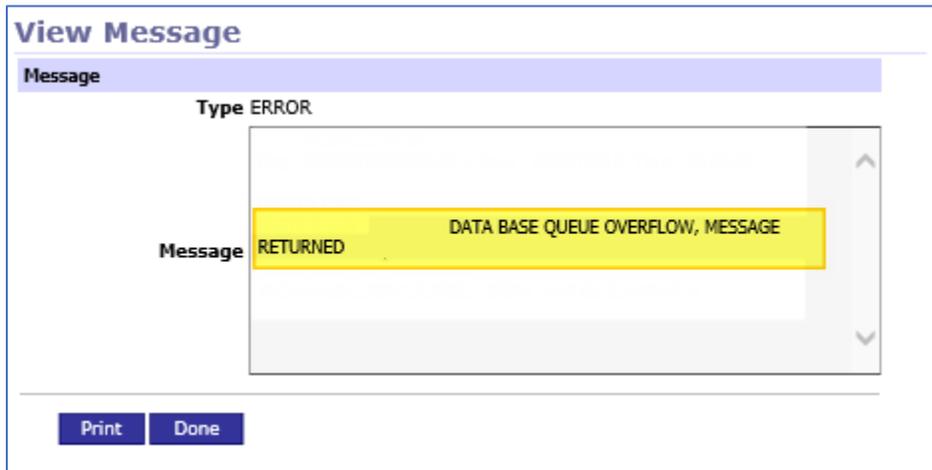

Fig. 23 The error below is indicating that the CARPOS database is experiencing an issue. **This would be a valid situation to reverse the Cancelled status** and try to Cancel again in a few minutes.

5. ETMS00017815 Add notice to Other Information tab

The Other Information tab in CCPOR contains a Notes text field. The data entered into this field does not get transmitted to CARPOS.

This item adds notice to the Other Information tab indicating that text entered in that field is not submitted to CARPOS.

Fig. 22 Prior to enhancement

The screenshot shows the 'Modify Protective Order' interface with the 'Other Information' tab selected. The 'Order Notes' section contains a large, empty text area labeled 'Notes'. A yellow highlight is present at the bottom of the form, above the 'Cancel' and 'Submit Order' buttons.

Fig. 23 Post-enhancement

The screenshot shows the 'Modify Protective Order' interface with the 'Other Information' tab selected. The 'Order Notes' section contains a large, empty text area labeled 'Notes'. Below the text area, a yellow box contains the following text: "(Important Note: Text entered into 'Notes' field above is not transmitted to DOJ CARPOS. If the information needs to be transmitted to CARPOS, please enter it in 'Other Orders' or 'Miscellaneous Orders' fields on 'Order Details' tab.)". The 'Cancel' and 'Submit Order' buttons are visible at the bottom right.

6. ETMS00017807 Add Originating Agency Case Number to header of printed CARPOS message

When printing out a CARPOS Message, the Originating Agency Case Number (OCA) now appears on the printout

9. ETMS00017703 When CLONING an order with Additional Protected Person(s), the request message sent to DOJ CARPOS was not formatted correctly in some situations

Prior to this release, when cloning an order that included an Additional Protected Person with the optional field of Relationship left blank, the formatting of data sent to CARPOS could result in an error (REL INVALID DATA) in CARPOS Messages.

This release item corrects the formatting issue so that the transaction can go through to CARPOS without error.

Before The Change:

Fig.27 When cloning an order with at least one Additional Protected Person(s) with no value selected for “Relationship” field:

Delete	APN	Name	DOB	Sex	Race	Relationship	Household
Delete	1	APPLNAA, APPFNAA	03/07/1980	M	P		N
Delete	2	APPLNBB, APPFNBB	11/29/1997	M	U		Y

Fig. 28 The user would receive CARPOS error message:

Case Number	Form	Issue Date	Expire Date	Restrained/ Respondent	Restrained/ Respondent DOB	Status	Request Date	Message
ETETEST100-M-1	DV-130	12/02/2016	12/29/2017	CVVBCVB, UOIUYUO	1990	Active	2017-06-15 10:47:22.165	ERROR

After The Change:

Fig. 29 There will be no CARPOS error message if no value was selected for “Relationship” field:

Case Number	Form	Issue Date	Expire Date	Restrained/ Respondent	Restrained/ Respondent DOB	Status	Request Date	Message
ETETEST100-M-1	DV-130	12/02/2016	12/29/2017	CVVBCVB, UOIUYUO	1990	Active	2017-09-07 16:53:38.04	RESPONSE RECEIVED

III. QUESTIONS/INFORMATION ON THIS RELEASE

Some of these enhancements have been implemented based on user requests. Your thoughts and feedback on the enhancements are always welcome. Please feel free to contact JCC CCPOR Support via email: jccCCPORSupport@jud.ca.gov if you have any questions or feedback. Thank you.
